Rethinking War And Peace:

Rethinking War and Peace Diana Francis,2004-05-20 Is war ever a just way to resolve conflict Diana Francis argues that it is not With passion and eloquence she mounts a head on challenge to the belief that war as an institution is either necessary or effective for good Refuting the notion that human nature condemns us to perpetual carnage she argues that we can change the ways we think and the systems we live by In a tightly reasoned discussion of the ethics of war and peace she asserts that war is a gross denial of the core values on which peace depends and that the Just War Theory has failed and deceived us The book explores alternative ways of confronting aggression and injustice showing that these are neglected but well proven Francis argues that our security can be enhanced by recognition of our shared responsibility for each other and our planet Practical solutions require a new level of participation in public affairs Recent events have shown that this is possible Francis outlines the steps we must take to bring about the radical shift so urgently needed **Rethinking Europe**,2019-07-01 The Thirty Years War 1618 1648 lies at the intersection of early modern and modern times Frequently portrayed as the concluding chapter of the Reformation it also points to the future by precipitating fundamental changes in the military legal political religious economic and cultural arenas that came to mark a new the modern era Prompted by the 400th anniversary of the outbreak of the war the contributors reconsider the event itself and contextualize it within the broader history of the Reformation military conflicts peace initiatives and negotiations of war **Imagining War and Peace in Eighteenth-Century Britain, 1690-1820** Andrew Lincoln,2023-11-23 Is war the opposite of peace or its necessary accomplice Exploring this question in relation to eighteenth century Britain Andrew Lincoln opens up complex paradoxical and enduring issues and shows how ideas and methods were developed to provide the British public with moral insulation from violence both overseas and at home *Ethics of War and Peace in Iran and Shi'i Islam* Mohammed Jafar Amir Mahallati,2016-11-14 Nearly four decades after a revolution experiencing one of the longest wars in contemporary history facing political and ideological threats by regional radicals such as ISIS and the Taliban and having succeeded in negotiations with six world powers over her nuclear program Iran appears as an experienced Muslim country seeking to build bridges with its Sunni neighbours as well as with the West *Ethics of War and Peace in Iran and Shi i Islam* explores the wide spectrum of theoretical approaches and practical attitudes concerning the justifications causes and conduct of war in Iranian Shi i culture By examining primary and secondary sources and investigating longer lasting factors and questions over circumstantial ones Mohammed Jafar Amir Mahallati seeks to understand modern Iranian responses to war and peace His work is the first in its field to look into the ethics of war and peace in Iran and Shi i Islam It provides a prism through which the binary source of the Iranian national and religious identity informs Iranian response to modernity By doing so the author reveals that a syncretic and civilization conscious soul in modern Iran is re emerging [The Law of War and Peace](#) Gina Heathcote,Sara Bertotti,Emily Jones,Sheri A. Labenski,2021-01-28 The Law of War and Peace offers a cutting edge analysis

of the relationship between law armed conflict gender and peace This book which is the first of two volumes focuses on the interplay between international law and gendered experiences of armed conflict It provides an in depth analysis of the key debates on collective security unilateral force the laws governing conflict terrorism and international criminal law While much of the current scholarship has centered on the UN Security Council s Resolutions on Women Peace and Security this two volume work seeks to move understandings beyond the framework established by WPS It does this through providing a critical and intersectional approach to gender and conflict which is mindful of transnational feminist and queer perspectives

War on Peace Ronan Farrow, 2018-04-24 A New York Times Wall Street Journal Los Angeles Times and IndieBound bestseller Finalist for the Colby Award A new revised and updated edition of a modern classic of foreign policy a harrowing exploration of the collapse of American diplomacy and the abdication of global leadership by the winner of the 2018 Pulitzer Prize in Public Service US

