Restructuring Political Power In China:

Restructuring Political Power in China An Chen, 2023 This systematic study of China's structural transformation during the past two decades emphasizes the balance of power game so ably played by Deng Xiaoping and others among the post Mao national leadership Chen argues that to prevent party cadre opposition to market restructuring the nemesis of change in other communist states national leaders manipulated legislative channels and party regulations to allow citizen participation in the implementation of reform programs Opportunistic realignments at the political level involving the central leadership local party cadres and ordinary citizens brought people power into the policymaking process That power suggests Chen may also presage China's constitutional evolution toward a democratic form of government **Powering**

Rawski, 2008-04-14 This landmark study provides an integrated analysis of China's unexpected economic boom of the past three decades The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high speed growth and deeply flawed institutions Their work exposes the mechanisms underpinning the origin and expansion of China's great boom Penetrating studies track the rise of Chinese capabilities in manufacturing and in

research and development The editors probe both achievements and weaknesses across many sectors including China's fiscal, legal and financial institutions The book shows how an intricate minuet combining China's political system with sectorial development, globalization, resource transfers across geographic and economic space and partial system reform delivered an astonishing and unprecedented growth spurt

Workers' Democracy in China's Transition from State Socialism Stephen E. Phillion, 2009-01-13 This fascinating book is among the first to examine state workers' protests against privatization in China Phillion discusses how Chinese state enterprise workers have engaged a discourse of workers' democracy in the process of struggle with the new social relations of work that are engendered by privatization-oriented policies in China today By the 1990s this discourse was being deployed by the state in an effort to minimize the social obligations of the Party and enterprise to state workers and to win the latter over to faith in markets Phillion reveals that Chinese workers have recently engaged this discourse in order to do something they never envisioned having to do: fight for what Chinese state socialism had always promised them as the masters of the factory: namely the right to a job and basic social security

The Anatomy of Political Power in China Guoguang Wu, 2005 Political power is a great enigma in contemporary China as it operates often behind the closed doors of the Chinese Communist Party (CCP) In the recent decades of reform it has changed greatly in many ways while retaining its authoritarian nature How do Chinese leaders rule this huge country? How does the regime communicate with its bureaucracies and ordinary citizens? What happened to politics in recent decades as economic marketisation and social liberalisation formed the major currents of the nation's developments? And what are the implications of all these domestic affairs to China's foreign relations and vice versa? This volume is an intellectual exercise to explore these questions that have for a long time occupied a central position in academic explorations of Chinese politics The book covers topics such as state-enterprise relationship, a fundamental indicator of the political economy of Chinese reform; central-local relations, an issue that has perplexed the power arrangements in China for over a thousand years in general and since 1949 in particular; relations between popular participation and political reform and the relationship between individual liberty and political democracy, a classic question in political theory that frames political debates in contemporary China These collected essays give the reader an insightful peek behind the closed doors of Chinese politics and governance

The New Rich in China David Goodman, 2008-05-07 Including sections on class status and power, agency and structure and life style, the book develops the concept of the New Rich further in light of China's accelerated social change and the ever-increasing affluence of some of the population

Social Mobilisation in Post-Industrial China Jia Gao, Yuanyuan Su, 2019 In recent years China has experienced intense economic development Previously a rapidly urbanising industrial economy, the country has become a post-industrial economy with a service sector that accounts for almost half the nation's GDP This transformation has created many socio-political changes but key among them is social mobilisation This book provides a full and systematic analysis of social mobilisation in China and how its use as part of state capacity has evolved

