Lost Butler:

Lost Freedmen's Town of Hamburg, South Carolina, The Michael S. Smith, 2021 Hamburg is perhaps South Carolina's most famous ghost town. Founded in 1821, it grew to four thousand residents before transportation advances led to decline. During Reconstruction, recently freed slaves reshaped Hamburg into a freedmen's village where residents held local county and state offices. These gains were wiped away after the Hamburg Massacre in 1876, a watershed event that left seven African Americans dead, most of them executed in cold blood. Yet more than a century after Hamburg, the one white supremacist killed in the melee is canonized by the racially divisive Meriwether Monument in downtown North Augusta. Author Michael Smith details the amazing events that created this unique community with a lasting legacy. From back cover

Butler on Whitehead Roland Faber, Michael Halewood, Deena Lin, 2012-03-22 This volume is based on the first set of formal conversations which brings together the dynamic philosophies of two eminent thinkers, Judith Butler and Alfred North Whitehead. Each has drawn from a wide palette of disciplines to develop distinctive theories of becoming, of syntactical violence and creative opportunities of limitation. In bringing together internationally renowned interpreters of Butler and Whitehead from a variety of fields and disciplines—philosophy, rhetoric, gender and queer studies, religion, literary and political theory—the editors hope to set a standard for the relevance of interdisciplinary philosophical discourse today. This volume offers a unique contribution to and for the humanities in the struggles of politics, economy, ecology, and the arts by reaching beyond their closed circles toward understandings that may serve as the basis for the activation of humanity today. Considered together, Butler and Whitehead delineate a whole new cadre of approaches to long-standing problems as well as never before asked questions in the humanities. **The Political Philosophy of Judith Butler** Birgit Schippers, 2014-04-03

Judith Butler can justifiably be described as one of the major critical thinkers of our time. While she is best known for her interventions into feminist debates on gender, sexuality, and feminist politics, her focus in recent years has broadened to encompass some of the most pertinent topics of interest to contemporary political philosophy. Drawing on Butler's deconstructive reading of the key categories and concepts of political thought, Birgit Schippers expounds and advocates her challenge to the conceptual binaries that pervade modern political discourse. Using examples and case studies like the West's intervention in Iraq and Afghanistan and in relation to the Israeli-Palestinian conflict, Schippers demonstrates how Butler's philosophically informed engagement with pressing political issues of our time elucidates our understanding of topics such as immigration and multiculturalism, sovereignty, or the prospect for new forms of cohabitation and citizenship beyond and across national boundaries. A detailed exposition and analysis of Butler's recent ideas championing her efforts at articulating the possibilities for radical politics and ethical life in an era of global interdependence, this book makes an important contribution to the emerging field of international political philosophy. **Tubal Uriah Butler of Trinidad and Tobago** Kwame Nkrumah of Ghana Daurius Figueira, 2007 This work explodes myths on the decolonization process in

former British colonies of Trinidad and Tobago and Ghana Myths that masked the fact that the British colonial overlord with the full support of their local lackeys stage managed the process to ensure that compliant regimes were put in place as the inheritors of Independence from the British Tubal Uriah Butler was systematically destroyed as a political leader to end his threat to the political order as he was not of the required material to be an inheritor of Independence Kwame Nkrumah was fit to rule Ghana but he was subsequently removed in 1966 The social orders of Trinidad and Tobago and Ghana have been deeply impacted by British machinations on the road to Independence to this day **Major Butler's Legacy** Malcolm Bell, Jr.,2004-12-01 Master of vast rice and cotton plantations in South Carolina and Georgia delegate to the Constitutional Convention Major Pierce Butler bequeathed his family and nation a legacy of slavery an inheritance of immense wealth sown with the seeds of Civil War In Major Butler s Legacy Malcolm Bell charts the unfolding of the Butler patrimony an epic story that reaches from the eve of the Revolution to the first decades of this century and includes in its course such figures as George Washington Aaron Burr Fanny Kemble William Tecumseh Sherman Henry James Theodore Roosevelt and Owen Wister **Critical Approaches in Nursing Theory and Nursing Research** Thomas Foth,Dave Holmes,Manfred Hülsken-Giesler,Susanne Kreutzer,Hartmut Remmers,2017-02-13 This comprehensive collection offers a unique look at nursing practice theory research and nursing history from various critical theoretical perspectives It aims to initiate an international discussion among scholars from diverse countries particularly Germany and Anglo American countries coming from distinctive schools of thought e g German Critical theory and Post structural approaches and influenced by their respective histories of sciences This book analyzes and criticizes nursing theory nursing research and practice along several dimensions Nursing Ethics Subjectivity Body and Flesh Leib Technology Power History and Education **Judith Butler, Michel Foucault, and the Theology of Freedom** Gunda Werner,2023-12-22 This book explores how Judith Butler s work on gender and the shaping of the human subject and Michel Foucault s notion of parrhesia speaking the truth can be made fruitful for a theology of freedom The volume illustrates the importance of three concepts freedom gender body and power critique and how this triad provides the foundational categories and structural elements of a theology of freedom By starting from an analysis of power and the performative potential of gendered embodiment freedom can be thought of as the basis of creative and critical human action and thereby implemented in theology The chapters feature several theological historical case studies that are representative of topics that continue to shape contemporary Catholic norms and thought In particular the author reflects on the 13th century with the idea of personal sin and confession and the 19th century with a gender ideology that has led to the marginalization of difference and dissent The book shows how Butler and Foucault can provide essential insights for Catholic theology and is valuable reading for scholars of religion philosophy and gender and sexuality studies Voices from Necropolis Sara Khorshidi,2019 At the intersection of Derrida s philosophy and Spivak s influence on narrative studies this study offers a critical effort that goes against the mainstream of contemporary studies about

