Making extensive use of information gained from in depth interviews with architects active in the period between 1928 1953 the author provides a sympathetic understanding of the Modern Movement's architectural role in reshaping the fabric and structure of British metropolitan cities in the post war period and traces the links between the experience of British modernists and the wider international modern movement **The Cambridge History of Modernism** Vincent Sherry, 2017-01-11

This Cambridge History of Modernism is the first comprehensive history of modernism in the distinguished Cambridge Histories series It identifies a distinctive temperament of modernism within the modern period establishing the circumstances of modernized life as the ground and warrant for an art that becomes modernist by virtue of its demonstrably self conscious involvement in this modern condition Following this sensibility from the end of the nineteenth century to the middle of the twentieth tracking its manifestations across pan European and transatlantic locations the forty three chapters offer a remarkable combination of breadth and focus Prominent scholars of modernism provide analytical narratives of its literature music visual arts architecture philosophy and science offering circumstantial accounts of its diverse personnel in their many settings These historically informed readings offer definitive accounts of the major work of twentieth century cultural history and provide a new cornerstone for the study of modernism in the current century **Laboratory of Modernity** Serhiy Bilenky, 2023-10-15

When the powers of Europe were at their prime present day Ukraine was divided between the Austrian and Russian empires each imposing different political social and cultural models on its subjects This inevitably led to great diversity in the lives of its inhabitants shaping modern Ukraine into the multiethnic country it is today Making innovative use of methods of social and cultural history gender studies literary theory and sociology Laboratory of Modernity explores the history of Ukraine throughout the long nineteenth century and offers a unique study of its pluralistic society culture and political scene Despite

being subjected to different and conflicting power models during the nineteenth and early twentieth centuries Ukraine was not only imagined as a distinct entity with a unique culture and history but was also realized as a set of social and political institutions The story of modern Ukraine is geopolitically complex encompassing the historical narratives of several major communities including ethnic Ukrainians Poles Jews and Russians who for centuries lived side by side The first comprehensive study of nineteenth century Ukraine in English Laboratory of Modernity traces the historical origins of some of the most pressing issues facing Ukraine and the international community today *Modernism, Space and the City* Andrew Thacker, 2019-01-22 This innovative text examines the development of modernist writing in four European cities London Paris Berlin and Vienna **Reading Modernism with Machines** Shawna Ross, James O'Sullivan, 2016-11-30 This book uses the discipline specific computational methods of the digital humanities to explore a constellation of rigorous case studies of modernist literature From data mining and visualization to mapping and tool building and beyond the digital humanities offer new ways for scholars to questions of literature and culture With the publication of a variety of volumes that define and debate the digital humanities we now have the opportunity to focus attention on specific periods and movements in literary history Each of the case studies in this book emphasizes literary interpretation and engages with histories of textuality and new media rather than dwelling on technical minutiae Reading Modernism with Machines thereby intervenes critically in ongoing debates within modernist studies while also exploring exciting new directions for the digital humanities ultimately reflecting on the conjunctions and disjunctions between the technological cultures of the modernist era and our own digital present *The Dead City* Paul Dobraszczyk, 2017-06-30 The Dead City unearths meanings from such depictions of ruination and decay looking at representations of both thriving cities and ones which are struggling abandoned or simply in transition It reveals that ruination presents a complex opportunity to envision new futures for a city whether that is by rewriting its past or throwing off old assumptions and proposing radical change Seen in a certain light for example urban ruin and decay are a challenge to capitalist narratives of unbounded progress They can equally imply that power structures thought to be deeply ingrained are temporary contingent and even fragile Examining ruins in Chernobyl Detroit London Manchester and Varosha this book demonstrates that how we discuss and depict urban decline is intimately connected to the histories economic forces power structures and communities of a given city as well as to conflicting visions for its future

Legacies of Modernism P. McBride, R. McCormick, M. Zagar, 2007-01-22 Between 1890 and 1950 modernist art and culture set out to challenge century old notions of the individual and the community culture and politics morality and freedom placing into question the very foundations of Western civilization The essays in this volume present a novel assessment of various manifestations of modernism in Germany and Scandinavia by posing the question of its critical and political impact beyond traditional polarities such as right vs left illiberalism vs Enlightenment apolitical vs engaged In drawing on a wide range of disciplinary perspectives including literary studies art history film and visual studies urban

studies musicology political theory and the history of science and technology the essays in this volume reexamine modernism's bold inquiry into areas such as the relation of art to technology and mass politics the limits of liberal democracy the reconceptualization of urban spaces and the realignment of traditional art forms following the rise of new media such as film The volume's contributors share a belief in the timeliness of modernism's critical impulse for a contemporary age confronted with ethical and political dilemmas that the modernists first articulated and to which they attempted to respond

