

Moment Of Self Portraiture In German Renaissance Art

Joseph Leo Koerner

Moment Of Self Portraiture In German Renaissance Art:

The Moment of Self-Portraiture in German Renaissance Art Joseph Leo Koerner, 1993 So foundational is this invention to modern aesthetics Koerner argues that interpreting it takes us to the limits of traditional art historical method Self portraiture becomes legible less through a history leading up to it or through a sum of contexts that occasion it than through its historical sight line to the present After a thorough examination of Durer's startlingly new self portraits the author turns to the work of Baldung Durer's most gifted pupil and demonstrates how the apprentice willfully disfigured Durer s vision Baldung replaced the master's self portraits with some of the most obscene and bizarre pictures in the history of art In images of nude witches animated cadavers and copulating horses Baldung portrays the debased self of the viewer as the true subject of art The Moment of Self Portraiture thus unfolds as passages from teacher to student artist to viewer reception all within a culture that at once deified and abhorred originality The Moment of Self-Portraiture in German Renaissance Art Joseph Leo Koerner, 1993-04-01 The Moment of Self-portraiture in German Renaissance Art Joseph Leo The Body of the Artisan Pamela H. Smith, 2004-06-25 Since the time of Aristotle the making of knowledge Koerner, 1993 and the making of objects have generally been considered separate enterprises Yet during the late sixteenth and early seventeenth centuries the two became linked through a new philosophy known as science In The Body of the Artisan Pamela H Smith demonstrates how much early modern science owed to an unlikely source artists and artisans From goldsmiths to locksmiths and from carpenters to painters artists and artisans were much sought after by the new scientists for their intimate hands on knowledge of natural materials and the ability to manipulate them Drawing on a fascinating array of new evidence from northern Europe including artisans objects and their writings Smith shows how artisans saw all knowledge as rooted in matter and nature With nearly two hundred images The Body of the Artisan provides astonishingly vivid examples of this Renaissance synergy among art craft and science and recovers a forgotten episode of the Scientific Revolution an episode that forever altered the way we see the natural world Self-portraiture and the Crisis of Interpretation in German Renaissance Art Joseph Leo Koerner, 1988 The Self-Portrait: A Cultural History James Hall, 2016-02-16 Hall provides a lively cultural interpretation of the genre from the Middle Ages to today Rather than provide a series of greatest hits he is more concerned with the reasons why artists create self portraits. The Weekly Standard The self portrait may be the visual genre most identified with our confessional era but modern artists are far from the first to have explored its power and potential In this broad cultural survey of the genre art historian and critic James Hall brilliantly maps the history of self portraiture from the earliest myths of Narcissus and the Christian tradition of bearing witness to the prolific self image making of today s contemporary artists Hall s intelligent and vivid account shows how artists depictions of themselves have been part of a continuing tradition that reaches back centuries Along the way he reveals the importance of the medieval mirror craze the explosion of the genre during the Renaissance the confessional self portraits of Titian and Michelangelo the

