Rethinking Gifted Education James H. Borland, 2003-01-01 Gifted education is in a period of transition unlike any it has experienced in this generation Thinkers within the field and without are questioning the practice of gifted education the theoretical foundations on which this practice rests and even the value and legitimacy of the concept of giftedness This fresh and provocative volume contains essays by leading thinkers on gifted education and by writers outside the field who have examined it critically Each author examines reconsiders and challenges the assumptions and beliefs underlying the theory and practice of gifted education providing a roadmap to guide both current considerations of and future planning for gifted education programs

Being Smart about Gifted Education Dona J. Matthews, Joanne F. The Palgrave Handbook of Transformational Giftedness for Education Robert J Sternberg, Don Ambrose, Sareh Karami, 2022-04-23 This handbook examines what education would look like if it prepared gifted students to transform the world to make it a better place for all not just for those who receive extra resources from schools in return for being labeled as gifted The editors explore how transformationally gifted people can seek to make the world a better and more just place they try to make a positive meaningful and possibly enduring contribution to changing things in the world that are not working They do not view giftedness merely as a transaction whereby in exchange for being labeled as gifted they accrue benefits to themselves such as a more prestigious education more income or residence in a more exclusive community The overarching aim of this book is to present conceptions of what identification and instruction of the gifted would look like if the focus of gifted education was transformational rather than transactional What if gifted education did not focus so much on acceleration vs enrichment or pull out versus in class integration but rather on how to be gifted in giving back in using one's gifts to create a better world
