

WHAT IS MODERNISM?

Modernism was a cultural and artistic movement that emerged in the late 19th and early 20th century.

It rejected traditional values and sought to create new forms of expression.

Modernist artists and writers experimented with new techniques and styles, breaking away from the conventions of the past.

They aimed to capture the complexities of the modern world and explore the inner workings of the human mind. Modernism was characterized by its focus on individualism, self-expression, and a rejection of the old ways of thinking.

Modernism A Cultural History:

Modernism Tim Armstrong, 2005-06-17 In this study aimed at a general and student audience Tim Armstrong seeks to define modernism not only by its aesthetics and literary genres but also by its links with broader cultural areas in which the modern is implicated and debated and which inform its representational modes Besedilo s hrbta knj *Modernism* Tim Armstrong, 2005 *Modernism A Cultural History* explores modernism's struggle with a split temporality in which the old and the emerging new struggle and in which with the horror of the Great War notions of a traumatic or frozen time emerge It considers such key topics as modernism market culture and obscurity the culture of science and technology politics economics eugenics and sexology primitivism and race cinema and sound recording gender and modernism and the study of consciousness and the senses **The Oxford Critical and Cultural History of Modernist Magazines** Peter

Brooker, Andrew Thacker, 2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the *New Age* *Blast* the *Egoist* and the *Criterion* *New Writing* *New Verse* and *Scrutiny* as well as of lesser known magazines such as the *Evergreen* *Coterie* the *Bermondsey Book* the *Mask* *Welsh Review* the *Modern Scot* and the *Bell* To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion **The Oxford Critical and Cultural History of Modernist Magazines** Peter Brooker, Andrew Thacker, 2009

This volume contains 44 original essays on the role of periodicals in the United States and Canada Over 120 magazines are discussed by expert contributors completely reshaping our understanding of the construction and emergence of modernism

Modernism, Technology, and the Body Tim Armstrong, 1998-02-28 This

book is a study of the relations between the body and its technologies in modernism Tim Armstrong traces the links among modernist literary texts and medical psychological and social theory across a range of writers Armstrong shows how modernists subjected the body to new modes of production representation and commodification as they attempted to render it part of modernity Drawing on a wide range of disciplines Armstrong challenges the received oppositions between technology and literature by demonstrating the complex interconnections between these domains *Inspiration: Bacchus and the Cultural History of a Creation Myth* John F. Moffitt, 2005-05-01 The purpose of this book is to reveal the antique pedigree of a now commonplace term Inspiration an essential creation myth now propelling notions of self expression in modern art making Knowledge of the ancient sources of such supposedly modernist fixations will make a significant contribution to historical cultural thinking particularly by showing in detail the facts of an unrecognized evolutionary continuity In order to personify Inspiration this study initially focuses upon Michelangelo's Bacchus of 1496 so revealing now forgotten meanings once typically to be attached in a generic way to any Bacchus Then it demonstrates how these Dionysiac concepts arose in ancient Greece Later developments particularly from the Middle Ages through the Renaissance are traced here for the first time Due to further modifications by Friedrich Nietzsche Dionysiac expressionism eventually became a staple of modern art theory and practice

A Cultural History of the Emotions in the Age of Romanticism, Revolution, and Empire Susan J. Matt, 2020-08-20 Between 1780 and 1920 modern conceptions of emotion conceptions still very much present in the 21st century first took shape This book traces that history charting the changing meaning and experience of feelings in an era shaped by political and market revolutions romanticism empiricism the rise of psychology and psychoanalysis During this period the word emotion itself gained currency gradually supplanting older vocabularies and visions of feeling Terms to describe feelings changed so too did conceptions of emotions proper role in politics economics and culture Political upheavals turned a spotlight on the role of feeling in public life in domestic life sentimental bonds gained new importance as families were transformed from productive units to emotional ones From the halls of parliaments to the familial hearth from the art museum to the theatre from the pulpit to the concert hall lively debates over feelings raged across the 19th century
