Ristoff, 1998 John Updike's *Rabbit at Rest* Appropriating History is a new historicist reading of Updike's last Rabbit novel It follows the day to day chronology of events in the novel and in the media showing how history with its variety and polyphonic immediacy is appropriated by the characters with what criteria through which tropes and to what ideological purpose Although the emphasis of the text falls on Updike's appropriation of American history in the 1980's as it manifests itself in *Rabbit at Rest* significant references are also made to the other Rabbit novels These novels show how the history of the earlier decades is made into a motive for the characters thoughts feelings and actions *Living Clojure* Carin Meier, 2015-04-14 Annotation If you're an experienced programmer looking for a thorough but gentle introduction to Clojure this is the perfect guide for you Author Carin Meier not only provides a practical overview of this JVM language and its functional programming concepts but also includes a complete hands on training course to help you learn Clojure in a structured way *Resting Places* Scott Wilson, 2016-08-19 In its third edition this massive reference work lists the final resting places of more than 14 000 people from a wide range of fields including politics the military the arts crime sports and popular culture Many entries are new to this edition Each listing provides birth and death dates a brief summary of the subject's claim to fame and their burial site location or as much as is known Grave location within a cemetery is provided in many cases as well as places of cremation and sites where ashes were scattered Source information is provided **RABBIT**
