The Homilist ,1866 Trauma, Torture and Dissociation

Aida Alayarian,2018-03-21 Theoretical material is presented in close conjunction with clinical data in the form of vignettes and case studies to illustrate the key points outlined in this book which focuses on the multidimensional approach to the understanding of childhood trauma It examines the contributions of psychoanalysis emphasising the act of dissociation healthy and unhealthy Specific attention is given to the internalisation of the m other object as the listening other and the dissociated part s that may results in an over idealised yet feared object The final discussion focuses on how patients in therapy become able to transform fears into psychic space and to break away from vulnerability by developing a better sense of self as the result of having the therapist as the listening other

Broke Katherine Porter,2012-01-11 About 1 5 million households filed bankruptcy in the last year making bankruptcy as common as college graduation and divorce The recession has pushed more and more families into financial collapse with unemployment declines in retirement wealth and falling house values destabilizing the American middle class *Broke* explores the consequences of this unprecedented growth in consumer debt and shows how excessive borrowing undermines the prosperity of middle class America While the recession that began in mid 2007 has widened the scope of the financial pain caused by overindebtedness the problem predated that large scale economic meltdown And by all indicators consumer debt will be a defining feature of middle class families for years to come The staples of middle class life going to college buying a house starting a small business carry with them more financial risk than ever before requiring more borrowing and new riskier forms of borrowing This book reveals the people behind the statistics looking closely at how people get to the point of serious financial distress the hardships of dealing with

overwhelming debt and the difficulty of righting one's financial life. In telling the stories of financial failures, this book exposes an all too real part of middle class life that is often lost in the success stories that dominate the American economic narrative. Authored by experts in several disciplines including economics, law, political science, psychology, and sociology, Broke presents analyses from an original proprietary data set of unprecedented scope and detail: the 2007 Consumer Bankruptcy Project. Topics include class status, home ownership, educational attainment, impacts of self-employment, gender differences, economic security, and the emotional costs of bankruptcy. The book makes judicious use of illustrations to present key findings and concludes with a discussion of the implications of the data for contemporary policy debates. Ecotherapy Howard Clinebell, 2013-12-19 Here is a trailblazing book on issues of vital interest to the future of humankind. Ecotherapy: Healing Ourselves, Healing the Earth sheds light on humankind's most serious health challenge ever: how to save our precious planet as a clean, viable habitat. As a guide for therapists, health professionals, pastoral counselors, teachers, medical healers, and especially parents, Ecotherapy: Healing Ourselves, Healing the Earth highlights readers' strategic opportunities to help our endangered human species cope constructively with the unprecedented challenge of saving a healthful planet for future generations. Ecotherapy: Healing Ourselves, Healing the Earth introduces readers to an innovative approach to ecologically grounded personality theory, spirituality, ecotherapy, and education. The book shares the author's well-developed theories and methods of ecological diagnosis, treatment, and education so professionals and parents, our most influential teachers, can rise to the challenge of saving our planet. Readers will find that the book helps them accomplish this goal as it explores an expanded, ecologically grounded theory of personality development, the missing dimension in understanding human identity formation, outlines a model for doing ecologically oriented psychotherapy, counseling, medical healing, teaching, and parenting, describes life-saving perspectives for making one's lifestyle more earth-caring, demonstrates the importance of hope, humor, and love, suggests how these earthy approaches may be utilized in a variety of social contexts and cultures. A systematic theory and practice guidebook, Ecotherapy: Healing Ourselves, Healing the Earth fills a wide gap in both the counseling and therapy literature and the ecology literature. It offers an innovative model for fulfilling the ecological circle between humans and nature with three action dimensions: These are self-care by being intentionally nurtured by nature, spiritual enrichment by enjoying the transcendent Spirit in nature, and responding by nurturing nature more responsibly and lovingly. The theories and practical applications presented in the book come together to explore long-overlooked issues at the boundary between human health and the health of the natural environment. Psychotherapists, health professionals, and teachers, pastoral counselors, and other clergy who counsel and teach laypersons who are parents and grandparents, and individuals and groups interested in environmental issues will find Ecotherapy: Healing Ourselves, Healing the Earth essential for approaching the long-neglected earthy roots of the total human mind-body-spirit organism. Reimagining Mission From Urban Places Anna Ruddick, 2020-02-28 Reimagining Mission from Urban Places offers much-needed reflection about the nature of mission and

about expectations for missional outcomes Using the stories of team members within the Eden Network which emphasises an incarnational approach to urban mission the book demonstrates that at its best mission happens in a shared life rather than being about us telling the listening world

Wagering on Transcendence Phyllis Carey, 1997 *Wagering on Transcendence* explores the question of ultimate meaning in literature Through essays Mount Mary College professors from various disciplines analyze several pieces of literature from a variety of genres and authors to show how each depicts the human struggle to find meaning The essays analyze concrete examples of spiritual journeys the ways in which nature can be an avenue of transcendence the transforming effect that the search for meaning can have on the individual how transcendence can be experienced through community the roles of language and story in the quest for transcendence and the wager itself how our bets about the existence of the Divine determine how we live our lives

The Language and Imagery of Coma and Brain Injury Matthew Colbeck, 2021-04-22 What occurs within coma What does the coma patient experience How does the patient perceive the world outside of coma if at all The simple answer to these questions is that we don t know Yet the sheer volume of literary and media texts would have us believe that we do Examining representations of coma and brain injury across a variety of texts this book investigates common tropes and linguistic devices used to portray the medical condition of coma giving rise to universal mythologies and misconceptions in the public domain Matthew Colbeck looks at how these texts represent or fail to represent long term brain injury drawing on narratives of coma survivors that have been produced and curated through writing groups he has run over the last 10 years Discussing a diverse range of cultural works including novels by Irvine Welsh Stephen King Tom McCarthy and Douglas Coupland as well as film and media texts such as *The Sopranos* *Kill Bill* *Coma* and *The Walking Dead* Colbeck

provides an explanation for our fascination with coma With a proliferation of misleading stories of survival in the media and in literature this book explores the potential impact these have upon our own understanding of coma and its victims

Homicide and the Politics of Law Reform Jeremy Horder,2012-07-12 What makes murder murder How should we understand the difference between intentional and reckless killing Should offenders be punished differently according to the perceived severity of their crime and when should they be excused These questions are the topic of intense debate within legal circles and beyond in the UK the US and the rest of world Jeremy Horder s role as the Law Commissioner for England and Wales on criminal law has given him unique insight into these questions and the debates surrounding them Here he analyses the recent political and legal reform movements offering a political history of homicide law reform from the 19th century to the modern era Using homicide as a starting point Horder raises deeper questions of who is and should be responsible for making and changing the law What role should there be for expert bodies judges and politicians What role should there be for the general public These questions invoke strong emotional responses Horder argues that comprehensive research into and a degree of difference to public opinion on the scope of homicide is essential to the reform process It is essential principally as a means of conferring true legitimacy on homicide reform in a democracy Elite or expert opinion alone will never authentically secure such legitimacy Offering an insider s view into the processes of achieving law reform Horder expresses criticism of a system that excludes the vast majority of people from consultation on reform of the laws that govern them
