Rethinking Islamist Politics Culture The State And Islamism:

Rethinking Islamist Politics Salwa Ismail, 2003-03-28 In an atmosphere of growing concern over the threat posed by Islamist violence political Islamism has become the most important of geopolitical issues In the process it has been misrepresented Contrary to what many believe Islamist movements are characterised by their diversity Revisiting the main arguments and explanations that have been used over the past twenty years to understand Islamist activism moderate as well as militant Salwa Ismail here proposes a rethinking of Islamist politics The phenomenon of political Islam is determined by macro and micro level changes in the Muslim world such as the retreat of the welfare state across the Middle East and the subsequent expansion in the role of informal political activists in the popular neighbourhoods of such cities as Algiers or Cairo Ismail examines both levels to explain the socio economic and political settings out of which Islamism has developed Her focus is both the economic and political environments that fomented Islamism and the structures of Islamist movements themselves from their ideologies to their modes of action Looking at Islamism as a form of contestation politics Ismail offers a reassessment of its failures and successes limited as it is by its use of violence but capable of real mobilisation at a popular level Rethinking Islamist Politics will be vital reading for anyone seeking to understand such spectacular expressions of Islamism as the September 11th attacks but also the everyday struggles of ordinary people which Islamism embodies

Internet and Emotions Tova Benski, Eran Fisher, 2013-11-07 Nothing seems more far removed from the visceral bodily experience of emotions than the cold rational technology of the Internet But as this collection shows the internet and emotions intersect in interesting and surprising ways

Internet and Emotions is the fruit of an interdisciplinary collaboration of scholars from the sociology of emotions and communication and media studies. It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media. The book fills a substantial gap in the social research of digital technology and examines whether the internet invokes emotional states differently from other media and unmediated situations: how emotions are mobilized and internalized into online practices and how the social definitions of emotions are changing with the emergence of the internet. It explores a wide range of behaviors and emotions from love to mourning, anger, resentment, and sadness. What happens to our emotional life in a mediated disembodied environment without the bodily element of physical co-presence to set off emotional exchanges? Are there qualitatively new kinds of emotional exchanges taking place on the internet? These are only some of the questions explored in the chapters of this book with quite surprising answers. *Islam and Political Reform in Saudi Arabia* Mansoor

Jassem Alshamsi, 2012-06-12 This book examines the link between Islamic thought, jurisprudence on the one hand and political action on the other. It shows how reformism is deeply rooted in Islamic tradition and how Sunni scholars have become activists for change in Saudi Arabia. *Practicing Islam in Egypt* Aaron Rock-Singer, 2019-01-03 Following the ideological disappointment of the 1967 Arab-Israeli War, an Islamic revival arose in Egypt. Yet far from a mechanical reaction to the decline of secular nationalism, this religious shift was the product of impassioned competition among Muslim Brothers, Salafis, and state institutions and their varied efforts to mobilize Egyptians to their respective projects. By pulling together the linked stories of these diverse claimants to religious authority and tracing the social and intellectual history of everyday practices of piety, Aaron Rock-Singer shows how Islamic activists and institutions across the political spectrum reshaped daily practices in an effort to persuade followers to adopt novel models of religiosity. In so doing, he reveals how Egypt's Islamic revival emerged, who it involved, and why it continues to shape Egypt today. **Routledge Handbook of Persian Gulf**

The book comprises a total of 36 individual chapters divided into the following six sections: Historical Context, Society and Culture, Economic Development, Domestic Politics, Regional Security Dynamics, The Persian Gulf and the World. Examining the Persian Gulf's increasing importance in regional politics, diplomacy, economics, and security issues, the volume is a valuable resource for scholars, students, and policy makers interested in political science.

