Shaffer,1982 Black and white designs based on reverse applique mola patterns worked by Cuna Indian women in Panama **Molas** Diana Marks,2016-10-01 Molas the distinctive blouses made and worn by Kuna women in Panama are collected by thousands of enthusiasts as well as by anthropological museums all over the world They are recognized everywhere as an identifier of the Kuna people and also of Panama This book based on original research explores the origin of the mola in the early twentieth century how it became part of the everyday dress of Kuna women and its role in creating Kuna identity Images drawn from more than twenty museums as well as private collections show the development of designs and techniques and highlight changes in the garment as an item of indigenous fashion Applying an interdisciplinary approach fusing historical ethnographic and material culture studies author Diana Marks contributes to ongoing debates on cultural authenticity the invention of traditions and issues of gender and politics *Cuna Molas and Cocle Art Forms* Mary W. Helms,1981 **M is for Mola Art** Susan Striker,2012-05-14 M is for Mola A Kuna Indian Alphabet of Quilted Folk Art is a unique alphabet book illustrated with charming and amusing examples of museum quality folk art Rich in detail the brightly colored illustrations motivate young readers to hone their skills in visual discrimination Looking at the art will spark curiosity and stimulate conversation The titles on each page are translated into nine languages adding to this rich cultural experience Kuna Crafts, Gender, and the Global Economy Karin E. Tice,2010-01-01 Brightly colored and intricately designed molas have become popular with buyers across the United States Europe and Japan many of whom have never heard of the San Blas Kuna of Panama who make the fabric pictures that adorn the clothing wall hangings and other goods we buy In this study Karin Tice explores the impact of the commercialization of mola production on Kuna society one of the most important yet least studied social changes to occur in San Blas in this century She argues that far from being a cohesive force commercialization has resulted in social differentiation between the genders and among Kuna women residing in different parts of the region She also situates this political economic history within a larger global context of international trade

political intrigue and ethnic tourism to offer insights concerning commercial craft production that apply far beyond the Kuna case. These findings based on extensive ethnographic field research constitute important reading for scholars and students of anthropology, women's studies and economics. They also offer an indigenous perspective on the twentieth century version of Columbus's landing: the arrival of a cruise ship bearing wealthy souvenir seeking tourists.

Auto/Biography across the Americas Ricia A. Chansky, 2016-08-05. Auto biographical narratives of the Americas are marked by the underlying themes of movement and belonging. This collection proposes that the impact of the historic or contemporary movement of peoples to in and from the Americas, whether chosen or forced, motivates the ways in which identities are constructed in this contested space. Such movement results in a cyclical quest to belong and to understand belonging that reverberates through narratives of the Americas. The volume brings together essays written from diverse national, cultural, linguistic and disciplinary perspectives to trace these transnational motifs in life writing across the Americas. Drawing on international scholars from the seemingly disparate regions of the Americas, North America, the Caribbean and Latin America, this book extends critical theories of life writing beyond limiting national boundaries. The scholarship included approaches, narrative inquiry from the fields of literature, linguistics, history, art history, sociology, anthropology, political science, pedagogy, gender studies, critical race studies and indigenous studies. As a whole, this volume advances discourse in auto biography studies, life writing and

identity studies by locating transnational themes in narratives of the Americas and placing them in international and interdisciplinary conversations *Kuna Art and Shamanism* Paolo Fortis, 2013-01-02 Known for their beautiful textile art the Kuna of Panama have been scrutinized by anthropologists for decades Perhaps surprisingly this scrutiny has overlooked the magnificent Kuna craft of nuchukana wooden anthropomorphic carvings which play vital roles in curing and other Kuna rituals Drawing on long term fieldwork Paolo Fortis at last brings to light this crucial cultural facet illuminating not only Kuna aesthetics and art production but also their relation to wider social and cosmological concerns Exploring an art form that informs birth and death personhood the dream world the natural world religion gender roles and ecology Kuna Art and Shamanism provides a rich understanding of this society's visual system and the ways in which these groundbreaking ethnographic findings can enhance Amerindian scholarship overall Fortis also explores the fact that to ask what it means for the Kuna people to carve the figure of a person is to pose a riddle about the culture's complete concept of knowing Also incorporating notions of landscape islands gardens and ancient trees as well as cycles of life including the influence of illness Fortis places the statues at the center of a network of social relationships that entangle people with nonhuman entities As an activity carried out by skilled elderly men who possess embodied knowledge of lifelong transformations the carving process is one that mediates mortal worlds with those of immortal primordial spirits Kuna Art and Shamanism immerses readers in this sense of unity and opposition between soul and body internal forms and external appearances and image and design
