The Just and the Lively Michael Werth Gelber, 2002 Recognition is often considered a means to de-escalate conflicts and promote peaceful social interactions This volume explores the forms that social recognition and its withholding may take in asymmetric armed conflicts examining the risks and opportunities that arise when local state and transnational actors recognise misrecognise or deny recognition of armed non state actors By studying key asymmetric conflicts through the prism of recognition it offers an innovative perspective on the interactions between armed non state actors and state actors In what contexts does granting recognition to armed non state actors foster conflict transformation What happens when governments withhold recognition or label armed non state actors in ways they perceive as misrecognition The authors examine the ambivalence of recognition processes in violent conflicts and their sometimes unintended consequences The volume shows that while non recognition prevents conflict transformation the recognition of armed non state actors may produce counterproductive precedents and new modes of exclusion in intra state and transnational politics *Partisan Politics, Narrative Realism, and the Rise of the British Novel* R. Carnell, 2006-08-19 This book considers why narrative realism in literature is seen as a full account of real life and the individual self Unconventionally Carnell shows that the formal conventions of narrative realism emerged in the seventeenth century in response to an explosion of partisan writings that put into play competing versions of political selfhood *Systems of Order and Inquiry in Later Eighteenth-Century Fiction* Eric Rothstein, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 **New Perspectives on Handel's Music** David Vickers, 2022 Much like a baroque drama per musica this book is divided into a three parts Part I introduces the principal characters Handel's musical works in different genres and diverse aspects of his musical style and creative practices Part II develops complications to the plot there is new information about the authenticity and chronology of works and analysis of musical literary and documentary sources Part III brings all of these scholarly strands together and leads to a set of outcomes a fresh examination of the broader context of Handel's music in relation to his contemporaries and collaborators sits alongside reception studies This collection will be essential reading for baroque music admirers performers experts and students David Vickers is Lecturer in Academic Studies at Royal Northern College of Music Manchester and Council Member of the Handel Institute **The Lively Arts of the London Stage, 1675-1725** Kathryn Lowerre, 2016-12-05 Unlike collections of essays which focus on a single century or whose authors are drawn from a single discipline this collection

Dramatic Character in the English Romantic Age Joseph W. Donohue Jr., 2015-03-08 This was the age of the star For the first time in the history of the theater the playwright took second place to the actor the interpretation of the role assumed primary importance in assessing a performance It was Mr Kean's *Hamlet* first and Mr Shakespeare's second What effects did this highly subjective interpretive emphasis have on the drama Where did it originate and how did it evolve These questions are considered at length in the author's analysis of the nature of Romanticism itself as revealed in essays novels criticism and by the actors themselves The Jacobean origins of this revolutionary period are reviewed followed by a close scrutiny of the critical writing of such contemporary thinkers as Hazlitt Coleridge Shelley and Keats This entirely new concept provides an important link between the practical theater and the contemporary philosophical thought of the time Originally published in 1970 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of

the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Colonizer and Colonized , 2021-11-08 Over the last two decades the experiences of colonization and decolonization once safely relegated to the margins of what occupied students of history and literature have shifted into the latter's center of attention in the West as elsewhere This attention does not restrict itself to the historical dimension of colonization and decolonization but also focuses upon their impact upon the present for both colonizers and colonized The nearly fifty essays here gathered examine how literature now and in the past keeps and has kept alive the experiences both individual and collective of colonization and decolonization The contributors to this volume hail from the four corners of the earth East and West North and South The authors discussed range from international luminaries past and present such as Aphra Behn Racine Blaise Cendrars Salman Rushdie Graham Greene Derek Walcott Guimar es Rosa J M Coetzee Andr Brink and Assia Djebar to less known but certainly not lesser authors like Gioconda Belli Ren Depestre Amadou Kon Elisa Chimenti Sapho Arthur Nortje Es kia Mphahlele Mark Behr Viktor Paskov Evelyn Wilwert and Le la Houari Issues addressed include the role of travel writing in forging images of foreign lands for domestic consumption the reception and translation of Western classics in the East the impact of contemporary Chinese cinema upon both native and Western audiences and the use of Western generic novel conventions in modern Egyptian literature

