Epp, 2020-05-14 It is well known that the scope of individual rights has expanded dramatically in the United States over the last half century. Less well known is that other countries have experienced rights revolutions as well.

Charles R Epp argues that far from being the fruit of an activist judiciary the ascendancy of civil rights and liberties has rested on the democratization of access to the courts the influence of advocacy groups the establishment of governmental enforcement agencies the growth of financial and legal resources for ordinary citizens and the strategic planning of grass roots organizations In other words the shift in the rights of individuals is best understood as a bottom up rather than a top down phenomenon The Rights Revolution is the first comprehensive and comparative analysis of the growth of civil rights examining the high courts of the United States Britain Canada and India within their specific constitutional and cultural contexts It brilliantly revises our understanding of the relationship between courts and social change *Europe's new state of welfare* Jørgen Goul Andersen, Jochen Clasen, Wim van Oorschot, Knut Halvorsen, 2002-11-27 It is often argued that European welfare states with regulated labour markets relatively generous social protection and relatively high wage equality have become counter productive in a globalised and knowledge intensive economy Using in depth comparative and interdisciplinary analysis of employment welfare and citizenship in a number of European countries this book challenges this view It provides an overview of employment and unemployment in Europe at the beginning of the 21st century a comprehensive critique of the idea of globalisation as a challenge to European welfare states detailed country chapters with new and previously inaccessible information about employment and unemployment policies written by national experts Europe's new state of welfare is essential reading for students and teachers of social policy welfare studies politics and economics Oversight of the National Football League (NFL) Retirement System United States.