biographical role of serial self portraits by artists such as Courbet and van Gogh themes of sex and genius in works by Munch Bonnard and Modersohn Becker and the latest developments of the genre in the era of globalization Comprehensive and beautifully illustrated the book features the work of a wide range of artists including Alberti Caravaggio D rer Emin Gauguin Giotto Goya Kahlo Koons Magritte Mantegna Picasso Raphael Rembrandt and Warhol **Renaissance Self-portraiture** Joanna Woods-Marsden, 1998-01-01 An exploration of the genesis and early development of the genre of self portraiture in Italy in the 15th and 16th centuries The author examines a series of self portraits in Renaissance Italy arguing that they represented the aspirations of their creators to change their social standing **James Hall on the Self-Portrait (Pocket** Perspectives) James Hall, 2024-05-28 Excerpts from art critic historian lecturer and broadcaster James Hall s lively and comprehensive cultural history of self portraiture focusing on artists including D rer Gentileschi Van Gogh and Kahlo Art critic historian lecturer and broadcaster James Hall delves into the allure of self portraiture in an engaging and accessible short history of the subject revealing how it became the defining visual genre of our confessional age Across six chapters Hall maps the genre from its medieval origins to its present day manifestations Along the way he investigates the importance of biography for serial self portraitists such as van Gogh themes of sex and genius in works by Munch and Modersohn Becker and the effect of globalization on the art of self representation From the exuberantly caricatural to the stoic and heroic Hall covers a full range of portraits and looks deeply into the worlds and mindsets of the artists who created them **Thoughts** Brian Cummings, 2013-08-22 Mortal Thoughts is a study of the question of human identity in the early modern period It examines literature alongside emerging forms of life writing and life drawing and self portraits and considers portrayals of mortality and the moment of death The Transformation of Vernacular Expression in Early Modern Arts, 2011-10-14 In response to the dominance of Latin as the language of intellectual debate in early modern Europe regional centers started to develop a new emphasis on vernacular languages and forms of cultural expression This book shows that the local acts as a mark of distinction in the early modern cultural context Interdisciplinary in scope essays examine vernacular strands in the visual arts architecture and literature from the fourteenth to seventeenth centuries Contributions focus on change rather than consistencies by highlighting the transformative force of the vernacular over time and over different regions as well as the way the concept of the vernacular itself shifts depending on the historical context Contributors include James J Bloom Jessica E Buskirk C Jean Campbell Lex Hermans Sun Jing Trudy Ko David A Levine Eelco Nagelsmit Alexandra Onuf Bart Ramakers and Jamie L Smith The Origins of Protestant Aesthetics in Early Modern *Europe* William A. Dyrness, 2019-05-23 The aesthetics of everyday life as reflected in art museums and galleries throughout the western world is the result of a profound shift in aesthetic perception that occurred during the Renaissance and Reformation In this book William A Dyrness examines intellectual developments in late Medieval Europe which turned attention away from a narrow range liturgical art and practices and towards a celebration of God's presence in creation and

in history Though threatened by the human tendency to self assertion he shows how a new focus on God's creative and recreative action in the world gave time and history a new seriousness and engendered a broad spectrum of aesthetic potential Focusing in particular on the writings of Luther and Calvin Dyrness demonstrates how the reformers conceptual and theological frameworks pertaining to the role of the arts influenced the rise of realistic theater lyric poetry landscape **Edvard Munch Between the Clock and the Bed** painting and architecture in the sixteenth and seventeenth centuries Gary Garrels, Jon-Ove Steihaug, Sheena Wagstaff, Karl Ove Knausgaard, Patricia G. Berman, Allison Morehead, Richard Shiff, Mille Stein, 2017-06-24 In Self Portrait Between the Clock and the Bed the elderly Edvard Munch stands like a sentinel in his bedroom studio surrounded by the works that constitute his artistic legacy A powerful meditation on art mortality and the ravages of time this haunting painting conjures up the Norwegian master's entire career It also calls into question certain long held myths surrounding Munch that his work declined in quality after his nervous breakdown in 1908 9 that he was a commercially naive social outsider and that he had only a limited role in the development of European modernism p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana The present volume aims to rebut such misconceptions by freshly examining this enigmatic artist In the preface the renowned novelist Karl Ove Knausgaard considers Munch as a fellow creative artist and seeks to illuminate the source of his distinctive talent The four groundbreaking essays that follow present numerous surprising insights on matters ranging from Munch's radical approach to self portraiture to his role in promoting his own career They also reveal that Munch has been an abiding inspiration to fellow painters both during his lifetime and up to the present artists as varied as Jasper Johns Bridget Riley Asger Jorn and Georg Baselitz have acknowledged his influence More than sixty of Munch's paintings dating from the beginning of his career in the early 1880s to his death in 1944 are accompanied by a generous selection of comparative illustrations and a chronology of the artist s life The result is an intimate provocative study that casts new light on Munch's unique oeuvre an oeuvre that Knausgaard describes as having gone where only a painting can go to that which is beyond words but which is still part of our reality Face-to-Face in Shakespearean Drama James Smith Matthew James Smith, 2019-05-22 Explores the drama of proximity and co presence in Shakespeare s playsKey FeaturesBrings together the rare pairing of philosophical ethics and performance studies in Shakespeare s playsEngages with the thought of philosophers including Ludwig Wittgenstein Hannah Arendt Paul Ricoeur Stanley Cavell and Emmanuel LevinasThis book celebrates the theatrical excitement and philosophical meanings of human interaction in Shakespeare On stage and in life the face is always window and mirror representation and presence It examines the emotional and ethical surplus that appears between faces in the activity and performance of human encounter on stage By transitioning from face as noun to verb to face outface interface efface deface sur face chapters reveal how Shakespeare s plays discover conflict betrayal and deception as well as love trust and forgiveness between faces and the bodies that bear them *Placing Prints: New Developments in the Study of Print, 1400–1800 Bryony*

