

A person in a long, flowing dress stands on a wooden dock, silhouetted against a bright sunset. The sun is low on the horizon, creating a strong lens flare and casting a warm, golden glow over the scene. The person's arms are raised, and they appear to be looking towards the sky. In the background, a calm body of water reflects the sunset, with rolling hills visible on the far shore. Tall reeds or grasses are in the foreground, partially obscuring the dock.

Supreme Court in recent decades Judicial decisions assessing the constitutional rights of students in the nation's public schools have consistently generated bitter controversy From racial segregation to unauthorized immigration from antiwar protests to compulsory flag salutes from economic inequality to teacher led prayer these are but a few of the cultural anxieties dividing American society that the Supreme Court has addressed in elementary and secondary schools The Schoolhouse Gate gives a fresh lucid and provocative account of the historic legal battles waged over education and illuminates contemporary disputes that continue to fracture the nation Justin Driver maintains that since the 1970s the Supreme Court has regularly abdicated its responsibility for protecting students constitutional rights and risked transforming public schools into Constitution free zones Students deriving lessons about citizenship from the Court's decisions in recent decades would conclude that the following actions taken by educators pass constitutional muster inflicting severe corporal punishment on students without any procedural protections searching students and their possessions without probable cause in bids to uncover violations of school rules random drug testing of students who are not suspected of wrongdoing and suppressing student speech for the view point it espouses Taking their cue from such decisions lower courts have upheld a wide array of dubious school actions including degrading strip searches repressive dress codes draconian zero tolerance disciplinary policies and severe restrictions on off campus speech Driver surveys this legal landscape with eloquence highlights the gripping personal narratives behind landmark clashes and warns that the repeated failure to honor students rights threatens our basic constitutional order This magisterial book will make it impossible to view American schools or America itself in the same way again

Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics women's bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential While the significance of motherhood varies across cultures it is as this book argues connected not just to gender and sexuality but also to religion and nationality Reproduction is central to the

flourishing of any nation or culture and therefore motherhood is a major signifier of women's relationship to the state. This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation. States also legislate reproductive technologies adoption and government support for parenting. By considering representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood. Motherhood matters in global politics. Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars, policymakers and practitioners. Featuring innovative and diverse chapters on the politics of motherhood as an institution this collection shows that maternity is troubled, complicated and heterogeneous in global politics. Thus performances and practices of motherhood warrant closer and more sustained scrutiny. This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory, literary critique and post colonial studies. The chapters in this book consider the meaning of motherhood particularly during times of war versus peace, the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers. Ultimately this book demonstrates the complex interconnections between the individual, the state and the global through the lens of maternity.

The Mahfouz Dialogs Jamāl Ghīṭānī, 2007. *The Mahfouz Dialogs* records the memories, views and jokes of Naguib Mahfouz on subjects ranging from politics to the relationship between his novels and his life as delivered to intimate friends at a series of informal meetings stretching out over almost half a century. Mahfouz was a pivotal figure not only in world literature through being awarded the Nobel prize for literature in 1988, he became the first writer in Arabic to win a mass audience but also in his own society where he vastly enhanced the image of the writer in the eyes of the public and encapsulated as the victim of a savage attack on his life by an Islamist in 1994, the struggle between pluralism, tolerance and secularism on the one hand and extremist Islam. Moderated by Gamal al Ghitani, a writer of a younger generation who shared a common background with Mahfouz, al Ghitani also grew up in medieval Cairo and felt a vast personal empathy for the writer despite their sometimes different views. These exchanges throw new light on Mahfouz's life, the creation of his novels and literary Egypt in the second half of the twentieth century.
