Moments Of Revolution Eastern Europe

Gwyn Prins

Moments Of Revolution Eastern Europe:

Moments of Revolution, Eastern Europe David C. Turnley, 1990 Shows and describes the events leading to the emergence of democracy in Eastern Europe and depicts what the changes have meant to everyday citizens Europe, Eastern, 1995 **The 1989 Revolutions in Central and Eastern Europe** Kevin McDermott, Matthew Stibbe, 2015-11-01 This important book reassesses a defining historical political and ideological moment in contemporary history the 1989 revolutions in central and eastern Europe Adopting a multi disciplinary approach the authors reconsider such crucial themes as the broader historical significance of the 1989 events the complex interaction between external and internal factors in the origins and outcomes of the revolutions the impact of the Gorbachev phenomenon the West and the end of the Cold War the political and socio economic determinants of the revolutionary processes in Poland Hungary the German Democratic Republic Czechoslovakia Romania and Bulgaria and the competing academic cultural and ideological perceptions of the year 1989 as communism gave way to post communist pluralism in the 1990s and beyond Concluding that the contentious term revolution is indeed apt for the momentous developments in eastern Europe in 1989 this book will be essential reading for undergraduates postgraduates and specialists alike *Moments of Decision* Stephen Eric Bronner, 2014-07-31 In this updated and expanded second edition the radical classic Moments of Decision has been updated in the 20 years since it was first published Reexamining observations made in the immediate rubble left after the fall of communism Bronner blends political meditation philosophical critique and history lesson to illuminate the crises of radicalism that have defined the 20th and 21st century socio political landscape It is a critical part of the conversation surrounding socialist historiography and the development of the West as we now conceive of it With clear accessible prose Bronner's classic text is revived and revised in this volume ideal for students scholars and any interested in political history theory and international relations

Envisioning Eastern Europe Michael D. Kennedy, 1994 Explorations of cultural change in the former Soviet bloc

Reflections on 1989 in Eastern Europe Terry Cox, 2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of *Europe Asia Studies* Revolution and Political Violence in Central Europe Eliza Ablovatski, 2021-07 Examines how narratives of the 1919 Central European revolutions promoted a violent counterrevolutionary culture in

interwar Germany and Hungary **The Reagan Moment** Jonathan R. Hunt, Simon Miles, 2021-12-15 In *The Reagan Moment* the ideas events strategies trends and movements that shaped the 1980s are revealed to have had lasting effects on international relations The United States went from a creditor to a debtor nation democracy crested in East Asia and returned to Latin America the People's Republic of China moved to privatize decentralize and open its economy Osama bin Laden founded Al Qaeda and relations between Washington and Moscow thawed en route to the Soviet Union's dissolution The Reagan Moment places US foreign relations into global context by examining the economic international and ideational relationships that bound Washington to the wider world Editors Jonathan R Hunt and Simon Miles bring together a cohort of scholars with fresh insights from untapped and declassified global sources to recast Reagan's pivotal years in power Contributors Seth Anziska James Cameron Elizabeth Charles Susan Colbourn Michael De Groot Stephanie Freeman Christopher Fuller Flavia Gasbarri Mathias Haeussler William Inboden Mark Atwood Lawrence Elisabeth Mariko Leake Melvyn P Leffler Evan D McCormick Jennifer Miller David Painter Robert Rakove William Michael Schmidli Sarah Snyder Lauren Frances Turek James Wilson *Matters of Revolution* Dominik Bartmanski, 2022-03-30 Symbols matter and especially those present in public spaces but how do they exert influence and maintain a hold over us Why do such materialities count even in the intensely digitalized culture This book considers the importance of urban symbols to political revolutions examining manifold reasons for which social movements necessitate the affirmation or destruction of various material icons and public monuments What explains variability of life cycles of certain classes of symbols Why do some of them seem more potent than others Why do people exhibit nostalgic attachments to some symbols of the controversial past and vehemently oppose others What nourishes and threatens the social life of icons Through comparative analyses of major iconic processes following the epochal revolution of 1989 in Berlin and Warsaw the book argues that revolutionary action needs objects and sites which concretize the transformative redrawing of the symbolic boundaries between the sacred and profane good and evil before and after and progressive and reactionary the symbolic shifts that every revolution implies in theory and formalizes in practice Public symbols ensconced within actual urban spaces provide indispensable visibility to human values and social changes As affective topographies that externalize collective feelings their very presence and durability is meaningful and so are the revolutionary rituals of preservation and destruction directed at those spaces Far from being mere gestures or token signifiers they have their own gravity with profound cultural ramifications This volume will appeal to sociologists anthropologists geographers and social theorists with interests in urban studies public heritage material culture political revolution and social movements **The Neoliberal Revolution in Eastern Europe** Paul Dragos Aligica?, Anthony John Evans, 2009-01-01 Very few studies have ventured to explore the shift in economic ideas that were such a critical factor in shaping and understanding the East European transition process Paul Dragos Aligica and Anthony J Evans have seized upon the potential that this crucial case has to illuminate the larger phenomenon of diffusion

