

Rethinking the target behaviors (1)

- Proportion of people who practice the recommended behavior
- In v.1, we used the MERG Household Survey Indicators for Malaria Control (June 2013)
 - *Proportion of population that slept under an ITN the previous night*
 - *Proportion of households sprayed with IRS within the last 12 months*
 - *Proportion of women who received 3 or more doses of IPTp during ANC visits during their last pregnancy*
 - *Proportion of children under five years old with fever in the last two weeks for whom advice or treatment was sought*
- But are these all “behavioral” in nature?

Elizabeth Bortolaia Silva, Carol Smart, 1999-02-08 Concern and debate over changes to family life have increased in the last decade as a result of evolving employment patterns shifting gender relations and more openness about sexual orientation Most politicians and researchers have viewed these changes as harmful suggesting that the family as an institution should not alter The New Family challenges these dominant views Leading academics in the field consider current diverse practices in families and reveal the lack of balance between policies based on how families should be and how they actually are illustrating the need for a broader definition of family This book shows the need to take fluidity and change in family arrangements seriously rather An Ethnography of Knowledge Netsayi Noris Mudege, 2008 The book analyses how social processes impact on knowledge production and dissemination investigates how differences between actors impact on knowledge dissemination and appropriation explores how existing knowledge frameworks affect knowledge analysis and acceptance and how people bridge the gap between outside and local forms of knowledge *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be

to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam The Household and the Making of History Mary S. Hartman,2004-04-12 This book argues that a unique late marriage pattern discovered in the 1960s but originating in the Middle Ages explains the continuing puzzle of why western Europe was the site of changes that from about 1500 gave rise to the modern world Contrary to views that credit upheavals from the late eighteenth century were responsible for ushering in the contemporary global era it contends that the roots of modern developments themselves are located in an event more than a millennium earlier when the peasants in northwestern Europe began to marry their daughters almost as late as their sons The appearance of this late marriage system with its unstable nuclear household form will also be shown to have exposed for the first time the common ingredients whose presence has perpetuated beliefs in the importance of gender difference and of a sexual hierarchy favoring males **The Care Crisis** Emma Dowling,2022-04-05 What is care and who is paying for it Every one of us will need care at some point in life social care healthcare childcare eldercare In the shadow of COVID 19 care has become the most urgent topic of our times But our care systems are in crisis Concern for the most vulnerable has been overtaken by an obsession with profits and productivity How did we end up here In an era of economic turmoil lower birth rates and increased life expectancy mean a larger proportion of the population than ever before is of retirement age As a result more people need care and their numbers are rising Yet despite the demand public services continue to be cut and sold off Those most in need are left to fend for themselves In this groundbreaking book Emma Dowling charts the multifaceted nature of care in the modern world from the mantras of self care and what they tell us about our anxieties to the state of the social care system The Care Crisis examines the ways that profitability and care are played off against each other exposing the impacts of financialisation and austerity Dowling charts the current experiments in short term solutions now taking place In a new afterword she examines the care crisis through the lens of the Covid 19 pandemic revealing the devastating consequences of a collision between an ongoing care crisis and the coronavirus *Social Parenthood in Comparative Perspective* Clare Huntington,Christiane von Bary,Courtney G. Joslin,2023-07-18 This interdisciplinary book compares legal responses to social parenthood exploring how legal systems recognize adults including same sex partners stepparents nonmarital partners grandparents fictive kin and other caretakers who are parenting children but who are not typically treated as legal parents Researching Families and Communities Rosalind Edwards,2008-04-29 Researching Families and Communities Social and Generational Change explores the concepts and perspectives that guide research and the methods used to explore change during the last half of the 20th century and into the new millennium It highlights the complexities of continuities alongside change the importance of the perspectives that shape investigation and the need to engage with situated data **Sourcebook of Family Theories and Methods** Pauline Boss,William J.

Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production **Remaking Families in Contemporary China** Xiaoying Qi, 2021 Surnaming veiled patriarchy Floating grandparents intergenerational exchange Intimacy and a third element Divorce broken and unbroken bonds Flowering at sunset remarriage and co habitation among the elderly The Stem Family in Eurasian Perspective Antoinette Fauve-Chamoux, Emiko Ochiai, 2009 Is the Asian stem family different from its European counterpart This question is a central issue in this collection of essays assembled by two historians of the family in Eurasian perspective The stem family is characterized by the residential rule that only one married child remains with the parents This rule has a direct effect upon household structure In short the stem family is a domestic unit of production and reproduction that persists over generations handing down the patrimony through non egalitarian inheritance In spite of its ambiguous status in current family typology as something lurking in the valley between the nuclear family and the joint family the stem family was an important family form in pre industrial Western Europe and has been a focus of the European family history since Fr d ric Le Play and more recently Peter Laslett However the encounter with Asian family history has revealed that many areas in Asia also had and still have a considerable proportion of households with a stem family structure The stem family debate has entered a new stage In this book some studies that benefited from recently created large databases present micro level analyses of dynamic aspects of family systems while others discuss more broadly the rise and fall of family systems past and present A main concern of this book is whether the family type in a society is ethno culturally determined and resistant to changes or created by socio economic conditions Such a comparison that includes Asian countries activates a new phase of the discussion on the stem family and family systems in a global perspective Individuals, Families, and Communities in Europe, 1200-1800 Katherine A. Lynch, 2003-08-21 A study of the family s function in western society from 1200 1800 first published in 2003
