and institutionalized practices and are they involved in mediation in penal matters In what ways do police officers contribute to informal restorative practices and conflict resolution in neighborhoods This book is about restorative policing practices and the place and role police forces can take in this kind of approach      **Social Work and Restorative Justice** Elizabeth Beck,Nancy P. Kropf,Pamela Blume Leonard,2010-11-11

*Migration in the Age of Genocide* Alastair Davidson,2015-08-26 This book presents a novel proposal for establishing justice and social harmony in the aftermath of genocide It argues that justice should be determined by the victims of genocide rather than a detached legal system since such a form of justice is more consistent with a socially grounded ethics with a democracy that privileges citizen decision making and with human rights The book covers the Holocaust genocides in Argentina South Africa Rwanda Latin America and Australia as well as crimes against humanity in Italy and France From show trials to state enforced forgiveness the book examines various methods that have been used since 1945 to punish the individuals and groups responsible for genocide and how they have ultimately failed to deliver true justice to the victims The only way to end this failure the book points out is to return justice to the victims This simple proposition however challenges the Enlightenment tradition of Western law which was built on the refusal to allow victims to determine the measure of justice That would amount according to Bacon Hegel and Kant to a revenge system and bring social chaos But as this book points out forgiveness is only something victims can give no one can demand it In order to establish a lasting peace it is necessary to re examine the philosophical and theoretical refusal to return justice to the victims The engaging argument put forth in this book can help deliver true justice and re establish international social harmony in the aftermath of genocide Genocide is ubiquitous in the modern global world It s understanding is highly relevant for the understanding of specific and perpetuating challenges in migration Genocide forces the migration of millions to avoid crimes against humanity When they flee war zones they bring their fears hates and misery with them So migration research must engage fully with the experience of genocide its human consequences and the ethical dilemmas it poses to all societies Not to do so will make it more difficult to understand and live with newcomers and to achieve some sort of harmony in host countries as well as those which are centers of genocide      **Governing Paradoxes of Restorative Justice** George Pavlich,2013-01-11

Restorative justice is the policy of eschewing traditional punishments in favour of group counselling involving both victims and perpetrators Until now there has been no critical analysis of governmental rationales that legitimize restorative practices over traditional approaches but *Governing Practices of Restorative Justice* fills this gap and addresses the mentalities of governance most prominent in restorative justice The author provides comprehensible commentary on the central images of this discursive arena in a style accessible to participants and observers alike of restorative justice      **Informal Reckonings**