The People's Congresses

and Governance in China Ming Xia, 2007-10-30 This book provides a balanced assessment of China's communist rule its viability as well as its prospect of democracy The People's Congresses and Governance in China presents a complex but convincing analysis of the transformation of governance in China As the first systemic and theoretical study of China's provincial legislatures it draws our attention to one of the most promising growth points in China's changing constitutional order Through in depth and first hand research the author provides a comprehensive explanation about why the provincial legislatures have acquired institutional maturation and expanded power in the context of Chinese transitional political economy The book portrays an innovative pattern of legislative development sums up pragmatic local strategies for market creation and identifies multiple dynamics for promoting accountability and democracy Based upon the case study of provincial legislatures Ming Xia reveals the formation of a new mode of governance in China's national politics the network structure featuring institutional arrangements and the mohe co operation through competition pattern of interaction abided by the major power players This volume will be of interest to parliamentary scholars and parliamentarians who are concerned with the role of parliaments in transitional politics and economies of both post communist and developing countries It will also appeal to students and researchers of Chinese politics governance and Asian studies *Doing Fieldwork in China* Maria Heimer, 2006-03-31 Doing fieldwork inside the PRC is an eye opening but sometimes also deeply frustrating experience In this volume scholars from around the world reflect on their own fieldwork practice to give practical advice and discuss more general theoretical points The contributors come from a wide range of disciplines such as political science anthropology economics media studies history cultural geography and sinology The book also contains an extensive bibliography Contributors Bu Wei Björn Gustafsson Mette Halskov Hansen Baogang He Maria Heimer Björn Kjellgren Li Shi Kevin J O'Brien Dorothy J Solinger Maria Svensson Elin Söder Mette Thun Stig Thøgersen Emily T Yeh **China's Reforms and International Political Economy** David Zweig, Zhimin Chen, 2009-05-21 Written by an international team of experts this important and interesting text gives vital insights into China's likely development and international influence in the next decade **The Private Sector in Public Office** Yue Hou, 2019-09-05 This book addresses the long standing puzzle of how China's private sector manages to grow without secure property rights and proposes a new theory of selective property rights to explain this phenomenon Drawing on rich empirical evidence including in depth interviews a unique national survey of private entrepreneurs two original national audit experiments and secondary sources Professor Yue Hou shows that private entrepreneurs in China actively seek opportunities within formal institutions to advance their business interests By securing seats in the local legislatures entrepreneurs use their political capital to deter local officials from demanding bribes ad hoc taxes and other types of informal payments In doing so they create a system of selective individualized and predictable property rights This system of selective property rights is key to understanding the private sector growth in the absence of the rule of law **Disenfranchised** Joel Andreas, 2019-08-01 In the decades following World War II factories in

many countries not only provided secure employment and a range of economic entitlements but also recognized workers as legitimate stakeholders enabling them to claim rights to participate in decision making and hold factory leaders accountable. In recent decades as employment has become more precarious these attributes of industrial citizenship have been eroded and workers have increasingly been reduced to hired hands. As Joel Andreas shows in *Disenfranchised* no country has experienced these changes as dramatically as China. Drawing on a decade of field research including interviews with both factory workers and managers, Andreas traces the changing political status of workers inside Chinese factories from 1949 to the present, carefully analyzing how much power they have actually had to shape their working conditions. *The Political Economy of State-owned Enterprises in China and India* X. Yi-chong, 2012-09-24. Focused on unique features of economic development, this edited volume examines the nature and structure of corporate governance of several key state-owned enterprises in China and public sector units in India in five strategic sectors: oil and natural gas, steel, coal, electricity generation, and banking industries.

Power Restructuring In China And Russia Mark Lupher, 2018-02-12. The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time. Yet the origins of these revolutionary changes are murky and their outcomes unclear. Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy, or are the tumultuous events of the post-Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history? Considering these questions with a new interpretation of power relations and political processes in China and Russia, Mark Lupher explores the imperial era, the communist period, and the current situation in both countries. Rather than speaking of reform, which too often is understood as liberalization along Western lines, his discussion is focused on power restructuring: the ebb and flow of state power, the centralization and decentralization of political and economic power, and the three-way struggles between central rulers, various elites, and nonprivileged groups that drive these processes. Lupher's power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution. The core of his book. By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history, he furthers our understanding and assessment of processes that will continue to unfold in China, Russia, and the former Soviet republics.
