Longman Exam Skills Proficiency Use Of English Teachers:

New Progress to Proficiency Teacher's Book Leo Jones, 2002-01-31 This teacher's book has been completely revised and updated for the December 2002 Proficiency exam specifications. It provides systematic coverage of skills and techniques for all five Proficiency papers. *Recent Advances in Corpus Linguistics* Lieven Vandelandotte, Kristin Davidse, Caroline Gentens, Ditte Kimps, 2014-08-15 This book is a selection of studies presented at the 33rd International Conference of the International Computer Archive of Modern and Medieval English ICAME hosted by the University of Leuven 30 May 3 June 2012. The strictly refereed and extensively revised contributions collected here represent recent advances in corpus linguistics both in the development of specialist corpora and in ways of exploiting them for specific purposes. The first part focuses on Corpus development and corpus interrogation and features papers on the compilation of new highly specialized corpora which aim to fill gaps in historical databases and on new ways of extracting relevant patterns automatically from computerized datasets. The second part devoted to Specialist corpora presents detailed descriptive studies on grammatical patterns in World Englishes on neology and using a contrastive approach on prepositions and cohesive conjunctions. The third and final part on Second language acquisition groups together studies situated at the intersection of corpus linguistics and educational linguistics and dealing with markers of relevance and lesser relevance in lectures. Deceptive cognates, the automatic annotation of native and non-native uses of demonstrative 'this' and 'that' and measuring learners' progress in speech and in writing. Each contribution in its own way reports on novel ways of getting mileage out of specialist corpora and collectively the contributions attest to the rude health of computerized corpus linguistic studies. Handbook of Research on Perspectives in Foreign Language Assessment Köksal, Dinçay, Kavaklı Ulutaş, Nurdan, Arslan, Sezen, 2023-02-27 As a predominant teaching paradigm, foreign language learning has increasingly been one of the crucial elements that leads to career accomplishments for students. Due to this, foreign language assessment has emerged as a major topic in the field of foreign language learning. The Handbook of Research on Perspectives in Foreign Language Assessment examines perspectives on language assessment through reflections on classroom applications and makes recommendations to strengthen quality language assessments by drawing on a variety of research methodologies. It also provides a foundation as to why foreign language assessment as a discipline should be refocused with caution, what sort of theoretical and practical implications should be in place for foreign language teachers and in what ways it may be possible to provide futuristic perspectives on foreign language assessment for test developers and users involved in language assessment.
