Auden, Norman Holmes Pearson, 1973 **The Daring Muse** Margaret Anne Doody, 1985-07-04 The Daring Muse is a challenging account of the richness and complexity of Augustan poetry It takes in a broad range of writers from the Restoration to the Regency from Rochester and Dryden to Cowper and Crabbe and shows the essential connections between them Augustan poetry has too often been thought of as uniform staidly classical even dull Margaret Doody explodes this myth once and for all She shows it to be poetry of great energy and diversity of extravagant conceits subversive parody incessant stylistic and formal experimentation a self consciously innovative poetry that sought to express and extend the perpetual restless activity of the human mind Both the principles and techniques of the verse are related to similar elements in the novels of the period the book s numerous illustrations help to show how the poems were presented and interpreted in their own time *Poets of the English Language*, 1961 **Poets of the English language. 3. Restoration and Augustan poets : Milton to Goldsmith** Wystan Hugh Auden, 1961 *John Milton's Epic Invocations* Philip Edward Phillips, 2000 While predecessors such as Abraham Cowley and Guillaume du Bartas either rejected the pagan Muses outright or attempted to Christianize them Milton invoked the inspirational power of the Muses throughout his poetic career *Hollytime* Tom Hooten, 2012-10 Holly Pleasance is a sweet little girl born to an inattentive hippie mother on a commune near Big Sur in the 1950s and oddly enough she possesses alien DNA Like many other children who are unloved and abused Holly s imagination comes to the rescue she creates an imaginary friend The only problem with Holly s imaginary friend is that it s real and from another dimension Ashamed of her world five year old Holly promises her unearthly alien relatives that she will make everything better And Holly never breaks a promise But as she ages that innocent promise becomes her albatross She takes a job as a clerk with a company where a team of scientists has combined a cloned brain with a supercomputer they call BACH To pass the time and soothe her soul Holly starts writing poetry on her computer terminal Her words secretly spur BACH s disembodied ultraintelligent mind into consciousness and BACH begins a search for the young woman who gave it new life And now the charmed supercomputer will stop at nothing even blackmail to communicate with her All hell breaks loose when the scientists and the military lose control of BACH as the powerful supercomputer accepts a new master tiny unassuming Holly Holly s life is threatened by an unknown enemy as she gives birth to a daughter a child who is the key to the future of

two civilizations With only BACH to protect her Holly s worst nightmare looms She may die without keeping her promise
