## **Modern Women:**

*Early Modern Women's Manuscript Poetry* Jill Seal Millman, Gillian Wrigth, 2005-06-04 Early modern women's manuscript poetry is an anthology of texts by fourteen women poets writing between 1589 and 1706. It is the only currently available anthology of early modern women's writing which focuses exclusively on manuscript material. Authors include Mary Sidney, Lucy Hutchinson, and Katherine Philips, central figures in the emerging canon of early modern women writers but whose work appears in a fresh and very different light in the manuscript context emphasised by this anthology. The volume also includes substantial excerpts from a recently discovered verse paraphrase of Genesis thought to be by the previously unknown seventeenth century writer Mary Roper as well as selections from the unjustly neglected poet Hester Pulter. **Modern**

**Women, Modern Work** Francesca Sawaya, 2013-04-19 Focusing on literary authors, social reformers, journalists, and anthropologists, Francesca Sawaya demonstrates how women intellectuals in early twentieth century America combined and criticized ideas from both the Victorian cult of domesticity and the modern culture of professionalism to shape new kinds of writing and new kinds of work for themselves. Sawaya challenges our long standing histories of modern professional work by elucidating the multiple ways domestic discourse framed professional culture. Modernist views of professionalism typically told a racialized story of a historical break between the primitive feminine and domestic work of the Victorian past and the modern masculine professional expertise of the present. *Modern Women, Modern Work* historicizes this discourse about the primitive labor of women and racial others and demonstrates how it has been adopted uncritically in contemporary accounts of professionalism, modernism, and modernity. Seeking to recuperate black and white women's contestations of the modern professions, Sawaya pairs selected novels with a broad range of nonfiction writings to show how differing narratives about the transition to modernity authorized women's professionalism in a variety of fields. Among the figures considered are Jane Addams, Ruth Benedict, Willa Cather, Pauline Hopkins, Zora Neale Hurston, Sarah Orne Jewett, Josephine St Pierre Ruffin, and Ida Tarbell. In mapping out the constraints women faced in their writings and their work and in tracing the slippery compromises they embraced and the brilliant adaptations they made, *Modern Women, Modern Work* boldly reenvision the history of modern professionalism in the United States. **Damron Women's Guide: Contemporary Guide for a Modern**

**Early Modern Women's Writing and the Future of Literary History** Lara Dodds, Michelle M. Dowd, 2025-02-03 Early Modern Women s Writing and the Future of Literary History demonstrates that a full accounting of early modern women s

literary and creative activities is necessary to the future of literary studies writ large Despite benefiting from a rich body of scholarship and diverse critical practices early modern women s writing is still treated as an optional or secondary component of Renaissance literary studies as a whole In this book Dodds and Dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future Dodds and Dowd examine how perennial questions about authorship canon and literary value have historically influenced scholarship on early modern women s writing and its place within literary studies Early modern women s writing has been perceived as belated out of sync with dominant critical trends Dodds and Dowd show the belatedness of early modern women s writing to be a happy accident that positions women s writing as a resource for the renewal of literary history In both the classroom and in scholarship early modern women s writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies This book demonstrates that a feminist literary history that places women s writing at its center is essential to the future of English Renaissance literary studies There is in other words no history of English Renaissance literature without women writers

**Reaction to the Modern Women's Movement, 1963 to the Present** Angela Howard, Sasha Ranae Adams Tarrant, 2018-10-24 Antifeminism in cultural context To give today's readers an understanding of the social and political forces that actively fought against any changes in women's status in the United States the editors selected these original examples from the writings of the time that appeared in popular books and magazines Opponents of women's equality frequently voiced their opinions about 19th century issues of women's suffrage dress reform self expression independence and other topics that touched upon the perceived roles and duties of women Such public diatribes continued into the 20th century as determined antifeminists argued against increased opportunities for women in employment and education denied the propriety of family planning and admonished against women's involvement in politics Arguments based on ridicule natural law and false claims Some opponents merely dismissed or ridiculed calls for changes in women's status without specifying particular flaws in the feminist position Others cited divine ordination applied to natural law and fanned public fears of familial and social disintegration Frequently these critics resorted to charges of presumed lesbianism communism and socialism against advocates of women's rights and against the movement itself This adamant opposition to equality for women was a manifestation of common apprehension about ongoing social economic and political changes beyond antifeminist control Antifeminists in their own words Today few people have even an inkling of the vehemence theatrical posturing and convoluted reasoning of the antifeminist forces This varied selection of original sources puts an illuminating spotlight on the arguments presented by opponents of women's equality that is drawn from an extensive body of writings ranging from the elegant pronouncements of a popular politician to sincere endorsements of the status quo by female apologists for those opposed to the women's movement to purveyors of low satire in the popular press For modern readers this collection provides the opportunity to encounter directly the reasoning opinions and perceptions of those that resisted and criticized the goals and achievements of feminism A valuable resource for many disciplines A particularly valuable feature of this set is its wealth of primary source material from the 19th and early 20th centuries including material from books and newspapers Very few libraries have collected these sources and chances are no single collection has them all These volumes are of great interest to women's studies women's history gender studies cultural studies as well as history political science sociology and