autobiographical texts here Reading Lolita in Tehran and Persepolis On another level this book is an attempt to interrogate critically the relation of subalternity and autobiographical writing which is only made possible by extending the range of the genre of autobiography so that it can bear witness to what has been condemned to be unnarratable and consequently unheard

Collision David Cecchetto, Nancy Cuthbert, Julie Lassonde, 2008-12-18 With very few exceptions interdisciplinary art and interarts practices examined as such including the perspective of artist researchers and not subsumed under a singular category of performance or visual art have until now been largely ignored While it would be simplistic to think that this collection somehow rectifies the piecemeal status of this discourse our wager is that this collection works towards presenting an understanding of this status as in a certain sense constitutive of the field Beginning with an introduction to the very multiplicities that compose and complicate interdisciplinary practices then moving into questions of body technology location movement space practice performativity aesthetics this collection covers an enormous amount while still retaining an overarching sense of unity in the context of the subject as a whole Each of these sections negotiates a series of interrelated collisions in order to address a range of theoretical positions as well as a variety of international and cultural perspectives In addition to addressing the notion of interdisciplinarity and the challenges of specific interarts practices this publication seeks to question how we might understand interarts practice in a way that does not exclude perspectives such as spirituality law political activism and community development to name only a few The inclusion of these disparate practices within this publication itself a site of collision of the poetic the conversational and the theoretical is thus not presented as an attempt to unify or normalize them but rather as a productive charting of their radical explosion a collision that is always a colliding

The Vulnerability of the Human World Elodie Boubil, Susi Ferrarello, 2023-10-21 This book contains the most recent papers problematizing the notions of health vulnerability and well being for individuals and their environment Organized in 5 sections the book takes into consideration the critical and phenomenological history of well being and health their technological manipulation how these notions connect with the body and the specific vulnerability of the human being and what responsible direction we can take to improve people's relation to themselves to other living beings and their environment In order to address the issue of the vulnerability of the human world and how to respond to its specific challenges the contributions in this book discuss the topic from a broad range of perspectives including anthropological psychological sociological philosophical and environmental

The Biblical Repository and Classical Review, 1850

Those Who Come After Stephen Frosh, 2019-04-10 This book explores the legacies of suffering in relation to those who come after the descendants of victims survivors and perpetrators of traumatic events It draws on recent discussions of postmemory and haunting that are concerned mainly with the transgenerational impact of personal and social trauma It examines how we are connected to past events for which we have no direct responsibility yet in which we might in some way be implicated and it asks how we might attain a position of active witnessing that helps resolve the suffering of others Those

Hunt, 2003-11-20

Exploring the life and leadership of Populist Marion Butler 1863 1938 James Hunt offers new insight into the challenges of American reform politics The son of North Carolina farmers and a graduate of the University of North Carolina Butler displayed an early proclivity for agrarian reform By age twenty eight he led the Farmers Alliance of North Carolina two years later he was elected president of the national Alliance Butler served in the U S Senate as a Populist from 1895 to 1901 and was chairman of the national Populist Party during the critical presidential elections of 1896 and 1900 In 1896 he helped engineer the remarkable collaboration in which Populist Tom Watson ran for vice president alongside Democratic presidential nominee William Jennings Bryan Departing from earlier portrayals of Butler as a political opportunist Hunt shows him to be a genuine reformer who upheld Populist tenets in the face of enormous opposition from Democrats Republicans and even members of his own party A dynamic individual with enormous capacity to mobilize and motivate Butler sought throughout his career to convert his reform ideals through politics into law His long and ultimately losing efforts illuminate the limitations of Populism as an ideology and as a political movement **Melancholy and the Archive** Jonathan Boulter, 2011-05-19
