Modernism and Eugenics Donald J. Childs, 2001-09-06 In *Modernism and Eugenics* first published in 2001 Donald Childs shows how Virginia Woolf T S Eliot and W B Yeats believed in eugenics the science of race improvement and adapted this scientific discourse to the language and purposes of the modern imagination Childs traces the impact of the eugenics movement on such modernist works as Mrs Dalloway A Room of One's Own The Waste Land and Yeats's late poetry and early plays The language of eugenics moves he claims between public discourse and personal perspectives It informs Woolf's theorization of woman's imagination in Eliot's poetry it pictures as a nightmare the myriad contemporary eugenical threats to humankind's biological and cultural future And for Yeats it becomes integral to his engagement with the occult and his commitment to Irish Nationalism This is an interesting study of a controversial theme which reveals the centrality of eugenics in the life and work of several major modernist writers *Virginia Woolf in Context* Bryony Randall, Jane Goldman, 2012-12-17 Covering a wide range of historical theoretical critical and cultural contexts this collection studies key issues in contemporary Woolf studies Modernism and the Aristocracy Adam Parkes, 2023 The early twentieth century saw a radical redrawing of Britain's social and political map as its hereditary aristocracy was pushed from the centre to the margins of the nation's affairs This book traces the literary consequences of the modernist preoccupation with aristocracy that this social change inspired Modernism and the Crisis of Sovereignty Andrew John Miller, 2020-09-19 This book describes how three of the most significant Anglophone writers of the first half of the twentieth century Yeats Eliot and Woolf wrestled with a geopolitical situation in which national boundaries had come to seem increasingly permeable at the same time as war among and within individual nation states had come to seem virtually inescapable Drawing on Jean-François Lyotard's analysis of the elements of performativity in J L Austin's speech act theory and making critical use of Carl Schmitt's writings on sovereignty and world order Miller situates the writings of Yeats Eliot and Woolf in the context of what Lyotard describes as a civil war of language By virtue of its dissolution of any clear boundary between interiority and exteriority as well as by virtue of its resistance to any decisive form of resolution or regulation this civil war of language takes on dimensions that are ultimately global in scope Miller examines the emergence of modernism as bound up with a crisis of personal political and aesthetic sovereignty that undermined traditional distinctions between the public and private In the process he directly engages with the theoretical discourse surrounding the geopolitical impact of globalization and biopolitics a discourse that is central to the influential and widely debated work of such varied figures as Carl Schmitt Hardt and Negri Giorgio Agamben and Jean-Luc Nancy This book will be of interest to anyone concerned not only with twentieth century literature but also with questions of nationalism and globalization **The Bloomsbury Companion to Modernist Literature** Ulrika Maude, Mark Nixon, 2018-11-01 In this book leading international scholars explore the major ideas and debates that have made the study of modernist literature one of the most vibrant areas of literary studies today The

**Science, Technology, and Irish Modernism** Kathryn Conrad,Cóilín Parsons,Julie McCormick Weng,2019-09-13 Since W B Yeats wrote in 1890 that the man of science is too often a person who has exchanged his soul for a formula the anti scientific bent of Irish literature has often been taken as a given *Science Technology and Irish Modernism* brings together leading and emerging scholars of Irish modernism to challenge the stereotype that Irish literature has been unconcerned with scientific and technological change The collection spotlights authors ranging from James Joyce Elizabeth Bowen Flann O Brien and Samuel Beckett to less studied writers like Emily Lawless John Eglinton Denis Johnston and Lennox Robinson With chapters on naturalism futurism dynamite gramophones uncertainty astronomy automobiles and more this book showcases the far reaching scope and complexity of Irish writers engagement with innovations in science and technology Taken together the fifteen original essays in *Science Technology and Irish Modernism* map a new literary landscape of Ireland in the twentieth century By focusing on writers often ignored interest in science and technology this book uncovers shared concerns between revivalists modernists and late modernists that challenge us to rethink how we categorize and periodize Irish literature **The Modernist Novel and the Decline of Empire** John Marx,2005-12-08 In the early twentieth century

subjects of the British Empire ceased to rely on a model of centre and periphery in imagining their world and came instead to view it as an interconnected network of cosmopolitan people and places English language and literature were promoted as essential components of a commercial cultural and linguistic network that spanned the globe John Marx argues that the early twentieth century was a key moment in the emergence of modern globalization rather than simply a period of British imperial decline Modernist fiction was actively engaged in this transformation of society on an international scale The very stylistic abstraction that seemed to remove modernism from social reality in fact internationalized the English language Rather than mapping the decline of Empire modernist novelists such as Conrad and Woolf celebrated the shared culture of the English language as more important than the waning imperial structures of Britain

**The Great War, The Waste Land and the Modernist Long Poem** Oliver Tearle, 2019-03-07 The Great War The Waste Land and the Modernist Long Poem explores

how cultural responses to the trauma of the First World War found expression in the form of the modernist long poem Beginning with T S Eliot's The Waste Land Oliver Tearle reads that most famous example of the genre in comparison with lesser known long poems such as Hope Mirrlees's Paris A Poem Richard Aldington's A Fool in the Forest and Nancy Cunard's Parallax As well as presenting a new history of this neglected genre the book examines the ways in which the modernist long poem represented the seminal literary form for grappling with the crises of European modernity in the wake of World War I

Richter, 2010-12-14 What makes us human Where is the limit between human and animal These are questions that haunt post Darwinian literature Covering fiction from Kipling to Kafka this study offers a historically embedded analysis of anthropological anxiety in the period between the publication of the Origin of Species and the beginning of the Second World War

Anarchism and eugenics Richard Cleminson, 2019-05-22 At the heart of this book is what would appear to be a striking and fundamental paradox the espousal of a scientific doctrine that sought to eliminate dysgenics and champion the fit as a means of race survival by a political and social movement that ostensibly believed in the destruction of the state and the removal of all hierarchical relationships What explains this reception of eugenics by anarchism How was eugenics mobilised by anarchists as part of their struggle against capitalism and the state What were the consequences of this overlap for both anarchism and eugenics as transnational movements

**Nation and Citizenship in the Twentieth-Century British Novel** Janice Ho, 2018-03-01 Nation and Citizenship in the Twentieth Century British Novel charts how novelists imagined changing forms of citizenship in twentieth century Britain This study offers a new way of understanding the constitution of the nation state in terms of the concept of citizenship Through close readings it reveals how major authors such as E M Forster Virginia Woolf Elizabeth Bowen Sam Selvon Buchi Emecheta Salman Rushdie and Monica Ali presented political struggles over citizenship during key historical moments the advent of democracy the emancipation of women the rise of social welfare provision the institution of the security state during World War II and the emergence of multicultural citizenship during postwar immigration This serves as the first full length monograph to map the

interrelations between literary production and public debates about citizenship that shaped Britain in the twentieth century

*Writing disenchantment* Andrew Frayn, 2015-11-01 It has become axiomatic that First World War literature was disenchanted or disillusioned and returning combatants were unable to process or communicate that experience In *Writing disenchantment* Andrew Frayn argues that this was not just about the war non combatants were just as disenchanted as those who fought and writers such as D H Lawrence and Virginia Woolf produced some of the sharpest criticisms Its language already existed in contemporary sociological and historical accounts of the problems of mass culture and the modern city whose structures contained the conflict and were strengthened during it Archival material sales data and reviews are used to chart disenchantment in a wide range of early twentieth century war literature from novels about fears of invasion and pacifism through the modernist novels of the 1920s to its dominance in the War Books Boom of 1928-30 This book will appeal to scholars and students of English literature social and cultural history and gender studies