literature Many of the examples of antifeminist writing found in the set can enrich classroom discussions and assignments that involve communication writing and rhetoric Available individually by volume 1 *Opposition to the Women's Movement in the United States 1848-1929* 0 8153 2713 7 400 pages 2 *Redefining the New Woman 1920-1963* 0 8153 2714 5 344 pages 3 *Reaction to the Modern Women's Movement 1963 to the Present* 0 8153 2715 3 352 pages      Women's Labour and the History of the Book in Early Modern England Valerie Wayne, 2020-05-14 This collection reveals the valuable work that women achieved in publishing printing writing and reading early modern English books from those who worked in the book trade to those who composed selected collected and annotated books Women gathered rags for paper production invested in books and oversaw the presses that printed them Their writing and reading had an impact on their contemporaries and the developing literary canon A focus on women's work enables these essays to recognize the various forms of labour textual and social as well as material and commercial that women of different social classes engaged in Those considered include the very poor the middling sort who were active in the book trade and the elite women authors and readers who participated in literary communities Taken together these essays convey the impressive work that women accomplished and their frequent collaborations with others in the making marking and marketing of early modern English books      **Eve's Daughter/Modern Woman** Sally Webster, 2004 Often regarded as merely the creator of sentimental images of mothers and children or an expatriate heavily influenced by Impressionism Mary Cassatt is not typically regarded as an artist of radical convictions This text re-evaluates these dismissals and presents a complete overview of her mural      *Readings in Renaissance Women's Drama* S. length study in English of women's tanci fiction the distinctive Chinese form of narrative written in rhymed lines during the late imperial to early modern period related to but different from the orally performed version also called tanci She explores the tradition through a comparative analysis of five seminal texts Guo argues that Chinese women writers of the period position the personal within the diegesis in order to reconfigure their moral commitments and personal desires By fashioning a feminine representation of subjectivity tanci writers found a habitable space of self expression in the male dominated literary tradition Through her discussion of the emergence evolution and impact of women's tanci Guo shows how historical forces acting on the formation of the genre serve as the background for an investigation of cross dressing self portraiture and authorial self representation Further Guo approaches anew the concept of woman oriented perspective and argues that this perspective conceptualizes a narrative framework in which the heroine's are endowed with mobility to exercise their talent and power as social beings as men's equals Such a woman oriented perspective redefines normalized gender roles with an eye to exposing women's potentialities to transform historical and social customs in order to engender a world with better prospects for women

*Describing Women's Clothing in Eighteenth-century England* Elizabeth Spencer, 2024 Descriptions of women's clothing increasingly circulated across textual genres and beyond in eighteenth century England This book explores the significance of these descriptions across a range of sources including wills newspapers accounts court records and the records of the old poor law Attention has rested on women literate and wealthy enough to leave behind textual or material traces but this book ranges from the parish pauper to the gentlewoman to consider descriptive languages rhetorical strategies and relationships with clothing across the social hierarchy It explores how women described their own clothing but also looks at how it was described by overseers family members retailers and even strangers It shows that we must look beyond isolated descriptions to how why and who was describing clothing to understand its role Chapters uncover themes of material obligation expectation and entitlement

*Early Modern Women's Manuscript Writing* Jonathan Gibson, 2017-03-02 Because print publishing was often neither possible nor desirable for women in the early modern period in order to understand the range of writing by women and indeed women's literary history itself it is important that scholars consider women's writing in manuscript Since the body of critical studies on women's writing for the most part prioritizes print over manuscript this essay collection provides an essential corrective The essays in this volume discuss many of the ways in which women participated in early modern manuscript culture The manuscripts studied by the contributors originated in a wide range of different milieux including the royal Court the universities gentry and aristocratic households in England and Ireland and French convents Their contents are similarly varied original and transcribed secular and devotional verse religious meditations letters moral precepts in French and English and recipes are among the genres represented Emphasizing the manuscripts social political and religious contexts the contributors challenge commonly held notions about women's writing in English in the early modern period and bring to light many women whose work has not been considered