foreign policy is undergoing a dire transformation forever changing America's place in the world. Institutions of diplomacy and development are bleeding out after deep budget cuts; the diplomats who make America's deals and protect its citizens around the world are walking out in droves. Offices across the State Department sit empty while abroad the military industrial complex has assumed the work once undertaken by peacemakers. We're becoming a nation that shoots first and asks questions later. In an astonishing journey from the corridors of power in Washington DC to some of the most remote and dangerous places on earth, Afghanistan, Somalia, and North Korea, among them acclaimed investigative journalist Ronan Farrow illuminates one of the most consequential and poorly understood changes in American history. His firsthand experience as a former State Department official affords a personal look at some of the last standard bearers of traditional statecraft, including Richard Holbrooke, who made peace in Bosnia and died while trying to do so in Afghanistan. Drawing on recently unearthed documents and richly informed by rare interviews with whistle blowers, a warlord, and policymakers, including every living former secretary of state from Henry Kissinger to Hillary Clinton to Rex Tillerson, and now updated with revealing firsthand accounts from inside Donald Trump's confrontations with diplomats during his impeachment and candid testimonials from officials in Joe Biden's inner circle, *War on Peace* makes a powerful case for an endangered profession. Diplomacy, Farrow argues, has declined after decades of political cowardice, shortsightedness, and outright malice, but it may just offer America a way out of a world at war.

More Than Just War Charles A. Jones, 2013. This book raises questions about the just war tradition through a critical examination of its revival and by juxtaposing it with a literary phenomenology of war. Recent public debate about war has leaned heavily on a just war tradition dating back many centuries. This book examines the recent revival of that tradition in the United States and Britain, arguing that it is less coherent and comprehensive as an approach to the ethical issues arising from war than is generally supposed, and that it is inconsistent in important ways with the theology on which it was originally based. A second line of criticism is mounted through close readings of modern texts in English from Britain, Australia, and the USA that together constitute a more subjective bottom-up understanding of the moral dilemmas of military life. In this second tradition, the task of representing war is seen as more problematic, and its rationality more questionable, than in just war discourse. Works by William Shakespeare, Sir Walter Scott, James Fenimore Cooper, Stephen Crane, John Buchan, Robert Louis Stevenson, Joseph Conrad, Tim O'Brien, and Kurt Vonnegut are featured. The book will be of great interest to students and scholars of security studies, military studies, theology, and international relations.

Logics of War Therese Feiler, 2019-12-12. The modern ethics of war is a field of disparate competing voices based on often unexplored theological and metaphysical assumptions. Therese Feiler approaches them from the borderline area between systematics, philosophical theology, and religious studies. With reference to G. W. F. Hegel's and like-minded thinkers, the logic that negotiates Christ's mediation and immanent dialectics, Feiler identifies the logic and problem of mediation as the core concern of political ethics. Feiler unites five representative authors from now disparate

strands of contemporary just war ethics testing whether they offer a meaningful possibility of mediation and subsequent reconciliation a sovereign realist and a cosmopolitan idealist a rationalist individualist an idealist Christian ethicist and finally an evangelical theologian Opening the just war debate for comparative critical engagement Feiler creates a fascinating study that locates a dynamic point at which faithful free political action can be wrestled from irony tragedy and melancholic inertia in the face of totalitarian suffocation

The Spirit of the Quakers Geoffrey Durham, 2010-11-16 Who are the Quakers what do they believe and what do they practice The Religious Society of Friends also known as Quakers believes that everyone can have a direct experience of God Quakers express this in a unique form of worship that inspires them to work for change in themselves and in the world In *The Spirit of the Quakers* Geoffrey Durham himself a Friend explains Quakerism through quotations from writings that cover 350 years from the beginnings of the movement to the present day Peace and equality are major themes in the book but readers will also find thought provoking passages on the importance of action for social change the primacy of truth the value of simplicity the need for a sense of community and much more The quoted texts convey a powerful religious impulse courage in the face of persecution the warmth of human relationships and dedicated perseverance in promoting just causes The extended quotations have been carefully selected from well known Quakers such as George Fox William Penn John Greenleaf Whittier Elizabeth Fry and John Woolman as well as many contemporary Friends Together with Geoffrey Durham's enlightening and sympathetic introductions to the texts the extracts from these writers form an engaging often moving guide to this accessible and open hearted religious faith

