Sceptics of Islam Ralph M. Coury, 2018-02-26 Arab debates about the critical relationship between religion and modernity began in the early nineteenth century Such debates are now integral to the struggle for power between a variety of political groups and their opponents and are vital to understanding the modern Middle East This unique volume introduces writings of Arab Christian and Muslim revisionist and radical free thinkers who have tried to redefine the relationship It challenges the deeply entrenched idea that the contemporary Islamic world has been impermeable to a critique of religious ideas and practices Authors from the nineteenth century to the present are included Some are avowed believers even if they adopt positions many might regard as heretical others are openly agnostic and atheistic Despite their differences all have been united in disputing the notion that life should conform exclusively to a system of values and laws based upon the Qur'an or the Bible or in some cases less radically upon these as they were widely understood before the onset of modernity They have also rejected many of the standard religious liberal assumptions that are regularly invoked against traditionalism The book's originality lies in its evaluation of the social and cultural impact of these thinkers

Lee, 2018-02-12 Authenticity has begun to rival development as a key to understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari'ati and

Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world

Muslims as Actors Jacques Waardenburg, 2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion A careful study of this debate should steer clear of political religious and ideological interests Research in this area by Muslims and non Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances Current

political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading observing listening and reflecting Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present day Muslim life situations Muslim recourse to Islam can be studied as human constructions of value and meaning and relations between Muslims and others can be seen in terms of human interaction without blame always falling on Islam as such

Philosophies of Islamic Education Mujadad Zaman, Nadeem Memon, 2016-03-31 The study of Islamic education has hitherto remained a tangential inquiry in the broader focus of Islamic Studies In the wake of this neglect a renaissance of sorts has occurred in recent years reconfiguring the importance of Islam's attitudes to knowledge learning and education as paramount in the study and appreciation of Islamic civilization *Philosophies of Islamic Education* stands in tandem to this call and takes a pioneering step in establishing the importance of its study for the educationalist academic and student alike Broken into four sections it deals with theological pedagogic institutional and contemporary issues reflecting the diverse and often competing notions and practices of Islamic education As a unique international collaboration bringing into conversation theologians historians philosophers teachers and sociologists of education *Philosophies of Islamic Education* intends to provide fresh means for conversing with contemporary debates in ethics secularization theory child psychology multiculturalism interfaith dialogue and moral education In doing so it hopes to offer an important and timely contribution to educational studies as well as give new insight for academia in terms of conceiving learning and education **Dynamic**

Warne, 2008-12-19 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

One God and Two Religions Amir Hussain, 2025-02-25 Islam is a religion of violence and behind every Muslim there lurks a potential terrorist Islam is a threat to values of the Christian West They are like oil and water Clearly they don't mix One God and Two Religions confronts these popular perceptions head on With keen insight and gentle understanding Amir Hussain explores the differences between Christianity and Islam as well as the many things these two enduring faith traditions hold in common including first and foremost their belief in and desire to be faithful to the one true God their shared roots and scripture from the Jewish faith and the spiritual values of peace and social justice Written for Christians by Muslim world religions scholar the book is divided into two parts Part 1 provides an overview of the Islamic faith and of the lives of Muslims in North America today Chapters focus on the place and identity of Muslims in society as well as on the importance and role of Muhammad the Qur'an and basic beliefs and practices The Five Pillars of Islam Part 2 explores key points for dialogue including issues of violence and jihad the roles of women and men and the mystical tradition within Islam The final two chapters look at interfaith dialogue and the practical aspects of being good neighbors In all of this the book invites the reader to a place of reconciliation to a place where the truth and value of each of these great faith traditions can be recognized and honored by the other In the end the metaphor of oil and water is an interesting one for the reality of conflict and the hope for reconciliation between Islam and Christianity today

Islam Robert Crotty, Terence Lovat, 2016-06-30 Terrorism is the threat of the age or so we are told and inevitably associated with it is the word Islam The notion of the Muslim terrorist has become a colloquialism in Western media Interestingly in all the history books about the Second World War the phrase Christian fascist is rarely seen in spite of the fact that skewed Christian theologies were used liberally by the Nazis to further their hatred This points to a blind spot in Western understanding about the ways in which religious and non religious ideology can be mutilated to serve hateful ends We think we see it in Islam but we can't see it in ourselves This book is dedicated to uncovering the many understandings of Islam we lack and the many misunderstandings

we need to overcome Islamic Natural Law Theories Anver M. Emon, 2010-04-08 This book offers the first sustained jurisprudential inquiry into Islamic natural law theory It introduces readers to competing theories of Islamic natural law theory based on close readings of Islamic legal sources from as early as the 9th and 10th centuries CE In popular debates about Islamic law modern Muslims perpetuate an image of Islamic law as legislated by God to whom the devout are bound to obey Reason alone cannot obligate obedience at most it can confirm or corroborate what is established by source texts endowed with divine authority This book shows however that premodern Sunni Muslim jurists were not so resolute Instead they asked whether and how reason alone can be the basis for asserting the good and the bad thereby justifying obligations and prohibitions under Shari'a They theorized about the authority of reason amidst competing theologies of God For premodern Sunni Muslim jurists nature became the link between the divine will and human reason Nature is the product of God's purposeful creation for the benefit of humanity Since nature is created by God and thereby reflects His goodness nature is fused with both fact and value Consequently as a divinely created good nature can be investigated to reach both empirical and normative conclusions about the good and bad They disagreed however whether nature's goodness is contingent upon a theology of God's justice or God's potentially contingent grace upon humanity thus contributing to different theories of natural law By recasting the Islamic legal tradition in terms of legal philosophy the book sheds substantial light on an uncharted tradition of natural law theory and offers critical insights into contemporary global debates about Islamic law and reform