Arms and the Imagination Robert C Gordon, 2009-07-16 From the time of John Milton to that of William Blake the literature of Britain absorbed the impact of two major military developments In the early modern era the military revolution strove to establish permanent armies under state discipline and in England the resistance to this development exhibited in the controversy over standing armies In this penetrating and highly original study Gordon demonstrates that military debate encouraged by Britain's semi secure insular situation had a remarkable impact on the British imagination and its narratives Affected were structure and closure character evaluation heroic and mock heroic styles attitudes toward love and marriage and the roles of locality and environment in the shaping of the national and personal character More remarkable still these effects signaled the emergence of a civilian consciousness that still influences our

literary preference and expectations **Spenser, Milton, and the Redemption of the Epic Hero** Christopher Bond, 2011-04-29 This book studies the interplay of theology and poetics in the three great epics of early modern England the Faerie Queene Paradise Lost and Paradise Regained Bond examines the relationship between the poems primary heroes Arthur and the Son who are godlike virtuous and powerful and the secondary heroes Redcrosse and Adam who are human fallible and weak He looks back at the development of this pattern of dual heroism in classical Medieval and Italian Renaissance literature investigates the ways in which Spenser and Milton adapted the model and demonstrates how the Jesus of Paradise Regained can be seen as the culmination of this tradition Challenging the opposition between Calvinist allegorical Spenser and Arminian dramatic Milton this book offers a new account of their doctrinal and literary affinities within the European epic tradition Arguing that Spenser influenced Milton in fundamental ways Bond establishes a firmer structural and thematic link between the two authors and shows how they transformed a strongly antifeminist genre by the addition of a crucial although at times ambivalent heroine He also proposes solutions to some of the most difficult and controversial theological cruxes posed by these poems in particular Spenser s attitude to free will and Milton s to the Trinity By providing a deeper understanding of the religious agendas of these epics this book encourages a rapprochement between scholarly approaches that are too narrowly concerned with either theology or poetics **Staging the Ottoman Turk** Esin Akalin, 2016-10-11 In the wake of the fear that gripped Europe after the fall of Constantinople in 1453 English dramatists like their continental counterparts began representing the Ottoman Turks in plays inspired by historical events The Ottoman milieu as a dramatic setting provided English audiences with a common experience of fascination and fear of the Other The stereotyping of the Turks in these plays revolving around complex themes such as tyranny captivity war and conquests arose from their perception of Islam The Ottomans failure in the second siege of Vienna in 1683 led to the reversal of trends in the representation of the Turks on stage As the ascending strength of a web of European alliances began to check Ottoman expansion what then began to dazzle the aesthetic imagination of eighteenth century England was the sultan s seraglio with images of extravaganza and decadence In this book Esin Akalin draws upon a selective range of seventeenth and eighteenth century plays to reach an understanding both from a non European perspective and Western standpoint how one culture represents the other through discourse historiography and drama The book explores a cluster of issues revolving around identity and difference in terms of history ideology and the politics of representation In contextualizing political cultural and intellectual roots in the ideology of representing the Ottoman Muslim as the West s Other the author tackles with the questions of how history serves literature and to what extent literature creates history *The Making of British Bourgeois Tragedy* Alex Eric Hernandez, 2019-10-03 The rise of the middle class in the eighteenth century has long been taken to usher in a prosaic age synonymous with the death of tragedy an age in which the sheer ordinariness of bourgeois life was both antithetical and inured to the tragic But the period s literature tells a very different story Re assembling a body of print and

performance concerned with the misfortunes of the middling sort The Making of British Bourgeois Tragedy argues that these works imagined a particularly modern sort of affliction an ordinary suffering proper to ordinary life divested of the sorts of meanings rhetorics and affective resonances once deployed to understand it Whereas neoclassical aesthetics aligned tragedy with the heroic and the admirable this bourgeois and domestic tragedy treated the pain of common people with dignity and seriousness meditating upon a suffering that was homely familiar entangled in the nascent values of capitalism yet no less haunted by God Hence where many have seen aesthetic stagnation misfiring emotion and the absence of an idealized tragicness in the genre this volume sees instead a sustained engagement in the emotional processes and representational techniques through which the middle rank feels its way into modernity By attending closely to this long neglected subject The Making of British Bourgeois Tragedy turns the critical account of eighteenth century tragedy on its head It reads the genre s emergence in the period as a vigorous cultural conversation on whose life and whose way of life is grievable as well as how mourning might be performed

A Race Of Female Patriots Brett Wilson, 2012 A Race of Female Patriots is a study of tragic drama after the Glorious Revolution of 1688 that yields new insight into women s involvement in the public sphere and the political and aesthetic significance of feeling
