Responsabilidad Social De Las Empresas En Un Mundo Global:

La responsabilidad social de la empresa a debate Rafael A. Araque Padilla, 2006 Reflexión a la luz de un marco teórico sobre la Responsabilidad Social de la Empresa para contribuir a impulsar un debate social *La responsabilidad social de las empresas y los nuevos desafíos de la gestión empresarial* Tomás G. Perdiguer, 2005 Los textos que han sido recogidos en esta obra constituyen una valiosa aportación al debate sobre la Responsabilidad Social de las Empresas RSE En ellos se refleja la rica pluralidad de voces y posiciones que suscitan los nuevos valores de responsabilidad tanto en el ámbito del pensamiento y la investigación académica como en el de las políticas públicas las organizaciones empresariales y sindicales y de los propios dirigentes de las empresas Sin embargo esta pluralidad de lecturas y de posiciones es compatible con dos tipos de acuerdos esenciales El primero es la aceptación de la necesidad de un enfoque más responsable de la gestión firmemente comprometido con el cuidado del impacto económico social y ambiental de las decisiones y actividades empresariales El segundo se refiere al desarrollo de una nueva visión de la empresa como una institución mucho más abierta a otras necesidades intereses y expectativas diferentes a las de los propios gestores y accionistas lo que exige la búsqueda de un equilibrio más equitativo entre los distintos grupos participantes en la actividad económica stakeholders Tomás G Perdiguer es profesor titular de Comunicación Audiovisual y Publicidad en la Universidad Rey Juan Carlos de Madrid Ha participado activamente en el debate europeo sobre la Responsabilidad Social de las Empresas Entre sus principales contribuciones al desarrollo de la investigación en España sobre la RSE debe destacarse el libro La responsabilidad social de las empresas en un mundo global finalista del Premio Anagrama de Ensayo en 2003 Es miembro del Grupo de Investigación sobre la RSE de la Universitat de Valencia *La responsabilidad social corporativa interna* Manuel Carneiro Caneda, 2004 La responsabilidad social un concepto empresarial de actualidad La responsabilidad social interna Las nuevas orientaciones que agruja la responsabilidad social interna Derechos Humanos, Empresas Transnacionales y Responsabilidad Social Empresarial López-Francos de Busturia, Andrea A, 2015-09-01 Esta obra pone en valor los efectos y las consecuencias que se derivan del hecho de admitir como válido un sistema en el que se permite y consiente que las empresas perciban el cumplimiento de los Derechos Humanos como una opción voluntaria A través del análisis de informes estudios jurisprudencia convenios internacionales principios reglas y directrices emanadas de Estados y organizaciones internacionales este libro presenta una sólida y coherente narrativa sobre la realidad actual de las empresas y sus políticas internas que fomentan el respeto y promoción de los Derechos Humanos A pesar del desarrollo reciente y compromiso por parte de las empresas en la protección de Derechos Humanos en sus ámbitos de actuación las empresas deben asumir la responsabilidad derivada de los impactos nocivos que el desarrollo de su actividad puede provocar en la sociedad y aprender a gestionar la Responsabilidad Social Empresarial que se presenta como una herramienta adecuada para contribuir a la mejora del modelo productivo y en definitiva a la consecución de un mundo sostenible gracias a su compromiso veraz con el respeto de los Derechos Humanos

de sus trabajadores de su entorno geográfico y de las sociedades humanas en las que interactúan. El análisis contenido en este libro muestra la evolución de los Derechos Humanos en la empresa y las respuestas que se deben dar a la problemática correspondiente. Se enriquece gracias a varios artículos relacionados con la obra principal a la exposición de ejemplos empresariales y con entrevistas a expertos en la materia por su desempeño profesional.

Historical and Future Global

Impacts of Armed Groups and Social Movements: Emerging Research and Opportunities

Baisotti, Pablo Alberto, Pozzi, Pablo, 2020-06-05 Resistance movements to economic measures and militaristic policies have been increasing in Latin America and the Caribbean since the 1960s. Indigenous and peasant movements are advancing against the exploitation of their territories by mining oil and other companies as well as movements of migrants, women and other popular rural and urban sectors. Historical and Future Global Impacts of Armed Groups and Social Movements Emerging Research and Opportunities is an essential scholarly publication that examines resistance and alternative movements that protest existing government systems and political injustice. Featuring a wide range of topics such as neoliberalism, social movement and dictatorship, this book is ideal for politicians, historians, diplomats, sociologists, international relations officers, policymakers, researchers, professionals, government officials, academicians and students.

