Moment Between The Past And The Present:

Jung on Synchronicity and Yijing Young Woon Ko, 2011-01-18 Jung's understanding of Yijing for supporting the synchronistic principle reveals the key issues of his archetypal theory Jung's archetypal theory which is the basic motif of his understanding of Yijing illuminates the religious significance of Yijing Jung defines the human experience of the divine as an archetypal process by way of which the unconscious conveys the human religious experience In this way the divine and the unconscious mind are inseparable from each other For the human experience of the divine Jung's archetypal theory developed in a theistic tradition is encountered with the religious character of the non theistic tradition of Yijing From Jung's partial adaptation of Yijing however we notice the differences between Jung's archetypal psychology and the Yijing cosmological view This difference represents the difference between the Western and the East Asian tradition This aspect is well shown in the fact that Jung's theoretical assumption for the definition of archetype is deeply associated with Plato's Idea and the Kantian a priori category Accordingly Jung brings their timeless spaceless realm of archetype into the synchronistic phenomenon of the psyche and identifies the Yijing text with the readable archetype Yet the synchronistic moment that Jung presents is the phenomenon always involved in subjective experience and intuition which are developed in the duration of time The synchronistic phenomenon is not transcendent or the objective flowing of time in itself regardless of our subjective experience

Psychoanalysis, History, and Subjectivity Roger Kennedy, 2002 The author develops new perspectives on historiography by applying psychoanalytic insight into the key issues of narrative time and subjectivity in the construction of historical accounts

Merleau-Ponty and Nishida Adam Loughnane, 2019-12-19 Places the phenomenologies of Merleau Ponty and Nishida in dialogue and uncovers a demand for a motor perceptual form of faith in both philosophers' meditations on artistic expression In Merleau Ponty and Nishida Adam Loughnane initiates a fascinating new dialogue between two of the twentieth century's most important phenomenologists of the Eastern and Western philosophical worlds Throughout the book the reader is guided among the intricacies and innovations of Merleau Ponty's and Nishida's ontological approaches to artistic expression with a focused look at a rarely explored connection between faith and negation in their philosophies Exploring the intertwining of these concepts in their broader ontologies invokes a reappraisal of the ambiguous status of religion and art in the writings of both thinkers Measuring these ambiguities the ontologies of Merleau Ponty and Nishida are read in depth alongside great artworks and the motor perceptual practices of seminal landscape artists such as Cézanne, Sesshō Taiga and Hasegawa as well as other major figures of European, Chinese and Japanese art history Loughnane studies these artists' bodily practices focusing on the intimate relations realized with the landscapes they paint and illuminating a valence of their expressive disciplines as a motor perceptual form of faith Merleau Ponty and Nishida is an exciting intercultural reading expanding two philosophers' projects toward new horizons of research revealing incitements in their writings that challenge unambiguous distinctions between art, philosophy, faith and ultimately philosophy East and West Loughnane illuminates the

ambiguous chiasmatic and dynamic relationality between the body and the world providing concrete examples from art history East and West He not only skillfully explains Nishida's and Merleau-Ponty's ontological notions but also puts their philosophy to the test of art works proving that their thinking reveals an important truth of art Takeshi Kimoto Chukyo University Timing Grace Johan Cilliers, 2019-08-13 In this companion volume to *A Space for Grace* Johan Cilliers delves into some of the most profound theological underpinnings of preaching Drawing on his extraordinary depth and breadth of scholarship Cilliers examines the aesthetic qualitative and relational dimensions of sermonic time Faithful preaching he argues is an art of speaking the now of grace which is inextricably linked to past and future but is simultaneously a dynamic event filled with the revelatory presence of God Along with helpful reflections on pieces of visual art Cilliers provides numerous sample sermons as well as several detailed sermon analyses The End of the Timeless God R. T.

Mullins, 2016-01-07 The claim that God is timeless has been the majority view throughout church history However it is not obvious that divine timelessness is compatible with fundamental Christian doctrines such as creation and incarnation Theologians have long been aware of the conflict between divine timelessness and Christian doctrine and various solutions to these conflicts have been developed In contemporary thought it is widely agreed that new theories on the nature of time can further help solve these conflicts Do these solutions actually solve the conflict Can the Christian God be timeless The End of the Timeless God sets forth a thorough investigation into the Christian understanding of God and the God-world relationship It argues that the Christian God cannot be timeless *Thoughts* Ben Carnevale, 2024-10-31 Everyone knows how important positive thoughts are and the consequences of negative thoughts However we go beyond this understanding and explain my thoughts concept in the form of the very light micro thoughts to the heavier macro thoughts Included are topics of flowers plants animals physics astronomy and much more Focusing on these amazing topics will open doors to many positive thoughts Our lives are guided by our thoughts and our thoughts not only determine who we are but who we will become

