Peasants, Politics and Revolution Joel S. Migdal, 2015-03-08 During the last quarter century peasant participation in politics has increased markedly in parts of Latin America and Asia Why the poor and vulnerable peasant population has chosen to leave the confines of the village for political activity and at times for sustained revolution is the question this book explores The author draws on informal interviews and observation of peasants in Mexico and India and on fifty one community studies of peasants in Asia and Latin America compiled by ethnographers in the last forty years He suggests that severe economic crises have driven peasants to roles in the larger economy outside the village where they are initially attracted to politics by material incentives Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The**

Political Economy of Development Norman T. Uphoff, Warren F. Ilchman, 2023-11-15 Ilchman and Uphoff believe that political science has failed in the past to meet its own standards of rigor and cogency and does not meet standards of usefulness and relevance set by others The Political Economy of Change attempts to remedy these shortcomings by expanding the limits of social science analysis to deal with problems of allocation and productivity in all spheres of public choice not just the economic sphere Ilchman and Uphoff believe that political science has failed in the past to meet its own standards of rigor and cogency and does not meet standards of usefulness and relevance set by others The Political Economy of Change attempts to remedy these shortco **Working with Rural Communities Participatory Action Research in Kenya** P. Chitere, Roberta Mutiso, 1991-12-29 This book addresses itself to mobilisation and involvement of rural people in development projects It describes an imperfect but nonetheless exciting and thought provoking exercise that drew social

science researchers and students from four public universities in Kenya into an experiment in participatory research community education and development in two locations The experiment was grounded on the assumptions that the people of Kenya are a primary resource and that given proper roles and contribution of planners researchers and programme implementers self sustainable development can become a reality The contributors of this book have focused on the potential of the university to facilitate participation of the people in development They have given specific suggestions on how this might be accomplished

Culture and Public Action Vijayendra Rao, Michael Walton, 2004 Led by Amartya Sen Mary Douglas and Arjun Appadurai the distinguished anthropologists and economists in this book forcefully argue that culture is central to development and present a framework for incorporating culture into development discourse For further information on the book and related essays please visit www.cultureandpublicaction.org

Peasants and Poverty (Routledge Revivals) Mats Lundahl, 2015-05-15 Haiti is a country which until the earthquake of 2010 remained largely outside the focus of world interest and outside the important international historical currents during its existence as a free nation The nineteenth century was the decisive period in Haitian history serving to shape the class structure the political tradition and the economic system During most of this period Haiti had little contact with both its immediate neighbours and the industrialised nations of the world which led to the development of Haiti as a peasant nation This title first published in 1979 examines the factors responsible for the poverty of the Haitian peasant by using both traditional economic models as well as a multidisciplinary approach incorporating economics and other branches of social science The analysis deals primarily with the Haitian peasant economy from the early 1950s to the early 1970s examining in depth the explanations for the secular tendency of rural per capita incomes to decline during this period

Anatomy of Rebellion Claude E. Welch Jr., 1980-06-30 Anatomy of Rebellion provides an understanding of four rebellions that will make clear the factors that are crucial in the development of other rebellions Seeking a political pattern in the process of rebellion Claude Welch Jr has investigated four large scale rural uprisings that came close to becoming revolutions the Taiping rebellion in China 1850 64 the Telengana uprising in India of 1946 51 the Mau Mau rebellion in Kenya of 1952 56 the Kwilu uprising in Zaire of 1963 65 Weaving the facts of these rebellions with theories about political violence Welch follows the rebellions through the initial stages of discontent to the explosion of violence to the suppression of the uprisings He then challenges explanations of political violence both Marxist and non Marxist that other scholars have proposed Rebellions have not been studied as thoroughly as the major successful revolutions although the frequency of rebellions in the modern world is not likely to diminish Rural dwellers discontents are still clashing with central governments ambitions Anatomy of Rebellion clarifies how this volatile

type of political violence occurs **This Changing World** Foreign Service Institute (U.S.). Center for Area and Country Studies, 1970 *The Rational Peasant* Samuel L. Popkin, 2023-11-15 Popkin develops a model of rational peasant behavior and shows how village procedures result from the self interested interactions of peasants This political economy view of peasant behavior stands in contrast to the model of a distinctive peasant moral economy in which the village community is primarily responsible for ensuring the welfare of its members Popkin develops a model of rational peasant behavior and shows how village procedures result from the self interested interactions of peasants This political economy view of peasant behavior stands in contrast to the model of a distinctive peasant moral *Institutions, Social Norms and Economic Development* Jean-Philippe Platteau, 2015-12-08 In order for economic specialization to develop it is important that well defined property rights are established and that suspicion and fear of fraud do not pervade transactions Such conditions cannot be created ex abrupto but must somehow evolve What needs to develop is not only suitable practices and rules themselves but also the public agencies and moral environment without which generalized trust is difficult to establish The cultural endowment of societies as they have developed over their particular histories is bound to play a major role in this regard and the matter of cultural endowment is one of the central themes of this book On the other hand division of labour does not only require well enforced property rights and trust in economic dealings It is also critically conditioned by the thickness of economic space itself dependent on population density This provides the second major theme of the volume market development including the development of private property rights is not possible or will remain very incomplete if populations are thinly spread over large areas of land The book makes special reference to sub Saharan Africa **The Haitian Economy (Routledge Revivals)** Mats Lundahl, 2015-05-08 Haiti is a very poor country with a stagnant economy This title first published in 1983 considers the Haitian economy placing it in its historical context and explores the reasons why it has performed so badly Mats Lundahl examines agriculture which has failed to provide an adequate standard of living analyses the structure of agricultural production and explains why the land is so unproductive Lundahl analyses why technology in agriculture is so underdeveloped and argues that no government since 1820 has been seriously interested in fostering economic development since vested interest consistently intervenes to discourage new projects *Theories & Methods in Rural Community Studies* H.