Responsabilidad social de la empresa

Luis de Sebastián, 2007 En este número de Documentación Social se ha reunido a un conjunto de especialistas provenientes del campus universitario y de escuelas de negocios con experiencia en consultoría a empresas que preguntan sobre su RSE y vinculados con centros internacionales donde se discuten estos temas. El objetivo de esta publicación es dar a conocer diversos aspectos de la RSE que están en la boca de todos aquellos relacionados con el mundo empresarial y el público en general. También se pretende influir en la movilización de los ciudadanos como consumidores y clientes de las empresas sugiriendo al mismo tiempo de qué manera las acciones colectivas pueden servir para reforzar los estímulos que llevan hoy en día a las empresas a aceptar sus responsabilidades sociales y actuar en consonancia.

The Role of Large Enterprises in Democracy and Society B. Fryzel, P. Dembinski, 2015-12-04 Uses both political and democratic studies perspectives as well as economic philosophical and managerial to provide a practical insight into the issues like the extensive economic power of large enterprises and changing balance of power between public and private sector regulation and the governance of large private entities.

The Debate over Corporate Social Responsibility

Steven K. May, George Cheney, Juliet Roper, 2007-04-19 Should business strive to be socially responsible and if so how? The Debate over Corporate Social Responsibility updates and broadens the discussion of these questions by bringing together in one volume a variety of practical and theoretical perspectives on corporate social responsibility. It is perhaps the single most comprehensive volume available on the question of just how social business ought to be. The volume includes contributions from the fields of communication, business law, sociology, political science, economics, accounting and environmental studies. Moreover, it draws from experiences and examples from around the world including, but not limited to, recent corporate scandals and

controversies in the U S and Europe A number of the chapters examine closely the basic assumptions underlying the philosophy of socially responsible business Other chapters speak to the practical challenges and possibilities for corporate social responsibility in the twenty first century One of the most distinctive features of the book is its coverage of the very ways that the issue of corporate social responsibility has been defined shaped and discussed in the past four decades That is the editors and many of the authors are attuned to the persuasive strategies and formulations used to talk about socially responsible business and demonstrate why the talk matters For example the book offers a careful analysis of how certain values have become associated with the business enterprise and how particular economic and political positions have been established by and for business This book will be of great interest to scholars business leaders graduate students and others interested in the contours of the debate over what role large scale corporate commerce should take in the future of the industrialized world

Sagrado/profano Josetxo Beriaín, Ignacio Sánchez de la Yncera, 2010 Hasta muy recientemente la teoría general de la secularización originada en Europa a finales del siglo XVIII ha proyectado la imagen de un progreso inevitable sustentado en una concepción finalista de la evolución de las sociedades que conducía inexorablemente de lo sagrado a lo secular. Se creía que cuanto más moderna fuera una sociedad más secular tenía que ser y por ello también menos religiosa. Sin embargo los trabajos que presentamos en este libro exponen que lo que la realidad exhibe es un proceso que avanza entre lo sagrado y lo secular siempre que estas categorías se consideren en constante tensión dinámica. No vivimos en un mundo donde quepa hacer tabula rasa de la vieja distinción trascendencia/inmanencia como ingenuamente se pensaba en una primera oleada secularizadora que consideraba a la sociedad moderna asentada de forma irreversible en la pura inmanencia de un mundo secular. Con el fin de ofrecer indicadores sociológicos de esta reorientación conceptual se analizan los conceptos de modernidad, progreso, diferenciación funcional y aceleración social así como los nuevos estilos de vida, las prácticas de consumo, las nuevas identidades narrativas y sus portadores sociales. Por último analizamos el conjunto de metamorfosis que experimenta la violencia así como la emergencia de nuevos miedos colectivos.

La responsabilidad social de las empresas en un mundo global Tomás G. Perdiguer, 2003-01-01 Se analizan las causas que contribuyen al poder e influencia de las grandes empresas aportando evidencias empíricas sobre el final de la fascinación que el mundo de los negocios ha ejercido sobre una sociedad adormecida y encerrada en lo estrictamente privado. Para el autor la fundamentación del concepto de Responsabilidad Social de la Empresa como enfoque crítico a los modelos de crecimiento de las grandes empresas adquiere sentido en el marco de las nuevas ambiciones de racionalidad asociadas al debate europeo sobre ese concepto.
