Responsabilidad Por Daños Derivados Del Peaje:

Responsabilidad por daños derivados del peaje Martín Diego Pirola, 1999 **Jurisprudencia argentina**, 2001

Accidentes de tráfico y animales de caza María Teresa Alonso Pérez, 2021-07-01 El supuesto de daños derivados de accidentes de circulación en que intervienen animales cinegéticos es muy relevante debido al elevado número de siniestros de este tipo que se producen y al alto índice de litigiosidad en el sector. La regulación actual del supuesto se contiene en la DA 7 del Real Decreto Legislativo 6/2015 al que se remiten la casi totalidad de las normas autonómicas dictadas en materia de caza. Esta norma hace responsable al conductor de manera genérica y reduce notablemente los supuestos en que hacen frente a la indemnización los titulares de los aprovechamientos cinegéticos los cuales hasta hace poco tiempo habían sido considerados por la ley como casi los únicos responsables de este tipo de supuestos. Por último los titulares de las vías públicas responden en caso de defectuosa señalización o por no reparar el vallado. El statu quo normativo vigente es el resultado de una evolución normativa que trasplanta la regulación del supuesto desde el ámbito de la caza al del tráfico y que ha sido contestada desde los Tribunales en cada una de sus etapas procurando una interpretación de los sucesivos preceptos que condujera a los titulares de aprovechamientos cinegéticos la imputación de la responsabilidad. Aunque el Tribunal Constitucional ha dictado dos resoluciones SSTC 57/2018 y 112/2018 sobre diferentes aspectos de esta norma no ha tenido ocasión de pronunciarse acerca de si la norma infringe la prohibición de arbitrariedad de los poderes públicos del artículo 9.3 CE. A ello se suma que todavía no hay mucha jurisprudencia dictada sobre casos a los que se aplique la regulación vigente lo cual hace especialmente interesante este libro porque no sólo explica la razón de ser de la norma vigente sino que además proporciona líneas para su interpretación a los diferentes operadores jurídicos. La autora María Teresa Alonso Pérez es Profesora Titular de Derecho civil acreditada como Catedrática en la Universidad de Zaragoza. Sus líneas de investigación giran en torno al Derecho Patrimonial. Concretamente ha trabajado sobre Derecho del Consumo, contratos de servicios, modernización del Derecho de obligaciones y contratos vivienda y derechos reales. Los resultados de sus investigaciones se han publicado en monografías y artículos de revistas especializadas españolas y extranjeras. Ha participado en numerosos proyectos de investigación algunos de los cuales ha dirigido. Sus estancias de investigación en el extranjero se extienden a lo largo de toda su trayectoria: Institut Recherche Juridique de la Sorbonne, Institut de Droit Comparé en Lausane, Centre Droit de la Consommation en Louvain-la-Neuve, Búlgica, European Centre of Tort and Insurance Law en Viena etc. impartiendo docencia regularmente como profesora invitada en el Máster de Droit Privé de la Université de Rouen en Francia. Es miembro del Foro de la Vivienda órgano consultivo del Gobierno de Aragón y participa en tribunales arbitrales en materia de consumo. **La responsabilidad civil de los dueños, poseedores y usuarios de animales** Rafael Colina Garea, 2018-04-09 La tenencia o utilización en provecho propio de un animal genera un peligro abstracto que no es totalmente controlable para su propietario, poseedor o usuario y que puede materializarse en un daño para terceros. En la actualidad cada vez es mayor el número de

personas que optan por introducir animales en el contexto social ya no s lo para utilizarlos como instrumentos productivos o de trabajo sino como compa eros del ser humano al que proporcionan compa a Adem s recientemente se ha impuesto la moda de tener como mascotas a animales ex ticos que por naturaleza son claramente salvajes Debido a estas razones el riesgo de que una persona resulte da da por un animal sometido a la propiedad posesi n o servicio de otra se ha visto incrementado tanto cuantitativa como cualitativamente Con todo este tel n de fondo la presente obra pretende efectuar un amplio y profundo estudio sobre la responsabilidad civil de los due os poseedores y usuarios de animales Se trata de un trabajo construido en su integridad desde la praxis judicial y que ha sido elaborado tomando la jurisprudencia vertida en aplicaci n del art 1905 CC como fuente delimitadora de los temas y problemas a tratar Ahora bien esta intencionada tendencia al pragmatismo no est re ida con el car cter acad mico y cr tico que ha de revestir toda investigaci n universitaria lo cual convierte a este libro en una herramienta til y de inter s para todo profesional y estudioso del Derecho de Da os V