Bartlett-Rawlings, Naomi Lebens, 2025-01-15 This volume presents a broad spectrum of essays exemplifying current advances in print scholarship It aims to focus attention on the medium of print While the essays reflect the varied production and role of print central themes explored here include the making of prints and their perceived place within a printmaker's practice or the circulation reception and use of prints in the hands of diverse publishers and audiences The volume highlights the importance of the print medium as an art historical topic The Reformation of the Image Joseph Leo Koerner, 2004-02-27 In The Reformation of the Image Joseph Leo Koerner examines the images used in Protestant church services during the Women Artists in Expressionism Shulamith Behr, 2022-11-15 A beautifully period of their definition by Martin Luther illustrated examination of the women artists whose inspired search for artistic integrity and equality influenced Expressionist avant garde culture Women Artists in Expressionism explores how women negotiated the competitive world of modern art during the late Wilhelmine and early Weimar periods in Germany Their stories challenge predominantly male oriented narratives of Expressionism and shed light on the divergent artistic responses of women to the dramatic events of the early twentieth century Shulamith Behr shows how the posthumous critical reception of Paula Modersohn Becker cast her as a prime agent of the feminization of the movement and how K the Kollwitz used printmaking as a vehicle for technical innovation and sociopolitical commentary She looks at the dynamic relationship between Marianne Werefkin and Gabriele M nter whose different paths in life led them to the Blaue Reiter a group of Expressionist artists that included Wassily Kandinsky and Paul Klee Behr examines Nell Walden's role as an influential art dealer collector and artist who promoted women Expressionists during the First World War and discusses how Dutch artist Jacoba van Heemskerck's spiritual abstraction earned her the status of an honorary German Expressionist She demonstrates how figures such as Rosa Schapire and Johanna Ey contributed to the development of the movement as spectators critics and collectors of male avant gardism Richly illustrated Women Artists in Expressionism is a women centered history that reveals the importance of emancipative ideals to the shaping of modernity and the avant garde Portraits and Persons Cynthia Freeland, 2010-06-17 A boundary breaking book mobilizing art for philosophical purposes with exciting and enlightening results Ivan Gaskell Harvard University Writing Art History Margaret Iversen, Stephen Melville, 2010-12 Since art history is having a major identity crisis as it struggles to adapt to contemporary global and mass media culture this book intervenes in the struggle by laying bare the troublesome assumptions and presumptions at the field's foundations in a series of essays The Shock of Medievalism Kathleen Biddick, 1998 An attempt to disrupt critique and question the practices and assumptions of medieval studies in light of recent theoretical debates in postmodern gueer feminist and post colonial theory *ReVisioning* James Romaine, Linda Stratford, 2014-05-20 ReVisioning Critical Methods of Seeing Christianity in the History of Art examines the application of art historical methods to the history of Christianity and art As methods of art history have become more interdisciplinary there has been a notable emergence of discussions of religion in art history as well as related fields such as

visual culture and theology This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects themes and contexts in art ReVisioning contains original work from a range of scholars each of whom has addressed the question in regard to a well known work of art or body of work How have particular methods of art history been applied and with what effect The study moves from the third century to the present providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art
