Rethinking New Testament Textual Criticism:

Rethinking New Testament Textual Criticism David Alan Black, 2002-10-01 New Testament textual criticism is an important but often overlooked field of study. Results drawn from textual studies bear important consequences for interpreting the New Testament and cannot be ignored by serious students of Scripture. This book introduces current issues in New Testament textual criticism and surveys the various methods used to determine the original text among variant readings. These essays from Eldon Jay Epp, Michael Holmes, J. K. Elliott, Maurice Robinson, and Moisés Silva provide readers with an excellent introduction to the field of New Testament textual criticism. *A Student's Guide to Textual Criticism of the Bible* Paul D. Wegner, 2006-03-09

In plain language and with ample illustration Paul D. Wegner presents an overview of the history and methods, aims and results of textual criticism of the whole Bible: the Hebrew Old Testament and the Greek New Testament. You will gain an appreciation for the vast work that has been accomplished in preserving the text of

Scripture and find a renewed confidence in its reliability. **Perspectives on New Testament Textual Criticism, Volume 2** Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006-2017. All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings. More specific emphasis falls upon the nature of textual transmission and the text-critical process and heavily on the criteria employed in establishing that earliest available text. Moreover, textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological, ethical, and real-life issues as the early Christian churches sought to work out their own status, practices, and destiny. *Myths and Mistakes in New Testament Textual Criticism* Elijah Hixson, Peter J. Gurry, 2019-11-05

A renewed interest in textual criticism has created an unfortunate proliferation of myths, mistakes, and misinformation about this technical area of biblical studies. Elijah Hixson and Peter Gurry, along with a team of New Testament textual critics, offer up-to-date, accurate information on the history and current state of the New Testament text that will serve apologists and offer a self-corrective to evangelical excesses. **Changing the**

Goalpost of New Testament Textual Criticism Abidan Paul Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular: to retrieve the original text of the New Testament. Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT. Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy. Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned. If this new approach in NTTC is correct, then the authority of Scripture is weakened or no longer valid. It will be shown in this book that such is not the case. Furthermore, emphasis will be placed on the need to return to the traditional goalpost of NTTC, i.e., to retrieve the original text. Without a generally definitive text, the door will be left wide open to recreate any desired text of the NT. An

unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text. Consequently it will lead to an unsettled Christian faith and practice. Perspectives on New Testament Textual Criticism Eldon Jay Epp, 2005-06-01. This collection of frequently cited articles and chapters published from 1962 to 2004 provides perspective on the history and development of New Testament textual criticism with descriptions and critique of the major text critical theories and methods. Specific manuscripts and text types such as the Codex Bezae and the D text are discussed as well as issues such as anti Judaic tendencies, the ascension narratives and the relationship of text and canon. Many of the essays from the last fifteen years emphasize the earliest period and papyrus manuscripts, particularly those found at Oxyrhynchus, and assess their socio cultural and intellectual contexts while articles from the last five years advocate or engage the more controversial aspects of current New Testament textual criticism, especially the issue of original text.

Textual Criticism and the New Testament Text Eberhard W. Götting, 2020-09-25. The fruit of more than three decades of research. This collection of fourteen essays by Eberhard W. Götting covers important aspects of editorial science with a particular focus on New Testament textual criticism. Essays cover textual emendation, text critical procedures, literary criticism, history of scholarship, advantages and disadvantages of online manuscripts and text critical studies of words and phrases. The addition of a substantial introduction to text criticism makes this a valuable resource for students and teachers. Features Essays concerned with establishing the original text of New Testament writings. Nine essays published in English for the first time. Two previously unpublished essays. **No Longer Written** Ryan Donald Wettlaufer, 2013-03-01. This is an important time for textual criticism of the New Testament. A fundamental re-evaluation is underway of both the purpose of the discipline and the nature of the manuscripts upon which it relies. The place of the controversial method of conjectural emendation is a debate that encompasses both of these issues. In this study Ryan Wettlaufer explores the theory and practice of the method and then using the Epistle of James as a case study argues that conjectural emendation is an important tool that can be used to restore readings which were once found in the original text but now are No Longer Written. The Text of the New Testament in Contemporary Research Bart D. Ehrman, Michael W. Holmes, 2012-11-09. The Text of the New Testament in Contemporary Research provides up to date discussions of every major aspect of New Testament textual criticism. Written by internationally acknowledged experts, the twenty-four essays evaluate all significant advances in the field since the 1950s. **Interpreting the New Testament Text** Darrell L. Bock, Buist M.

Fanning, 2006-10-20. With the explosive increase in availability of English Bible translations the question can easily be asked: Why bother with the hard work of biblical exegesis? Computers can translate foreign languages and our English texts can take us very close to the original meanings, so why exegete? Answer: because the deepest truths of the Bible are found through the deepest study. This book teaches the principles, methods and fundamentals of exegeting the New Testament. It also has examples of textual exegesis that clearly and helpfully show the value of exegeting a text well. Any serious student of

Dating Acts in its Jewish and Greco-Roman Contexts Karl Leslie Armstrong, 2021-01-14 There has been consistent apathy in recent years with regard to the long standing debate surrounding the date of Acts While the so called majority of scholars over the past century have been lulled into thinking that Acts was written between 70 and 90 CE the vast majority of recent scholarship is unanimously adamant that this middle range date is a convenient political compromise Karl Armstrong argues that a large part of the problem relates to a remarkable neglect of historical textual and source critical matters Compounding the problem further are the methodological flaws among the approaches to the middle and late date of Acts Armstrong thus demonstrates that a historiographical approach to the debate offers a strong framework for evaluating primary and secondary sources relating to the book of Acts By using a historiographical approach along with the support of modern principles of textual criticism and linguistics the historical context of Acts is determined to be concurrent with a date of 62-63 CE