and adoption of economic ideas Two different but related research agendas are developed the study of the spread of neoliberalism as seen from the perspective of Eastern European post communist evolutions and the study of Eastern European transition as seen from an ideas centered perspective Combining a distinctive synthesis of the existing data about the spread of neoliberal economic ideas in Central and Eastern Europe with an analysis of the processes at work the authors challenge a series of misunderstandings and myths about the spread of neoliberal economic ideas The disputed topics include the myth of an Eastern European rush to embrace the theories and ideas that may be considered the mark of market fundamentalism the notion that a harsh neoliberal dogmatism was somehow imposed on the region from outside the idea that the standardization and regimentation of economic thinking was a result of the spread of the Western way of doing economics and the belief that the Eastern Europeans passively embraced this uniformity and standardization due to pressure from the Westerners This unusual synthesis will appeal to scholars in economics political science communist post communist studies and new institutionalism as well as policymakers

The New Middle East Fawaz A. Gerges, 2014 The New Middle East critically examines the Arab popular uprisings of 2011 12

Transnational Moments of Change Gerd-Rainer Horn, Padraic Kenney, 2004 Offering a broad introduction to the methodology practice of transnational history this work focuses on three defining moments of 20th century European history when changes affected the whole of the continent

The Moment of Liberation in Western Europe Gerd-Rainer Horn, 2020-03-19 The Moment of Liberation in Western Europe 1943 1948 regards the final two years of World War II and the immediate post liberation period as a moment in twentieth century history when the shape and contours of postwar Western Europe appeared highly uncertain and various alternatives and conflicting visions were up for grabs After close to six years of total war Nazi terror and brutal occupation policies a growing number of Europeans were no longer content solely to fight for national liberation from fascist control Having staked their lives in military and civilian resistance to Nazism and Italian fascism across the continent surviving activists were aiming to ensure that such a political and social catastrophe would never befall Europe again In the closing moments of World War II hundreds of thousands of antifascist activists had begun to identify with the famous quote penned by the exiled German social theorists Max Horkheimer who had boldly proclaimed in early September 1939 Whoever is not prepared to talk about capitalism should also remain silent about fascism The economic and political elites in prewar societies were increasingly regarded as co responsible for war fascism and occupation policies from which many had benefited significantly and often enthusiastically There were extensive popular social movements at work in almost every single state which aimed to construct postwar societies in which grassroots democracy and the free association of rank and file activists would replace the profit principle and the top down Jacobin orientation by traditional elites This study for the first time reconstructs the parameters of this contest over the shape of postwar Western Europe from a consistently transnational perspective

