## **Rethinking The Normative Content Of Critical Theory Marx Habermas And Beyond:**

Rethinking the Normative Content of Critical Theory B. Cannon, 2001-02-20 Marxism's chief failing is its substitution of a labour theory of value for the struggles of the labour movement. Consequently Marxism rests on transhistorical categories that are vulnerable to his own critique of political economy. Jürgen Habermas and Axel Honneth seek to correct this by placing critical theory on a normative foundation. Unfortunately they restrict this to the cultural sphere. By extending their notion of intersubjectivity to the economic system it can be viewed as an inactive form of morality which social movements influence in the course of their struggles. **Rethinking the normative content of critical theory** Robert Cannon, 1998

**Key Thinkers from Critical Theory to Post-Marxism** Simon Tormey, Jules Townshend, 2006-06-19 Tormey and Townshend have succeeded not only in making accessible the notoriously evasive ideas of Post Marxist thinkers they have begun the vital work of critically examining their contribution to Marx's project of overcoming capitalism. James Martin Goldsmiths University of London. Excellent textbook, critical, challenging and thoroughly engaging. Richard White, Sheffield Hallam University. In language which is clear without being simplistic Tormey and Townshend help readers think about ways to live with and without Marx in the wake of Marxism's historical failures as well as its continuing relevance to life under globalizing capitalism. Mark Rupert, Syracuse University. Key Thinkers in Critical Theory to Post Marxism is a comprehensive introduction to perhaps the most key intellectual trend in contemporary critical theory. In jargon-free language it seeks to unpack, explain and review many of the key figures behind the rethinking of the legacy of Marxism in theory and practice. Key thinkers covered include Cornelius Castoriadis, Jean-François Lyotard, Deleuze and Guattari, Laclau and Mouffe, Agnes Heller, Jacques Derrida, Jürgen Habermas and post-Marxist feminism. Each chapter covers a key thinker or contribution and thus can be read as a stand-alone introduction to the principal aspects of their approach. Each chapter is followed by a summary of key points with a guide to further reading. Underlying the text is also the central question: What is Post Marxism? Instead of viewing Post Marxism as an ideology, movement or tradition of theorizing, the authors advocate Post Marxism as a loose appellation describing those who have problematised Marx's approach to understanding and challenging contemporary capitalism. As such the book also offers an engaging commentary on some of the key political developments of our time, including for example the anti-globalisation movement. Key Thinkers in Critical Theory to Post Marxism provides an ideal introduction to a hitherto complex subject and will be essential reading for students of contemporary social and political inquiry. **The Critical Theory of Axel Honneth** Danielle Petherbridge, 2013-09-05 The Critical Theory of Axel Honneth provides a comprehensive study of the work of Axel Honneth, tracing the theoretical trajectory from his earliest writings on philosophical anthropology to the development of a theory of recognition. The book argues that Honneth's early work provides important insights for the reconstruction of the normative project of critical theory and the articulation of a conceptual framework for analyzing social relations of power and domination. Danielle Petherbridge contends, however, that

these aims are not fully realized in Honneth's more mature project and that central insights recede as his project develops Petherbridge seeks to demonstrate that the basis for an alternative theory of intersubjectivity that can account for both an adequate theory of power and normative forms of subject formation can be immanently reconstructed from within Honneth's own work By contextualizing Honneth's project in relation to its theoretical influences *The Critical Theory of Axel Honneth* provides a critical study and excellent entry point that will be essential reading for both students and scholars who work in the areas of European philosophy critical theory social and political philosophy or social and political theory Critical Theory and Libertarian Socialism Charles Masquelier, 2015-07-30 This *Critical Theory and Contemporary Society* volume brings together critical theory and libertarian socialism to realize critical theory's political potential **Africana Critical Theory** Reiland Rabaka, 2009-01-01 *Africana Critical Theory* innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory through the works of W E B Du Bois C L R James Aimé Césaire Leopold Senghor Frantz Fanon and Amílcar Cabral **From Marx to Hegel and Back** Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re-read the Hegel-Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx's inversion of Hegel's dialectics as a progressive development leaving behind Hegel's idealism by transforming it into a materialist critique of political economy Other Marxist approaches argue that the mature Marx completely broke with Hegel By contrast this book offers a wide-ranging and innovative understanding of Hegel as an empirically informed theorist of the social political and economic world It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another With a particular focus on essential concepts like recognition love revolution freedom and the idea of critique this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel's philosophy with the power of Marx's social and economic critique of the contemporary world

**Philosophy after Marx** Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning's historical recursions make evident where and how academic Anti-Marxism had previously got it wrong English translation of *Philosophie nach Marx 100 Jahre Marxrezeption und die*

Samier,Michèle Schmidt,2009-05-07 Exploring foundational theories for emotional dimensions of educational administration and leadership this collection covers a broad range of topics such as ethics personality social justice gender discrimination and organisational culture      *The Aesthetic Dimensions of Educational Administration & Leadership* Eugenie A. Samier,Richard Bates,2006-11-22 The question of aesthetics as a theoretical framework for thinking about modern leadership issues in educational settings is an emergent area of inquiry that is receiving considerable attention There is a growing sense that the mechanistic approach to leadership which has been widely encouraged over the last ten years is sterile and that a more philosophical approach is now required

This approach is covered here taking into account the importance of aesthetics on all aspects of the administrative and leadership world the ways ideas and ideals are created how their expression is conveyed the impact they have on interpersonal relationships and the organisational environment that carries and reinforces them and the moral boundaries or limits that can be established or exceeded While presenting a significant departure from conventional studies in the field the international contributors reflect a continuity of thought on administrative and leadership authority from the writings of Plato through to current theory
