Modernization and British Colonial Rule in Egypt, 1882-1914 Robert L. Tignor, 2015-12-08 In occupied Egypt British governmental programs were closely related to England's needs as an imperial power since Egypt was occupied because of its strategic position along the route to India British presence there however inevitably led to modernization during the 32 years of British rule During the first period the British were preoccupied with the prospect of imminent withdrawal The second period emphasized programs for such reforms as hydraulic and agricultural modernization wider education and urban development The final period covered the emergence of Egyptian nationalism whose goals proved incompatible with British rule of Egypt in spite of efforts to deal with nationalism by repression or conciliation Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Modernization and British Colonial Rule in Egypt, 1882-1914, by Robert L. **Monarchy and Modernity in Egypt** James Whidden, 2013-09-27 The creation of the Egyptian monarchy in 1922 under King Fuad II opened contests and debates over fundamental cultural questions particularly definitions of Egyptian modernity rule and identity Here James Whidden looks at the political cultural and intellectual landscapes of Egypt between the wars from the nationalist agitations for independence in 1919 the rise of the Wafd first under Saad Zaghlul and then Mustafa El Nahas Pasha and the rise and fall of different political and power brokers in the period such as Abd al Latif al Makkabati or Abd al Khaliq Tharwa Whidden therefore focuses on the different interpretations of the nature of Egyptian politics highlighting the ways in which patriotism and elitism Islam and tradition colonial manipulations and ideological politics combine In particular he examines how monarchists like Zaki Fahmy and Diaeddine Saleh attempted to neutralise opponents through cultural works patronage and political party contests The period under examination was to a large extent defined by the revolution of 1919 and the constitutional and electoral processes that followed The sectors of society involved in this were the effendiyya and the notables such as Zaghlul But these were soon dominated by the monarch as the Wafd party allied with the king Bearing this in mind Whidden examines how these notables attempted to mobilise the people in revolutionary activity electoral contest and the formation of political party organization in this period Although a liberal constitution was written by an appointed constitutional commission in 1923 Whidden argues that the disagreements it occasioned suggest that politics in the interwar period was very much an attempt to redefine or rewrite that constitution to the differing assumptions of liberal nationalists and monarchists *Monarchy and Modernity in Egypt* is thus a vital resource for those

interested in Middle East history as well as intellectual developments within the region *Strong Societies and Weak States* Joel S. Migdal, 1988-11-21 Why do many Asian African and Latin American states have such difficulty in directing the behavior of their populations in spite of the resources at their disposal And why do a small number of other states succeed in such control What effect do failing laws and social policies have on the state itself In answering these questions Joel Migdal takes a new look at the role of the state in the third world *Strong Societies and Weak States* offers a fresh approach to the study of state society relations and to the possibilities for economic and political reforms in the third world In Asia Africa and Latin America state institutions have established a permanent presence among the populations of even the most remote villages A close look at the performance of these agencies however reveals that often they operate on principles radically different from those conceived by their founders and creators in the capital city Migdal proposes an answer to this paradox a model of state society relations that highlights the state's struggle with other social organizations and a theory that explains the differing abilities of states to predominate in those struggles **Doctor, Teacher, Terrorist** Sajjan M.

**International Relations in the Arab World** Fred Lawson,2006 This book explores the emergence of an anarchic states system in the twentieth century Arab world Following the collapse of the Ottoman Empire Arab nationalist movements first considered establishing a unified regional arrangement to take the empire s place and present a common front to outside powers But over time different Arab leaderships abandoned this project and instead adopted policies characteristic of self interested territorially limited states In his explanation of this phenomenon the author shifts attention away from older debates about the origins and development of Arab nationalism and analyzes instead how different nationalist leaderships changed the ways that they carried on diplomatic and strategic relations He situates this shift in the context of influential sociological theories of state formation while showing how labor movements and other forms of popular mobilization shaped the origins of the regional states system **The Cambridge History of Africa** J. D. Fage,Roland Anthony Oliver,G. N.