The Hong Kong Modernism of Leung Ping-kwan C. T. Au, 2019-11-29 This book revolves around the fundamental question What is Hong Kong modernism To address this issue C T Au identifies three significant characteristics a renewal of traditions an obsession with ordinary things and an expression of concerns about social and political issues shared among Western modernisms Chinese modernism in the 1940s and such Hong Kong modernists as Ma Lang Liu Yichang and Leung Ping kwan Yasi Ye Si This research concentrates on an examination of the major modernist tenets embodied in Leung's literary works Leung Ping kwan is one of the most prominent and widely read Hong Kong modernist writers however there exist only a few scholarly works which focus on the direct relationship between Leung's works and modernisms The author argues that Leung paid special attention to issues regarding tradition daily life and colonial culture in order to understand his past his identity and the unique features of Hong Kong modernism which celebrate multiple perspectives and inclusiveness This study not only helps differentiate Hong Kong modernism from other modernisms positioning the former as a variant of the latter but also provides a response to the problems evoked by Hong Kong's colonial milieu

Literature, Modernism and Myth Michael Bell, 1997-01-28 The use of myth in Modernist literature is a misleadingly familiar theme Joyce's appropriation of Homer's Odyssey and Eliot's of Frazer's Golden Bough are like Lawrence's primitivism or Yeats's nationalist folklore attempts to discover an underlying metaphysic in an increasingly fragmented world In Literature Modernism and Myth Michael Bell also examines the relationship of myth and modernism to postmodernism Myth Bell shows is inherently flexible it was used to justify Pound's totalizing vision of society which eventually descended into fascism and the liberal ironic vision of human existence Joyce and Mann expressed Those theorists who present myth as another form of mystification a search for false origins ignore its use by modernists to emphasise the ultimate contingency of all values This anti foundational element Bell claims enables myth to act as a corrective to the claims of ideological critique Bell shows how postmodern concerns with political and social responsibility and the role literature plays in formulating this have in fact been inherited from modernism

Architecture considers landscape architecture's increasingly important cultural, aesthetic, and ecological role. The volume reflects topical concerns in theoretical, historical, philosophical, and practice-related research in landscape architecture research that reflects our relationship with what has traditionally been called nature. It does so at a time when questions about the use of global resources and understanding the links between human and non-human worlds are more crucial than ever. The twenty-five chapters of this edited collection bring together significant positions in current landscape architecture research under five broad themes: History, Sites and Heritage, City and Nature, Ethics and Sustainability, Knowledge and Practice, supplemented with a discussion of landscape architecture education. Prominent as well as up-and-coming contributors from landscape architecture and adjacent fields, including Tom Avermaete, Peter Carl, Gareth Doherty, Ottmar Ette, Matthew Gandy, Christophe Girot, Anne Whiston Spirn, Ian H. Thompson, and Jane Wolff, seek to widen fuel and frame critical discussion in this growing area. Jewish Musical Modernism, Old and New Philip V. Bohlman, 2008-11-15 Tackling the myriad issues raised by Sander Gilman's provocative opening salvo "Are Jews Musical," this volume's distinguished contributors present a series of essays that trace the intersections of Jewish history and music from the late nineteenth century to the present. Covering the sacred and the secular, the European and the non-European, and all the arenas where these realms converge, these essays recast the established history of Jewish culture and its influences on modernity. Mitchell Ash explores the relationship of Jewish scientists to modernist artists and musicians, while Edwin Seroussi looks at the creation of Jewish sacred music in nineteenth-century Vienna. Discussing Jewish musicologists in Austria and Germany, Pamela Potter details their contributions to the science of music as a modern phenomenon. Kay Kaufman Shelemay investigates European influence in the music of an Ethiopian Jewish community, and Michael P. Steinberg traces the life and works of Charlotte Salomon, whose paintings staged the destruction of the Holocaust. Bolstered by Philip V. Bohlman's wide-ranging introduction and epilogue and featuring lush color illustrations and a complementary CD of the period's music, this volume is a lavish tribute to Jewish contributions to modernity.

Reorienting Modernism in Arabic and Persian Poetry Levi Thompson, 2022-12-08 Reorienting Modernism in Arabic and Persian Poetry is the first book to systematically study the parallel development of modernist poetry in Arabic and Persian. It presents a fresh line of comparative inquiry into minor literatures within the field of world literary studies. Focusing on Arabic-Persian literary exchanges allows readers to better understand the development of modernist poetry in both traditions and in turn challenge Europe's position at the center of literary modernism. The argument contributes to current scholarly efforts to globalize modernist studies by reading Arabic and Persian poetry comparatively within the context of the Cold War to establish the Middle East as a significant participant in wider modernist developments. To illuminate profound connections between Arabic and Persian modernist poetry in both form and content, the

book takes up works from key poets including the Iraqis Badr Shakir al Sayyab and Abd al Wahhab al Bayati and the Iranians Nima Yushij Ahmad Shamlu and Forough Farrokhzad **The Behavioural Environment** F.W. Boal,D.N.
