Restructuring Education Innovations And Evaluations Of Alternative Systems:

Restructuring Education Simon Hakim, Daniel Ryan, Judith C. Stull, 2000-08-30 American education is undergoing rapid change. Concern over poor student performance, the ability and motivation of teachers, and the inefficiency of school bureaucracy have led to numerous recommendations for changing the structure of American education. These vary from small changes in the current structure to wholesale privatization of public schools. The contributions in this book discuss a wide range of proposals including greater school choice, charter schools, promoting contact with the business community, public-private partnerships, and more. Several chapters assess the current research on choice and restructuring. Overall, the consensus is that proposed reforms have a good chance of yielding significant benefits. *Excellence, Equity, and Efficiency*

Robert Hess, 2005-01-12 This book presents a Quality School Improvement (QSI) framework for overcoming the conflict that exists between excellence, equity, and efficiency and provides recommendations for principals and policymakers to meet the demands for accountability and continuous improvement. **Handbook of Education Policy Research 2nd Edition**

Lora Cohen-Vogel, The Principal's Office Kate Rousmaniere, 2013-09-17 The Principal's Office is the first historical examination of one of the most important figures in American education. Originating as a head teacher in the nineteenth century and evolving into the role of contemporary educational leader, the school principal has played a central part in the development of American public education. A local leader who not only manages the daily needs of the school but also represents district and state officials, the school principal is the connecting hinge between classroom practice and educational policy. Kate Rousmaniere explores the cultural, economic, and political pressures that have impacted school leadership over time and considers professionalization, the experiences of women, and people of color, and progressive community initiatives. She discusses the intersections between the role of the school principal with larger movements for civil rights, parental and community activism, and education reform. The school principal emerges as a dynamic character in the center of the educational enterprise, ever maneuvering between multiple constituencies, responding to technical and bureaucratic demands, and enacting different leadership strategies. By focusing on the historic development of school leadership, this book provides insights into the possibilities of school improvement for contemporary school leaders and reformers.

Expect Miracles Peter Cookson, 2018-10-08 Cookson and Berger provide a thoughtful summary and insightful critique of the charter school movement. *Expect Miracles* explodes the myth that charter schools, operating in an educational marketplace, will recast public education to better serve America's children and promote democratic civic values. Anyone interested in the future of U.S. school reform should read this book.

Alex Molnar, professor and director, Education Policy Studies Laboratory, Arizona State University, and author of *Giving Kids the Business*. By far the best book yet to appear on the charter school movement. Written with scholarship, insight, clarity, compassion, and fire.

Bruce J. Biddle, professor emeritus of the University of Missouri and co-author of *The Manufactured Crisis*. Beautifully written analysis of the charter

school movement in terms of its past and present political and educational dynamics as well as where it might go Henry M Levin director of the National Center for the Study of Privatization in Education Teachers College Columbia University Charter schools are the most significant educational experiment in the last two decades In Expect Miracles Peter W Cookson Jr and Kristina Berger focus on the current trend toward deregulation in public education The issue of deregulation is of critical importance because the spirit of entrepreneurship that is behind deregulation is seldom examined from a sociological perspective Using the latest research as the basis for discussion this book provides a fresh look at the growing and politically volatile charter school movement The authors present the most balanced analysis to date of the movement that is changing the landscape of American education Analyzing School Contexts Wayne K. Hoy, Michael DiPaola, 2010-05-01 Analyzing School Contexts is the ninth volume in a series of research and theory in school administration dedicated to advancing our understanding of schools through empirical study and theoretical analysis The current selection of readings is loosely organized around the broad topics of school contexts leadership and organizational properties that influence the effectiveness of schools The book begins with a reflective analysis of the importance of organizational theories and theorizing in educational administration and then proceeds to examine research on how leaders especially principals can strengthen the instructional and academic capacity of the school to enhance teachers effectiveness in producing strong student outcomes The analyses deal not only with what instructional leadership practices make positive differences in teaching and learning but also with how district leadership is pivotal in developing school partnerships with business and how district mentoring programs to develop future school leaders succeed Finally we examine school climate academic optimism of teachers organizational trust and the constraints and opportunities that the law provides to develop and maintain a respectful school environment conducive to learning Resources in Education ,1998 *Research in Education* ,1974 Bibliographic Index ,2002 **The Best Books for Academic Libraries: Political science, law, education** ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers **Choice** ,2000 *Resources in Vocational Education* ,1977 **Monthly Catalogue, United States Public Documents** ,1995-12 **Monthly Catalog of United States Government Publications** ,1995 *The Publishers' Trade List Annual* ,2000 **Boletín Internacional de Bibliografía Sobre Educación** ,2002 **American Book Publishing Record** ,2000-07 **Current Topics in Education** ,1973 *Thesaurus of ERIC Descriptors* James E.