Sanderson,1975 Volume VI covers the period 1870 1905 when the European powers divided the continent into colonial territories **Power and Passion in Egypt** Archie Hunter,2007-06-29 When Sir Eldon Gorst succeeded Lord Cromer as Agent and Consul General in Cairo in 1907 Britain effectively ruled Egypt and the Sudan The period Gorst spent in Egypt was critical in shaping Africa s history The British government gave Gorst the task of liberalising the Egyptian regime a role he pursued with vigour However the reforms he introduced satisfied neither Egyptian nationalists nor British expatriates who believed he was merely pandering to agitators Pressure increased after Boutros Ghali the Egyptian Prime Minister and Gorst s close ally was assassinated in 1910 Under immense strain Gorst suspended his reform programme and a year later he was dead from cancer Gorst s role in determining the path taken by the government of Egypt is often overlooked Power and Passion in Egypt offers a timely assessment of his contribution and argues that his was an honourable attempt to share government with the Egyptian people **The Making of the Modern Near East 1792-1923** Malcolm Yapp,2014-01-09

This clear and authoritative text surveys the history of the region from the collapse of the Ottoman Empire to the present day It contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp s new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990 91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east **Subalterns and Social Protest** Stephanie Cronin,2012-09-10 The articles in this collection

provide an alternative view of Middle Eastern history by focusing on the oppressed and the excluded offering a challenge to the usual elite narratives The collection is unique in its historical depth ranging from the medieval period to the present and

its geographical reach including Iran the Ottoman Empire Turkey the Balkans the Arab Middle East and North Africa The first to focus on the oppressed and the excluded and their differing strategies of survival of negotiation and of protest and resistance the book covers both major social classes and sectors the working class the peasantry the urban poor women marginal groups such as gypsies and slaves Based on perspectives drawn from the work of the great European social historians and particularly inspired by Antonio Gramsci the collection seeks to restore a sense of historical agency to subaltern classes in the region and to uncover the politics of the people *Whose Pharaohs?* Donald Malcolm Reid, 2002 A comprehensive history of Egyptian archeology from the origins of the field during the Napoleonic era to World War I

States of Disorder Dan Halvorson, 2016-04-01 There have always been weak or fragile states in the modern era or poorly governed and disorderly political communities in earlier times Yet the idea of state failure has only acquired such prominence in the post Cold War period Why would many countries in the less developed world be considered failed states after 1990 but not in 1965 when there is little meaningful difference in their observable empirical conditions What counts as state failure is ultimately a subjective political judgement made by the great powers of the day This judgement is based on the sensitivity of great powers to particular types of disorder generated from the periphery in different historical periods This book is a comparative history of the conditions under which great powers care enough about disorder from the periphery to mount costly armed interventions to reverse what they deem to be state failure Histories of the Jews of Egypt Dario Miccoli, 2015-03-24 Up until the advent of Nasser and the 1956 War a thriving and diverse Jewry lived in Egypt mainly in the two cities of Alexandria and Cairo heavily influencing the social and cultural history of the country Histories of the Jews of Egypt argues that this Jewish diaspora should be viewed as an imagined bourgeoisie It demonstrates how from the late nineteenth century up to the 1950s a resilient bourgeois imaginary developed and influenced the lives of Egyptian Jews both in the public arena in institutions such as the school and in the home From the schools of the Alliance Isra lite Universelle and the Cairo lyc e fran ais to Alexandrian marriage contracts and interwar Zionist newspapers this book explains how this imaginary was characterised by a great capacity to adapt to the evolutions of late nineteenth and early twentieth century Egypt but later deteriorated alongside increasingly strong Arab nationalism and the political upheavals that the country experienced from the 1940s onwards Offering a novel perspective on the history of modern Egypt and its Jews and unravelling too often forgotten episodes and personalities which contributed to the making of an incredibly diverse and lively Jewish diaspora at the crossroads of Europe and the Middle East this book is of interest to scholars of Modern Egypt Jewish History and of Mediterranean History *Foreign Policy Motivation* Richard W. Cottam, 1977-01-15 Foreign policy motivation is a complex mix reflecting the fears and aspirations of publics interest groups bureaucratic sets and important individuals International conflict cannot be resolved without resolving how foreign policy is motivated This book presents a conceptual framework for identifying and weighing foreign policy motives that shape direct and alter foreign policy **Islamic**

Seeking Bread and Fortune in Port Said Lucia Carminati,2025-10-28 Seeking Bread and Fortune in Port Said probes migrant labor's role in shaping the history of the Suez Canal and modern Egypt. It maps the everyday life of Port Said's residents between 1859 when the town was founded as the Suez Canal's northern harbor and 1906 when a railway connected it to the rest of Egypt. Through groundbreaking research, Lucia Carminati provides a ground-level perspective on the key processes touching late nineteenth-century Egypt: heightened domestic mobility and immigration intensified urbanization, changing urban governance and growing foreign encroachment. By privileging migrants' prosaic lives, Seeking Bread and Fortune in Port Said shows how unevenness and inequality laid the groundwork for the Suez Canal's making.
