Rethinking Imagination Culture And Creativity:

Rethinking Imagination Gillian Robinson, John F. Rundell, 2016-01-28 Pulling together a collection of richly informative essays Rethinking Imagination addresses competing sets of ideas oscillating between the modern and post modern creativity and sublimity progress and apocalypse democracy and redemption Enlightenment and Romanticism and reason and imagination Aiming to thematise these debates from the perspective of the imagination Rethinking Imagination takes two directions The first addresses a socio cultural interpretation in which the distinguishing figures of modernity can be viewed as continuing differentiation and autonomization of spheres and systems that goes well beyond the divisions of labour The second is an ongoing philosophical discourse about the imagination and its relation to reason which has been present since Enlightenment Divided into two separate yet interconnected parts this book is a highly significant collection of essays and a valuable contribution to the field of philosophical and socio cultural sociology It is a key book for undergraduate postgraduate and academic researchers [Social Imaginaries, Vol. 1, issue 1 \(Spring 2015\)](#) Suzi Adams, Jeremy Smith, 2015-05-18 Nu s au introdus date *Extreme Landscapes of Leisure* Patrick Laviolette, 2016-04-15 In recent years there has been an increased engagement throughout the social sciences with the study of extreme places and practices Dangerous games and adventure tours have shifted from being marginal exotic or mad to being more than merely acceptable They are now exemplary mainstream even there are a variety of new types increasing numbers of people are doing them and they are being appropriated and have infiltrated more and more contexts This book argues that hazardous sports and adventure tourism have become rather paradoxical As a set of activities where players and holidaymakers are closer to death or danger than they would otherwise be they are the complete opposite of normal games or vacations Adventure sports and tours reverse the general definition of a holiday as being an escape from the seriousness of everyday life as in most cases they are innately serious requiring as they do life or death decision making Beginning with the rise in colonial explorations and moving on to consider the Dangerous Sports Club of Oxford this book examines the increasing phenomena of adventure sports such as bungee jumping cliff jumping or tomb stoning surfing and parkour within a framework of positive risk It explores how certain assumptions about knowledge agency the body and nature are beginning to coalesce around newly developing spheres of social relations Additionally extreme games have become activities that are germane to the dawning of green social thought and so the book also addresses issues that deal with the intimate connections that exist between pleasure and the moral responsibility towards the environment [Social Imaginaries](#) Suzi Adams, Jeremy C.A. Smith, 2019-10-03 Written by members of the Social Imaginaries Editorial Collective these programmatic essays showcase new critical interventions in understandings of social imaginaries and the human condition They include a new comparative approach to theorizing Castoriadis Ricoeur and Taylor the rethinking of the creative imagination in relation to common sense analyses of political imaginaries in neoliberal and constitutional contexts from perspectives drawing on Gauchet and Lefort

and the taking up questions of historical continuity and discontinuity in civilizational worlds In addressing pressing questions concerning social imaginaries the book advances the field as a whole The book includes a Foreword by George H Taylor This book is a must read for all scholars interested in social and political imaginaries and will appeal to researchers and graduate students working across a wide variety of disciplines in the human sciences *Manufactured Uncertainty* Lorraine

Code,2020-11-01 In this provocative work Lorraine Code returns to the idea of epistemic responsibility as developed in her influential 1987 book of the same name to confront the telling new challenges we now face to know the world with some sense of responsibility to other knowers and to the sustaining nonhuman world *Manufactured Uncertainty* focuses centrally on the environmental and cultural crises arising from postindustrial man made climate change which have spawned new forms of passionately partisan social media that directly challenge all efforts to know with a sense of collective responsibility How can we agree to act together Code asks even in the face of inevitable uncertainty given the truly life threatening stakes of today s social and political challenges How can we engage responsibly with those who take every argument for an environmentally grounded epistemology as an unacceptable challenge to their assumed freedoms comforts and rights Through searching critical dialogue with leading epistemologists cultural theorists and feminist scholars this book poses a timely challenge to all thoughtful knowers who seek to articulate an expanded and deepened sense of epistemic responsibility to a human society and a natural world embraced together in the most inclusive spirit **Meaning, Subjectivity, Society**

Karl E. Smith,2010-01-01 Who am I Who are we How are we to live This book grapples with these perennial questions primarily through a dialogue with Cornelius Castoriadis and Charles Taylor using an interdisciplinary hermeneutical approach examining issues of meaning subjectivity and modern society **Hidden Mutualities** Michael

Mitchell,2006-01-01 Hidden mutualities link the work of major postcolonial writers with Christopher Marlowe s drama of the Faustian pact the manipulation of the material world in exchange for the soul written as the scientific world view was emerging which accompanied the imperial expansion of Europe and has determined the economic and social structures of the colonial and postcolonial world This fascinating study brings together researches in widely different fields to show how Doctor Faustus reflects a Gnostic Hermetic tradition marginalized within the dominant European power structures Rediscovered in the Renaissance and combined with occult arts such as alchemy and magic this living tradition informs the work of Magus figures such as Pico della Mirandola Marcilio Ficino Trithemius Johannes Reuchlin Agrippa of Nettesheim Paracelsus and John Dee who are reflected in the Faust tradition and in Prospero in Shakespeare s *The Tempest* The second part investigates the dual legacy of the Magus A counterpoint between a law governed objective material world and an occult visionary pursuit of the divine potential of the human imagination is traced through the examples of Johan Kepler Robert Fludd Isaac Newton William Blake Rudyard Kipling Aleister Crowley W B Yeats Wolfgang Pauli and C G Jung In the third part textual analysis reveals how attention to these Faustian themes opens new and exciting critical perspectives in appreciating

the works of postcolonial writers in particular Dimetos by Athol Fugard Disappearance by David Dabydeen Omeros by Derek Walcott and the novels of Wilson Harris
