Australian National Bibliography: 1992 National Library of Australia,1988 **Wisconsin Library Bulletin** ,1950 **Host Communities and Pilgrimage Tourism** Ricardo Nicolas Prozano,Joseph M. Cheer,Xosé Manuel Santos,2023-04-25 This book delves into topics on pilgrimage travel and communities from a variety of perspectives through academic research based on the Middle East Northeast Asia the Indian subcontinent and Europe where sacred sites have become of great importance for both international and domestic tourism In particular Europe and Asia possess a high volume of world renowned pilgrimage sites that are currently being developed as tourism destinations in their respective countries such as Santiago de Compostela Spain Lourdes France and Koyasan Japan This book includes studies on these two

continents that harbor both a great history of pilgrimage tradition as well as tourism development related to religious travel. The book importantly covers the role of the community in religious tourism as well as the impact on the locals which is comparatively an unexplored area. Whilst pilgrimage is seen as an effective tool to revitalize local economies, this book also reveals the different challenges to achieving this goal. Realizing the importance of the interrelationship of community and pilgrimage travel as well as the lack of studies on it, this book seeks to address this research gap through 14 chapters divided into two parts: Communities and Contestation and Pilgrimage Shaping Communities. To ensure diverse perspectives, case studies from different Eurasian countries written by authors with expertise in the study of pilgrimage and religious travel are included. Readers can expect to gain new perspectives by having a deeper comprehension of the community side of pilgrimage travel in Eurasia and thus an integral understanding of contemporary pilgrimage.

Penetrating Trauma George C. Velmahos, Elias Degiannis, Dietrich Doll, 2011-09-28

Surgery needs skill. Skill needs knowledge. Knowledge of tricks, moves, and tools. This book is about such knowledge. Expert authors have contributed technical pearls gained by years of experience. The short 'how I do it' chapters offer the reader a quick and effective guide that will be invaluable when addressing any penetrating injury. The book is not intended to serve as a comprehensive volume of pathophysiology and management in trauma; rather, the goal is to provide practical solutions on how to treat injuries surgically. It describes the steps that you must take when in the middle of the night confronted with devastating bleeding; you will have only one chance to save a life.
