Handbook of Positive Psychology in Schools Michael J. Furlong, Richard Gilman, E. Scott Huebner, 2009-03-04 National surveys consistently reveal that an inordinate number of students report high levels of boredom anger and stress in school which often leads to their disengagement from critical learning and social development If the ultimate goal of schools is to educate young people to become responsible and critically thinking citizens who can succeed in life understanding factors that stimulate them to become active agents in their own learning is critical A new field

labeled positive psychology is one lens that can be used to investigate factors that facilitate a student's sense of agency and active school engagement. The purposes of this groundbreaking Handbook are to 1 describe ways that positive emotions, traits, and institutions promote school achievement and healthy social emotional development; 2 describe how specific positive psychological constructs relate to students and schools and support the delivery of school-based services; and 3 describe the application of positive psychology to educational policy making. By doing so, the book provides a long-needed centerpiece around which the field can continue to grow in an organized and interdisciplinary manner. Key features include:

- Comprehensive:** This book is the first to provide a comprehensive review of what is known about positive psychological constructs and the school experiences of children and youth. Topical coverage ranges from conceptual foundations to assessment and intervention issues to service delivery models.
- Intrapersonal factors:** e.g., hope, life satisfaction, and interpersonal factors: e.g., positive peer and family relationships are examined, as is classroom and school-level influences: e.g., student-teacher and school-community relations.
- Interdisciplinary Focus:** This volume brings together the divergent perspectives, methods, and findings of a broad interdisciplinary community of scholars whose work often fails to reach those working in contiguous fields.
- Chapter Structure:** To insure continuity, flow, and readability, chapters are organized as follows: overview, research summary, relationship to student development, examples of real-world applications, and a summarizing table showing implications for future research and practice.
- Methodologies:** Chapters feature longitudinal studies, person-centered approaches, experimental and quasi-experimental designs, and mixed methods.

The Civility Book Nolan Finley, Stephen Henderson, 2025-06-10. A guide to maintaining respectful relationships across America's political, cultural, and racial divide. Once pitted as adversarial counterparts as the opinion editors of Detroit's right and left-leaning newspapers, veteran journalists Nolan Finley and Stephen Henderson join forces in this groundbreaking work to champion a novel approach to political discourse. Finley, a resolute conservative, and Henderson, a committed progressive, defy expectations by demonstrating that civil conversation is not only possible but also richly rewarding, even across colossal ideological divides. In 2020, they launched the Civility Project with journalist and author Lynne Golodner, beginning their journey to teach Americans how to engage in respectful dialogue and maintain relationships despite political differences. *The Civility Book* is an extension of that mission, offering practical tools and strategies for fostering civility in everyday interactions. At the core of this work, the authors position their four pillars of civility to explain what civility is, why it matters, and how individuals can use it to overcome the antagonistic rhetoric that threatens our society today. One conversation at a time. This conversational, no-nonsense guide provides valuable lessons, a detailed curriculum, probing questions for consideration, and an extensive appendix of resources outlining ongoing efforts to curb unproductive contention and advance a more harmonious society.

Restoring Honor to Public Schools William E. Smith, 2009. *Restoring Honor to Public Schools: A Teacher's Vision for American Education* draws upon its author's thirty years of experience to offer an insider's look at teaching and learning.

providing thoughtful and achievable recommendations for honoring teachers and teaching and restoring civility and intelligence to our nation's discourse about education

From Identity-Conflict to Civil Society Restoring Human Dignity and Pluralism in Deeply Divided Societies Valentina Gentile, 2013-03 In societies like Bosnia or Rwanda deep divisions along ethnic and religious lines and the legacy of years of atrocities and violence pose serious challenges to liberal forms of consensus. People do not recognise themselves as members of a political community and identity politics is pursued at the expense of liberal democratic projects and reconciliation programmes. This book explores the nature and role of civil society in deeply divided societies. Civil society is presented here as the sphere where a shared culture of civility emerges. The culture of civility enables individuals to become part of a community of citizens and accept to reciprocate on the basis of some basic universal values such as the protection of human dignity. The last chapter on Bosnia shows that relevance of civil society crucially depends on its capacity to represent the sphere where individuals are able to recognize and deal with transitional issues by appealing to the Bosnian culture of civility and developing a sense of justice based on a shared understanding of the idea of human dignity

Critical Republicanism Cécile Laborde, 2008-10-09 The first comprehensive analysis of the philosophical issues raised by the hijab controversy in France, this book also conducts a dialogue between contemporary Anglo-American and French political theory and defends a progressive republican solution to so-called multicultural conflicts in contemporary societies. It critically assesses the official republican philosophy of *la cité* which purported to justify the 2004 ban on religious signs in schools. *La cité* is shown to encompass a comprehensive theory of republican citizenship centered on three ideals: equality, secular neutrality of the public sphere, liberty, individual autonomy and emancipation, and fraternity, civic loyalty to the community of citizens. Challenging official interpretations of *la cité*, the book then puts forward a critical republicanism which does not support the hijab ban yet upholds a revised interpretation of three central republican commitments: secularism, non-domination, and civic solidarity. Thus it articulates a version of secularism which squarely addresses the problem of status quo bias, the fact that Western societies are historically not neutral towards all religions. It also defends a vision of female emancipation which rejects the coercive paternalism inherent in the regulation of religious dress yet does not leave individuals unaided in the face of religious and secular patriarchal and ethnocentric domination. Finally, the book outlines a theory of immigrant integration which places the burden of civic integration on basic socio-political institutions rather than on citizens themselves. Critical republicanism proposes an entirely new approach to the management of religious and cultural pluralism centred on the pursuit of the progressive ideal of non-domination in existing non-ideal societies.