Islamism and Globalisation in Jordan Daniel Atzori, 2015-05-22 This book explores the activities of the local Muslim Brotherhood in Jordan It examines how the Brotherhood working to establish an alternative social political and moral order through a network of Islamic institutions made a huge contribution to the transformation of Jordanian society It reveals however that the Brotherhood's involvement in the economic realm in Islamic financial activities led it to engage with the neo liberal approach to the economy with the result that the Islamic social institutions created by the Brotherhood such as charities lost their importance in favour of profit oriented activities

owned by leading Islamist individuals The book thereby demonstrates the hybridisation of Islamism and argues that Islamism is not an abstract set of beliefs but rather a collection of historically constructed practices The book also illustrates how globalisation is profoundly influencing culture and society in the Arab world though modified by the adoption of an Islamic framework The Penguin Dictionary of Islam Azim Nanji,2008-04-24 Islam today is a truly global faith yet it remains somewhat of an enigma to many of us Each and every day our newspapers are saturated with references to Islam Quran Taliban Hijab Fatwa Allah Sunni Jihad Shia the list goes on But how much do we really understand Are we in fact misunderstanding The Penguin Dictionary of Islam provides complete impartial answers It includes extensive coverage of the historical formations of the worldwide Muslim community and highlights key modern Muslim figures and events Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers *Routledge Handbook of Political Islam* Shahram Akbarzadeh,2020-12-29 This updated second edition of the Handbook of Political Islam covers a range of political actors that use Islam to advance their cause While they share the ultimate vision of establishing a political system governed by Islam their tactics and methods can be very different Capturing this diversity this volume also sheds light on some of the less known experiences from South East Asia to North Africa Drawing on expertise from some of the top scholars in the world the chapters examine the main issues surrounding political Islam across the world including Theoretical foundations of political Islam Historical background Geographical spread of Islamist movements Political strategies adopted by Islamist groups Terrorism Attitudes towards democracy Relations between Muslims and the West in the international sphere Challenges of integration Gender relations Capturing the geographical spread of Islamism and the many manifestations of this political phenomenon make this book a key resource for students and researchers interested in political Islam Muslim affairs and the Middle East **An Introduction to Islam in the 21st Century** Aminah Beverly McCloud,Scott W. origins of the different Sunni and Shi'a groups within Islam while also giving full and comprehensive coverage to Muslim ritual life and Islamic ethics. She discusses moral debates and modern lifestyle issues such as halal consumption, interfaith dialogue and controversy over the wearing of the veil. Diaspora communities are considered with a view to showing how norms and doctrines are understood and sometimes contradicted in social and ritual practice. In addition, the author focuses on the meaning and continuing application to modern life of the Quran and hadith as sources for Islamic theology, kalam and jurisprudence (fiqh). The book gives much attention to questions of universal values, Islam and democracy, gender issues, women's rights and pluralism, contrasting the thinking of Jihadists and radical Islamism with liberal reformist voices within Islam. *Islam: An Introduction* offers undergraduate students of religion and general readers a balanced, sensitive and well-informed overview of the world's most intensively discussed religious and cultural tradition. Maren Koss, 2018-01-03 This book provides a comprehensive analysis of Islamist organizations' conceptions of political order based on a comparative case study of the Shiite Lebanese Hezbollah and the Sunni Palestinian Hamas. Connecting Islamism, research, critical constructivist norm research and resistance studies from the field of International Relations Theory, it demonstrates that resistance constitutes both organizations' core norm and is relevant for their conceptions of political order. Based on primary Arabic data, the book illustrates that the core norm of resistance is deeply intertwined with both organizations' interactions towards power preservation and the specific political context they are engaged in. It characterizes Hezbollah's and Hamas' respective conceptions of political order and explains the differences between them. In contrast to common perceptions presented in research, politics and the media, the book shows that in the case of both Hezbollah and Hamas, the religious orientation, i.e. Shiite and Sunni Islamist political thought, plays a secondary role only when it comes to explaining Islamist organizations' political orientation. Bringing new insights from cases that lie beyond the Western liberal

world order into Critical Constructivist norm research and resistance studies the book establishes a theoretical framework that enables scholars to comprehensively analyze Islamist organizations political orientation in different cases without being caught in limited analytical categories It will be of interest to students and scholars of International Relations Theory Middle East Studies and Global Governance
