C.S. Lewis and a Problem of Evil. Jerry Root, 2010-08-27. C. S. Lewis was concerned about an aspect of the problem of evil he called subjectivism: the tendency of one's perspective to move towards self-referentialism and utilitarianism. In *C. S. Lewis and a Problem of Evil*, Jerry Root provides a holistic reading of Lewis by walking the reader through all of Lewis's published work as he argues Lewis's case against subjectivism. Furthermore, the book reveals that Lewis consistently employed fiction to make his case, as virtually all of his villains are portrayed as subjectivists. Lewis's warnings are prophetic: this book is not merely an exposition of Lewis; it is also a timely investigation into the problem of evil.

Rereading Women. Sandra M. Gilbert, 2011-04-25. A collection of essays that reexamine literature through a feminist gaze from one of our most versatile and gifted writers, Joyce Carol Oates. We think back through our mothers; if we are women, we wrote Virginia Woolf. In this groundbreaking series of essays, Sandra M. Gilbert explores how our literary mothers have influenced us in our writing and in life. She considers the effects of these literary mothers by examining her own history and the work of such luminaries as Charlotte Brontë, Emily Dickinson, and Sylvia Plath. In the course of the book, she charts her own development as a feminist, demonstrates ways of understanding the dynamics of gender and genre, and traces the redefinitions of maternity reflected in texts by authors such as Elizabeth Barrett Browning and George Eliot. Throughout, Gilbert asks major questions about feminism in the twentieth century: Why and how did its ideas become so necessary to women in the sixties and seventies? What have those feminist concepts come to mean in the new century? And, above all, how have our intellectual mothers shaped our thoughts today?

Peopling the World. Charlotte Sussman, 2020-04-24. A compelling study of views about population and demographic mobility in the British long eighteenth century. In John Milton's *Paradise Lost* of 1667, Adam and Eve are promised they will produce a race to fill the world, a thought that consoles them even after the trauma of the fall. By 1798, the idea that the world would one day be entirely filled by people had become, in Thomas Malthus's hands, a nightmarish vision. In *Peopling the World*, Charlotte Sussman asks how and why this shift took place. How did Britain's understanding of the value of reproduction, the vacancy of the planet, and the necessity of moving people around to fill its empty spaces change? Sussman addresses these questions through readings of texts by Malthus, Milton, Swift, Defoe, Goldsmith, Sir Walter Scott, Mary Shelley, and others, and by placing these authors in the context of debates about scientific innovation, emigration, cultural memory, and colonial settlement. Sussman argues that a shift in thinking about population and mobility occurred in the third quarter of the eighteenth century. Before that point, both political and literary texts were preoccupied with useless populations that could be made useful by being dispersed over Britain's domestic and colonial territories. After 1760, a concern with the depopulation caused by emigration began to take

hold She explains this change in terms of the interrelated developments of a labor theory of value a new idea of national identity after the collapse of Britain s American empire and a move from thinking of reproduction as a national resource to thinking of it as an individual choice She places Malthus at the end of this history because he so decisively moved thinking about population away from a worldview in which there was always more space to be filled and toward the temporal inevitability of the whole world filling up with people