Territory, War, and Peace John A. Vasquez, Marie T. Henehan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henehan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress*

An International Relations Perspective and co editor of *The Scientific Study of Peace and War* *Living Nonviolently* Gabriel Moran, 2011-03-31 Are human beings naturally violent Is war the fate of the human race Despite the depressing record of the past the world's future depends upon avoiding war and drastically reducing violence *Living Nonviolently* Language for Resisting Violence examines carefully the language of violence and war One of the first casualties of violence is language which in turn makes resistance to violence difficult to articulate In the first four chapters Gabriel Moran proposes distinctions for the interconnected ideas of force power aggressiveness violence and war not to invent a new and logical language but to ground the meaning of these terms in our human experience That revitalization of ordinary language depends upon an inclusive language of men and women adults and children human and nonhuman animals The fifth chapter locates the potential for both encouraging violence and resisting violence in the peculiar logic of religion Jesus Sermon on the Mount is commonly invoked by people who say that nonviolence may be an admirable ideal for a few people but it is irrelevant for most people and for all nations in this chapter Moran examines the widely misunderstood sermon in detail to illustrate its potential for resisting violence For a conclusion he discusses practical means of education that are helpful to reaching some understanding of violence and resistance to violence *Living Nonviolently* is written for scholars in peace studies political philosophy or religious studies and for anyone who wishes to understand the roots of violence and war

Cold Peace: Avoiding the New Cold War Michael W. Doyle, 2023-04-25 An urgent examination of

the world barreling toward a new Cold War By 1990 the first Cold War was ending The Berlin Wall had fallen and the Warsaw Pact was crumbling following Russia's lead cries for democracy were being embraced by a young Chinese populace The post Cold War years were a time of immense hope and possibility They heralded an opportunity for creative cooperation among nations an end to ideological strife perhaps even the beginning of a stable international order of liberal peace But the days of optimism are over As renowned international relations expert Michael Doyle makes hauntingly clear we now face the devastating specter of a new Cold War this time orbiting the trilateral axes of Russia the United States and China and exacerbated by new weapons of cyber warfare and more insidious forms of propaganda Such a conflict at this phase in our global history would have catastrophic repercussions Doyle argues stymieing global collaboration efforts that are key to reversing climate change preventing the next pandemic and securing nuclear nonproliferation The recent devastating invasion of Ukraine is both an example and an augur of the costs that lay in wait However there is hope Putin is not Stalin Xi is not Mao and no autocrat is a modern Hitler There is also an unprecedented level of shared global interest in prosperity and protecting the planet from environmental disaster While it is unlikely that the United States Russia and China will ever establish a warm peace there are significant reasonable compromises between nations that can lead to a détente While the future remains very much in doubt the elegant set of accords and non subversion pacts Doyle proposes in this book may very well save the world

Waging War, Planning Peace Aaron Rapport, 2015-05-07 As the U S experience in Iraq following the 2003 invasion made abundantly clear failure to properly plan for risks associated with postconflict stabilization and reconstruction can have a devastating impact on the overall success of a military mission In *Waging War Planning Peace* Aaron Rapport investigates how U S presidents and their senior advisers have managed vital noncombat activities while the nation is in the midst of fighting or preparing to fight major wars He argues that research from psychology specifically construal level theory can help explain how individuals reason about the costs of postconflict noncombat operations that they perceive as lying in the distant future In addition to preparations for Phase IV in the lead up to the Iraq War Rapport looks at the occupation of Germany after World War II the planned occupation of North Korea in 1950 and noncombat operations in Vietnam in 1964 and 1965 Applying his insights to these cases he finds that civilian and military planners tend to think about near term tasks in concrete terms seriously assessing the feasibility of the means they plan to employ to secure valued ends For tasks they perceive as further removed in time they tend to focus more on the desirability of the overarching goals they are pursuing rather than the potential costs risks and challenges associated with the means necessary to achieve these goals Construal level theory Rapport contends provides a coherent explanation of how a strategic disconnect can occur It can also show postwar planners how to avoid such perilous missteps