Time in the Blues Julia Simon, 2017-08-18 Spontaneity immediacy and feeling characterize the blues as a genre Whether it's the movement of call and response the expressive bends and wails of voice and instruments or the synergistic relationship between audience and performers the blues embody a kind of living in the moment aesthetic At the same time the blues genre has always responded in a unique way to its historical moment its formal characteristics figures and devices constantly emerging from and speaking to the social relations emanating from Jim Crow segregation sharecropping racist violence and migration *Time in the Blues* presents an interdisciplinary analysis of the specific forms of temporality produced by and reflected in the blues Examining time as it is represented enacted and experienced through the blues interdisciplinary scholar Julia Simon addresses how the material conditions in the early twentieth century shaped a musical genre The technical aspects of the blues ostinato patterns cyclical changes improvisation call and response emerge from and speak to the Jim Crow era's economic social and political relations Through this temporal analysis Simon addresses how the moment

to moment aspect of time in blues performance relates to the genre's location within historical time with careful examinations of the historical performance and reception of blues music from the 1920s to the present day Simon examines the structuring of time and analyzes temporality to open the broader questions of desire agency self definition faith and forms of resistance as they are articulated in this music Ultimately Time in the Blues argues for the relevance significance and importance of time in the blues for shared values of community and a vision of social justice

Man-Time-World Mogens True Wegener, 2023-01-31 The present book is a collection of papers from my life as a philosopher Besides philosophy it also covers the topics of logics physics cosmology and theology In all these fields it has been my aim to propose new ideas as a solution to old problems The collection contains papers on issues from the entire European history of ideas treating philosophical themes of Plato Augustine Anselm Dante Cusanus Leibniz Kant Hegel Kierkegaard and Borges together with the logical ideas of Peirce and Prior the physical ideas of Einstein and Milne and the crazy hypotheses marring modern cosmology In order to clear the way for new ideas I have had to chastise cherished positions especially that of the current physical establishment which promotes Einsteinian relativity as if his theories were the final scientific answer to all questions concerning the universe Einstein was a great scientist no doubt but today he is exalted as the prophet of our time whose words are swallowed as the highest wisdom by lay people Further the cosmology founded upon his relativity theories are feigned to buttress the stance of the new atheism It is unbearable that our scientific societies and magazines do not accept ideas which question the currently established scientific paradigm This is dogmatism at its worst

God, Time, and Eternity W.L. Craig, 2001-09-30 In this highly original and ground breaking work the author brings together discussions in the philosophy of time and space philosophy of language phenomenology philosophy of science

Special and General Relativity classical cosmology quantum mechanics and so forth with the concerns of philosophy of religion and theology in order to craft a philosophically informed and scientifically tenable doctrine of divine eternity and God's relationship to time

Stanley Cavell and Philosophy as Translation Paul Standish, Naoko Saito, 2017-02-28 Translation exposes aspects of language that can easily be ignored renewing the sense of the proximity and inseparability of language and thought The ancient quarrel between philosophy and literature was an early expression of a self understanding of philosophy that has in some quarters at least survived the centuries This book explores the idea of translation as a philosophical theme and as an important feature of philosophy and practical life especially in relation to the work of Stanley Cavell The essays in this volume explore philosophical questions about translation especially in the light of the work of Stanley Cavell They take the questions raised by translation to be of key importance not only for philosophical thinking but for our lives as a whole Thoreau's enigmatic remark The truth is translated reveals that apparently technical matters of translation extend through human lives to remarkable effect conditioning the ways in which the world comes to light The experience of the translator exemplifies the challenge of judgement where governing rules and principles are incommensurable and it shows something of the ways in which words come to us opening new possibilities of thought This book puts Cavell's rich exploration of these matters into conversation with traditions of pragmatism and European thought Translation then far from a merely technical matter is at work in human being and it is the means of humanisation The book brings together philosophers and translators with common interests in Cavell and in the questions of language at the heart of his work

Living With the Mind of Christ Stefan Gillow Reynolds, 2020-04-28 Through the teachings of Jesus and Christian mystics such as St Augustine and Meister Eckhart Stefan Gillow Reynolds demonstrates that the practice of mindfulness leading to silent meditation recommended by many therapists is not a modern fad but has always had a place within contemplative Christianity

