Moments to Hold Close Burford, 2023-03 **Moments to Hold Close** Mouzon Biggs, Jr., 1983 *Deathworlds to Lifeworlds* Valerie Malhotra Bentz, James Marlatt, 2021-08-02

Deathworlds are places on planet earth that can no longer sustain life. These are increasing rapidly. We experience remnants of Deathworlds within our Lifeworlds for example traumatic echoes of war, genocide, oppression. Many practices and policies directly or indirectly are Deathworld Making. They undermine Lifeworlds contributing to community decline, illnesses, climate change, and species extinction. This book highlights the ways in which writing about and sharing meaningful experiences may lead to social and environmental justice practices decreasing Deathworld Making. Phenomenology is a method which reveals the connection between personal suffering and the suffering of the planet earth and all its creatures. Sharing can lead to collaborative relationships among strangers for social and environmental justice across barriers of culture, politics, and language. Deathworlds into Lifeworlds wakes people up to how current economic and social forces are destroying life and communities on our planet as I have mapped in my work. The chapters by scholars around the world in this powerful book testify to the pervasive consequences of the proliferation of Deathworld making and ways that collaboration across cultures can help move us forward. Saskia Sassen is the Robert S Lynd Professor of Sociology at Columbia University and a Member of its Committee on Global Thought. Recognizing the inseparability of experience, consciousness, environment, and problematics in rebalancing life systems, this book offers solutions from around the world. Four Arrows aka Don Trent Jacobs, author of *Sitting Bull's Words for A World in Crises* et al. This unique book brings together 78 participants from 11 countries to reveal the ways in which phenomenology, the study of consciousness and phenomena, can lead to profound personal and social transformation. Such transformation is especially powerful when Deathworlds, physical or cultural places that no longer sustain life, are transformed into lifeworlds through collaborative sharing, even when or perhaps especially when the sharing is among strangers across different cultures. The contributors share a truly wide range of human experiences from the death of a child to ecological destruction, in offering ways to affirm life in the face of what may seem to be hopeless death, affirming challenges. Richard P Appelbaum, Ph D, is Distinguished Research Professor Emeritus and former MacArthur Foundation Chair in Global and International Studies and Sociology at the University of California Santa Barbara. He is also a founding Professor at Fielding Graduate University where he heads the doctoral concentration in Sustainability Leadership. *Deathworlds* is a love letter for the planet, our home. By documenting places that no longer sustain life, the authors collectively pull back the curtain on these places, rendering them meaningful by connecting what ails us with what ails the world. Katrina S Rogers, Ph D, conservation activist and author. *Deathworlds to Lifeworlds* represents collaboration among Fielding Graduate University, the University of Od Poland, and the University of the Virgin Islands. Students and faculty from these universities participated in seminars on transformative phenomenology and developed rich phenomenologically based narratives of their experiences or others. These
