but a corpus of books Examining early editions of *Treasure Island* *King Solomon's Mines* and *The Lost World* the *Element* argues that fin de siècle adventure fiction sought to resist the nineteenth century industrialisation of book production from within As the *Element* points out the genre is filled with nostalgic simulations of material anachronisms facsimiles of fictional pre modern paper printing and handwriting that re humanise the otherwise alienating landscape of the modern book and modern literary production The *Element* ends by exploring a subversive revival of lost world adventure fiction that emerged in response to ebooks at the beginning of the twenty first century

*The Bigamy Plot* Maia McAleavey, 2015-05-18 This study explores the prevalence of bigamy in Victorian fiction to challenge traditional understanding of the period's social and narrative conventions

**The Publishers Weekly**, 1912

**The Colonial Conan Doyle** Catherine Wynne, 2002-07-30 Arthur Conan Doyle is often perceived as the quintessential Englishman patriotically devoted to the Crown and the empire's defender and apologist But such a relegation is both limiting and simplistic Born in Scotland to Irish Catholic parents Doyle's heritage is complex His paternal grandfather John Doyle had originally left Ireland for London in the early 19th century his father was committed to the cause of Irish separatism and his uncle resigned from his position as main cartoonist for *Punch* after the journal launched an attack on the Pope Consequently British imperialism Irish nationalism and Catholic allegiance converge uneasily in his works This book examines the resulting tensions between imperialism and colonialism in his writings It argues that his thematic obsessions with topography race psyche and sexuality stem from his ambivalence toward his own heritage The volume repositions Doyle and redresses current critical approaches that have seen him solely as the advocate of empire and have ignored his colonial background It explores how his fictions occur within a colonial context the complexity of which is evident in gothic tropes of shifting landscapes disguised criminalities spiritualism and sexual anomalies and

conflicts