Europe Jean Baptiste Duroselle, 2023-11-09 Whether as an epic battleground or a cradle of

civilizations Europe has left an enduring imprint on the history of the world for over two millennia From megalithic civilizations through ancient times the Renaissance the Industrial Revolution the rise of nationalism two world wars and the years that followed this book looks beyond a series of distinct national histories to offer the history of Europe as an often shared experience across one continent This book delves into events such as the fall of the Berlin Wall traces the continents evolution from the collapse of Communism through the Iraq War global financial crisis Brexit and Russia s invasion of Ukraine And then looking forward it explores what would be necessary for the continent to remain a global power player for years to come

Spring in Winter Gwyn Prins,1990 A compilation of scholarly studies addressing the nature and causes of the 1989 revolutions in Eastern European countries Including a preface by the Czechoslovakian president Vaclav Havel contributors include such well known figures as John Kenneth Galbraith

In Search of the Liberal Moment S. Sawyer,2016-04-08 This book explores a series of challenging new perspectives on the origins development and legacy of France s liberal moment during the second half of the twentieth century It surveys a significant shift in interest regarding socio political philosophy and culture with the 1970s emergence of a blossoming French curiosity about liberalism and liberal thought While liberalism had played an important role in French political debate prior to this period liberal voices were often disregarded It was not until this newfound fascination with liberalism by French intellectuals spanning from the second left to the new right that a French liberal revival truly occurred In Search of the Liberal Moment addresses this revival its resultant resuscitation of nineteenth century authors like Tocqueville and Constant its relationship with the contemporary rise of neoliberalism in Britain and the US and how its adherents used liberalism to rethink the past present and future of modern democracy

The French Revolution as a Moment of Respatialization Matthias Middell,Megan Maruschke,2019-09-23 The French Revolution has primarily been understood as a national event that also had a lasting impact in Europe and in the Atlantic world Recently historiography has increasingly emphasized how France s overseas colonies also influenced the contours of the French Revolution This volume examines the effects of both dimensions on the reorganization of spatial formats and spatial orders in France and in other societies It departs from the assumption that revolutions shatter not only the political and economic old regime order at home but in an increasingly interdependent world also result in processes of respatialization The French Revolution therefore is analysed as a key event in a global history that seeks to account for the shifting spatial organization of societies on a transregional scale

Spain and Portugal in the European Union Paul Christopher Manuel,Sebastian Royo,2004-06 Focusing upon the 15 years during which Spain and Portugal have been members of the European Union this collection of essays addresses issues related to the anniversary which took place in 2001

Theorizing Revolutions John Foran,2003-09-02 In Theorizing Revolutions some of the most exciting thinkers in the study of revolutions today look critically at the many theoretical frameworks through which revolutions can be understood and apply them to specific revolutionary cases The theoretical approaches considered in this

way include state centred perspectives structural theory world system analysis elite models demographic theories and feminism and the revolutions covered range in time from the French Revolution to Eastern Europe in 1989 and in place from Russia to Vietnam and Nicaragua *The Postcolonial Moment in South and Southeast Asia* Gyan Prakash, Nikhil Menon, Michael Laffan, 2018-02-22 By exploring themes of fragility mobility and turmoil anxieties and agency and pedagogy this book shows how colonialism shaped postcolonial projects in South and Southeast Asia including India Pakistan Burma and Indonesia Its chapters unearth the contingency and contention that accompanied the establishment of nation states and their claim to be decolonized heirs The book places key postcolonial moments a struggle for citizenship anxious constitution making mass education and land reform against the aftermath of the Second World War and within a global framework relating them to the global transformation in political geography from empire to nation The chapters analyse how futures and ideals envisioned by anticolonial activists were made reality whilst others were discarded Drawing on the expertise of eminent contributors *The Postcolonial Moment in South and Southeast Asia* represents the most ground breaking research on the region

Decoding **Moments Of Revolution Eastern Europe**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Moments Of Revolution Eastern Europe**," a mesmerizing literary creation penned by a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
