Taylor,2012-01-23 Leading economist John B Taylor s straightforward plan to rebuild America s economic future by returning to its founding principles Mired in a crippling economic slump and hamstrung by partisan political debates America faces substantial economic challenges from widespread unemployment to the government s ballooning debt These assaults on our prosperity reflect the unintended consequences of more than a decade of government intervention in virtually all areas of the economy Stanford University economist John B Taylor proposes a natural and reasonable solution to our economic challenges return to the country s founding principles limited government rule of law strong incentives reliance on markets a predictable policy framework and rekindle its economic dynamism **Building Godly Nations** Stephen K. McDowell,2004-03 Jesus commissioned believers to make disciples of all nations which according to Bible Commentator Matthew Henry means to do your utmost to make the nations Christian nations How do we make the nations Christian How do we build Godly nations The Bible teaches that if a people obey God s laws they will have liberty peace prosperity and justice But we must obey all of God s laws to experience the abundance of God s blessing To the extent we obey in all areas of life is the extent we will experience the Godly fruit of liberty The Founders of America understood this vital truth and attempted to build the nation upon the precepts of God and though not without fault their efforts produced the best example of a Christian nation in history Thus there are many important lessons we can learn from the American Founders as we seek to build Godly nations today This book examines the mandate for building Godly nations lessons from America s Christian history and how to apply Biblical principles to governing the nations *Education, Morality, and Our Nation - Restoring America to Greatness* William Marchena,2017-07-17 An educator within the New York City school system Dr William Marchena has become very concerned with the condition of our failing school system and the moral decline of what was once

a great nation the United States After the conclusion of his doctorate William Marchena has wholeheartedly sought and researched the solution for restoring our schools and returning America to greatness Ultimately William s conclusion is the same as his original thought we need to return fully to the ways of the God in the Holy Scriptures Throughout this book which William considers a major project the reader will get a vivid understanding as to why it is imperative for our nation to seek the ways of God as our Founding Fathers did over two hundred years ago If my people who are called by my name will humble themselves and pray and seek my face and turn from their wicked ways then I will hear from heaven and I will forgive their sin and will heal their land 2 Chronicles 7 14      Protecting and Restoring America's Great Waters, Part II: The Columbia River and San Francisco Bay, (111-107), April 28, 2010, 111-2 Hearing, \* United States. principles and with a bottom up approach The main idea of the book is to open a debate about the identity of ecological and social restoration in this region This book is targeted to restoration specialists volunteers environmental managers researchers politicians and NGOs working on the complexity of socioecological restoration in a region with unavoidable social problems It is intended for people with similar concerns to those of the chapters authors This work tries to integrate a movement on the rise almost silent born with its own narratives of successes and failures that do not hinder its development Finally the determination and commitment of Latin American and Caribbean social actors to restore not only natural values but also social ethical and cultural ones is remarkable
