Rethinking Development In Latin America:

Rethinking Development in Latin America Charles H. Wood, Bryan R. Roberts, 2005-01-01 Understanding development in Latin America today requires both an awareness of the major political and economic changes that have produced a new agenda for social policy in the region and an appreciation of the need to devise better conceptual and methodological tools for analyzing the social impact of these changes Using as a reference point the issues and theories that dominated social science research on Latin America in the period 1960 and Urban Settlements Marginality and Social Exclusion Contributors besides the editors are Marina Ariza and Orlandina de Oliveira Diane Davis Vilmar Faria Joe Foweraker Elizabeth Jelin Alejandro Portes Joe Potter and Rudolfo Tuir n Juan Pablo Pérez S inz Osvaldo Sunkel and Peter Ward Rethinking Development Theories in Latin America Eduardo Feldman, Mary Alice McCarthy, 1993 **Rethinking Development in East Asia and Latin America** James William McGuire, 1997 Rethinking Development Theory Gary Gereffi, 1989

Rethinking Development Geographies Marcus Power, 2004-08-02 Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe Rethinking Development Geographies offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change Rethinking Development Geographies is also grounded in a concern with people and places the view from below the views of women and the view from the South **Rethinking Latin America** R. Munck, 2015-12-24 In a subtle but powerful reading of the shifting relationships between development hegemony and social transformation in post independence Latin America Ronaldo Munck argues that Latin American subaltern knowledge makes a genuine contribution to the current search for a social order which is sustainable and equitable

Development in Latin America Víctor Ramiro Fernández, Gabriel Brondino, 2018-07-27 This edited volume discusses the development theory advanced by the Economic Commission for Latin America and the Caribbean ECLAC in the 1940s and its transformations through the second half of the twentieth century In this time frame the authors identify two approaches structuralism 1950 1980 and neo structuralism 1980 onwards The contributors describe the transition in terms of economic theory and policy the conceptualization of the State and the consideration of space on regional and global scales

They argue that structuralism is still relevant for understanding the current problems of development if a careful and appropriate recovery and update of its main ideas and concepts is made in relation to the current context of globalization and internationalization of production and finance **Challenging Neoliberalism in Latin America** Eduardo Silva,2009-08-31

At the turn of the twentieth century a concatenation of diverse social movements arose unexpectedly in Latin America culminating in massive anti free market demonstrations These events ushered in governments in Argentina Bolivia Ecuador and Venezuela that advocated socialization and planning challenging the consensus over neoliberal hegemony and the weakness of movements to oppose it Eduardo Silva offers the first comprehensive comparative account of these extraordinary events arguing that the shift was influenced by favorable political associational space a reformist orientation to demands economic crisis and mechanisms that facilitated horizontal linkages among a wide variety of social movement organizations His analysis applies Karl Polanyi s theory of the double movement of market society to these events predicting the dawning of an era more supportive of government intervention in the economy and society **The State and the**
