Fourteenth Edition. Revised by Captain John V. Noel ... Assisted by William J. Miller. [With Illustrations.]. Austin Melvin KNIGHT, William J. MILLER, John Vavasour NOEL (Commander, United States Navy.), 1966

**Modern Seamanship (Classic Reprint)** Austin Melvin Knight, 2015-08-06 Excerpt from *Modern Seamanship* An attempt is made in the following pages to cover a wider field than that covered by most of the existing works on Seamanship The admirable treatises of Luce Nares and Alston originating in the days when seamanship was almost wholly concerned with the fitting and handling of vessels under sail have preserved through later editions the general characteristics which they naturally assumed in the beginning These treatises will never be out of date until the time still far in the future when sails shall have been entirely driven out by steam It will hardly be denied however that the Steamer has long since established its claim to consideration in Seamanship and that there is room for a work in which this claim shall be more fully recognized than in the treatises above referred to The excellent work of Captains Todd and Whall *Practical Seamanship* for the Merchant Service deals more fully than either of its predecessors with the handling of steamers but its point of view is as its name implies primarily and almost exclusively that of the Merchant Service Shortly after the present work was begun a circular letter was addressed to officers of the merchant service and extensively circulated through the Branch Hydrographic

Offices at New York Philadelphia Baltimore and Norfolk requesting the views of the officers addressed upon the following subjects I Taking a Disabled Vessel in Tow in Bad Weather II Rescuing the Crew of a Wreck in Bad Weather III Rescuing a Man Overboard IV Lying to in a Gale V The Stowage and Handling of Boats VI Manoeuvring Single screw and Twin screw Vessels VII Floating a Stranded Vessel VIII Handling Steamers around a Dock About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Modern Seamanship Don Dodds, 2000 Instructs readers on such seamanship skills as navigation docking boat handling maintenance and how to handle common emergencies
