France Ian Littlewood,2002 Provides a concise overview of France s history from its beginnings to the present day 2002 by use of time lines sidebars illustrations and quotes **Themes in Modern European History 1830-1890** Bruce Waller,2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent s standing was at its highest and its influence spanned the globe The Romantic Machine John Tresch,2012-06-05 Introduction Mechanical Romanticism DEVICES OF COSMIC UNITY Amp re s Experiments Contours of a Cosmic Cubstance Humboldt s Instruments Even the Tools Will Be Free Arago s Daguerreotype The Labor Theory of Knowledge SPECTACLES OF CREATION AND METAMORPHOSIS The Devil s Opera Fantastic Physiospiritualism Monsters Machine Men Magicians The Automaton in the Garden ENGINEERS OF ARTIFICIAL PARADISES Saint Simonian Engines Love and Conversions Leroux s Pianotype The Organogenesis of Humanity Comte s Calendar From Infinite Universe to Closed World Conclusion Afterlives of the Romantic Machine The Year Without Summer William K. Klingaman,Nicholas P. Klingaman,2013-02-26 Like Winchester s Krakatoa The Year Without Summer reveals a year of dramatic global change long forgotten by history In the tradition of Krakatoa The World Without Us and Guns Germs and Steel comes a sweeping history of the year that became known as 18 hundred and froze to death 1816 was a remarkable year mostly for the fact that there was no summer As a result of a volcanic eruption in Indonesia weather patterns were disrupted worldwide for months allowing for excessive rain frost and snowfall through much of the Northeastern U S and Europe in the summer of 1816 In the U S the extraordinary weather produced food shortages religious revivals and extensive migration from New England to the Midwest In Europe the cold and wet summer led to famine food riots the transformation of stable communities into wandering beggars and one of the worst typhus epidemics in history 1816 was the year Frankenstein was written It was also the year Turner painted his fiery sunsets All of these things are linked to global climate change something we are quite aware of now but that was utterly mysterious to people in the nineteenth century who concocted all sorts of reasons for such an ungenial season Making use of a wealth of source material and employing a compelling narrative approach featuring peasants and royalty politicians writers and scientists The Year Without Summer by William K Klingaman and Nicholas P Klingaman examines not only the climate change engendered by this event but also its effects on politics the economy the arts and social structures *Our Friends the Enemies* Christine Haynes,2018-11-05 The Battle of Waterloo was just the beginning of a long transition to peace Christine Haynes offers the first comprehensive history of the post Napoleonic occupation of France Transforming former

European enemies into allies the mission established Paris as a cosmopolitan capital and foreshadowed postwar reconstruction in the twentieth century **Music Drama at the Paris Odéon, 1824-1828** Mark Everist,2002-12-04 By illuminating the working of one of the most prominent opera houses of the period Everist reveals how the opera scene in Paris shaped the history of opera **Justice and the Genesis of War** David A. Welch,1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight *Husbands, Wives, and Lovers* Patricia Mainardi,2003-01-01 In this interdisciplinary exploration of the cultural and social history of early 19th century France Patricia Mainardi focuses on what was considered a major social problem of the time adultery In a period when expectations about marriage were changing the problems of husbands wives and lovers became a major theme in theatre literature and the visual arts The author demonstrates that this intense interest was historically grounded in the post revolutionary collision between the new concept of the individual s right to happiness and the traditional prerogatives of family and state duty or happiness more important Are arranged marriages doomed to be empty of love and poisoned by adultery Should adulterous wives and their lovers be punished while husbands may commit adultery with impunity Out of such legal social and cultural debates ultimately emerged modern bourgeois family values Mainardi argues And she illuminates how art in all its varieties both influences and is influenced by social change [Art in an Age of Counterrevolution, 1815-1848](#) Albert Boime,2004-08-18 Publisher Description **The Great Restoration: Post-Communist Transformations from the Viewpoint of Comparative Historical Sociology of Restorations** Zenonas Norkus,2023-09-20 The revolutions of 1989 remains the standard term used to describe the onset of post communist transformations more than thirty years ago Zenonas Norkus proposes a completely new perspective theorising them as the next wave of modern social restorations starting with the post Napoleonic restorations in 1815 A comparison of the 1789 French and 1917 Russian revolutions was seminal for the rise of comparative historical and sociological research on modern revolutions The book extends and supplements the sociology of modern revolutions by the first systematic outline of the sociology of modern social restorations grounded in a comparison of post Napoleonic and post communist restorations [Encyclopedia of Nineteenth-century Thought](#) Gregory Claeys,2005 Covering the period from 1789 to 1914 this work primarily deals with key figures and ideas in social and political thinking but entries also include science religion law art

concepts of modernity the body and health thereby covering comprehensively the intellectual history of the period **A History of the European Restorations** Michael Broers, Ambrogio A. Caiani, 2019-11-14 Europe's Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re-ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations **A Century of Revolution, 1789-1920** Margaret Kennedy, 1922 **European Politics 1815-1848** Frederick C. Schneid, 2017-05-15 The three intervening decades between the Congress of Vienna and the Revolutions of 1848 are marked by enormous social political economic and cultural change Liberalism nationalism romanticism and industrialism profoundly affected the course of Europe and compelled conservative monarchies to accept the principles of collective action and military force to curb political revolution In the years immediately following 1815 the Quadruple and Holy Alliances served the dual purpose of preventing a restoration of Bonapartism and suppressing revolutions By the 1820s these international associations dissipated but the principles upon which they were founded informed the decisions of the respective governments through 1848 The classic articles and papers collected in this volume attempt to illustrate that despite the substantial changes to European society which occurred during these thirty years European powers accepted common principles which influenced their state's domestic and foreign policies Restoration and Reaction, 1815-1848 André Jardin, André Jean Tudesq, 1983 Immigration Into France Mike Nicholas Stratas, 1995 The Extreme Right in France, 1789 to the Present Peter Davies, 2002 Since 1789 the far right has been an important factor in French political life and in different eras has taken on a range of different guises This work surveys the history of this contentious political and intellectual tradition **Murder in Our Midst** Omer Bartov, 1996 He shows how the way we understand ourselves reflects the ambivalent effects of the Holocaust on our perceptions of war and violence history and memory progress and barbarism **High Schools of Vermont**, 1924 **Restoration and Reaction, 1815-1848** Andre Jardin, Andre Jean Tudesq, 1973 History of France in 19th century
