Stewards, Lords and People D. R. Hainsworth,2008-04 *Stewards Lords and People* analyses the role of the estate steward in the social mechanisms of later Stuart England *Lords and Lordship in the British Isles in the Late Middle Ages* Rees Davies,2009-06-11 It is well known that political economic and social power in the British Isles in the Middle Ages lay in the hands of a small group of domini lords In his final book the late Sir Rees Davies explores the personalities of these magnates the nature of their lordship and the ways in which it was expressed in a diverse and divided region in the period 1272 1422 Although their right to rule was rarely questioned the lords flaunted their identity and superiority through the promotion of heraldic lore the use of elevated forms of address and by the extravagant display of their wealth and power Their domestic routine furnishings dress diet artistic preferences and pastimes all spoke of a lifestyle of privilege and authority Warfare was a constant element in their lives affording access to riches and reputation but also carrying the danger of capture ruin and even death while their enthusiasm for crusades and tournaments testified to their energy and bellicose inclinations Above all underpinning the lords control of land was their control of men a complex system of dependence and reward that Davies restores to central significance by studying the British Isles as a whole The exercise and experience of lordship was far more varied than the English model alone would suggest *Mamecestre: being chapters form the early recorded history of the barony* John Harland,1861 **Remains, Historical and Literary, Connected with the Palatine Counties of Lancaster and Chester** ,1861 **The Compleat English Copyholder, Or, A Guide to Lords of Manors, Justices of the Peace, Tenants ... &c.