Movement, Time, Technology, and Art Christina Chau, 2017-06-12 This book explores the ways in which artists use technology to create different perceptions of time in art in order to reflect on contemporary relationships to technology. By considering the links between technology, movement, and contemporary art, the book explores the changing relationship between temporality in art, art history, media art, theory, modernity, contemporary art, and digital art. This book challenges the dominant view that kinetic art is an antiquated artistic experiment and considers the changing perception of kinetic art by focusing on exhibitions and institutions that have recently challenged the notion of kinetic art as a marginalised and forgotten artistic experiment with mechanical media. This is achieved by deconstructing Frank Popper's argument that kinetic art is a precursor to subsequent explorations in the intersections between art, science, and technology. Rather than pandering to the prevailing art historical assumption that kinetic sculpture is merely a precursor to art in a digital culture, the book proposes that perhaps kineticism succeeded too well where movement has become a ubiquitous element of the aesthetic of contemporary art. If, as Boris Groys has recently suggested, installation has become the dominant mode of art in the contemporary age, then movement in real time with the viewer is used to aestheticise and explore the facets of our peculiar time.

Metaphoricity and the Politics of Mobility, 2016-08-01 This collection of essays investigates the convergence between the postmodern politics of mobility and a politics of metaphor, a politics in other words in the context of which the production and displacement of meaning's constitute the major stakes. Ranging from discussions of re-territorialization, multiculturalism, diasporas, and transnational politics and ethics to September 11th, the Pentagon's New Map, American legislation on Chinese immigration, Gianni Amelio's film *L'America*, Keith Piper's online installations, and Doris Salcedo's *Atrabiliarios*, the collection aims to follow three different theoretical trajectories. First, it seeks to rethink our concepts of mobility in order to open them up to the complexity that structures the thoughts and practices of a global order. Second, it critically examines the privileged position of concepts and metaphors of mobility within postmodern theory. In juxtaposing conflictual theoretical formulations, the book sets out to present the competing responses that fuel academic debates around this issue. Finally, it evaluates the influence of our increasingly mobile conceptual frameworks and everyday experience on the redefinition of politics that is currently under way, especially in the context of Post-Marxist theory. Its hope is to contribute to the production of alternative political positions and practices that will address the conflicting desires for attachment and movement marking postmodernity.

A History of Indian Philosophy, Volume I Surendranath Dasgupta, 2020-09-28 The old civilisation of India was a concrete unity of many-sided developments in art, architecture, literature, religion, morals, and science so far as it was understood in those days. But the most important achievement of Indian thought was philosophy. It was regarded as the goal of all the highest practical and theoretical activities, and it indicated the point of unity amidst all the apparent diversities which the complex growth of culture over a vast area inhabited by different peoples produced. It is not in

the history of foreign invasions in the rise of independent kingdoms at different times in the empires of this or that great monarch that the unity of India is to be sought It is essentially one of spiritual aspirations and obedience to the law of the spirit which were regarded as superior to everything else and it has outlived all the political changes through which India passed The Greeks the Huns the Scythians the Pathans and the Moguls who occupied the land and controlled the political machinery never ruled the minds of the people for these political events were like hurricanes or the changes of season mere phenomena of a natural or physical order which never affected the spiritual integrity of Hindu culture If after a passivity of some centuries India is again going to become creative it is mainly on account of this fundamental unity of her progress and civilisation and not for anything that she may borrow from other countries It is therefore indispensably necessary for all those who wish to appreciate the significance and potentialities of Indian culture that they should properly understand the history of Indian philosophical thought which is the nucleus round which all that is best and highest in India has grown Much harm has already been done by the circulation of opinions that the culture and philosophy of India was dreamy and abstract It is therefore very necessary that Indians as well as other peoples should become more and more acquainted with the true characteristics of the past history of Indian thought and form a correct estimate of its special features

Chaucer, Gower, and the Vernacular Rising Lynn Arner, 2013-04-11 Chaucer Gower and the Vernacular Rising examines the transmission of Greco Roman and European literature into English during the late fourteenth and early fifteenth centuries while literacy was burgeoning among men and women from the nonruling classes This dissemination offered a radically democratizing potential for accessing interpreting and deploying learned texts Focusing primarily on an overlooked sector of Chaucer's and Gower's early readership namely the upper strata of nonruling urban classes Lynn Arner argues that Chaucer's and Gower's writings engaged in elaborate processes of constructing cultural expertise These writings helped define gradations of cultural authority determining who could contribute to the production of legitimate knowledge and granting certain socioeconomic groups political leverage in the wake of the English Rising of 1381 Chaucer Gower and the Vernacular Rising simultaneously examines Chaucer's and Gower's negotiations often articulated at the site of gender over poetics and over the roles that vernacular poetry should play in the late medieval English social formation This study investigates how Chaucer's and Gower's texts positioned poetry to become a powerful participant in processes of social control
