The Mommy Myth Susan Jeanne Douglas, Meredith W. Michaels, 2004 An analysis of the history of women in the United States in relation to motherhood

Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics women's bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential While the significance of motherhood varies across cultures it is as this book argues connected not just to gender and sexuality but also to religion and nationality Reproduction is central to the flourishing of any nation or culture and therefore motherhood is a major signifier of women's relationship to the state This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation States also legislate reproductive technologies adoption and government support for parenting By considering representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood Motherhood matters in global politics Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars policymakers and practitioners Featuring innovative and diverse chapters on the politics of motherhood as an institution this collection shows that maternity is troubled complicated and heterogeneous in global politics Thus performances and practices of motherhood warrant closer and more sustained scrutiny This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory literary critique and post colonial studies The chapters in this book consider the meaning of motherhood particularly during times of war versus peace the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers Ultimately this book demonstrates the complex interconnections between the individual the state and the global through the lens of maternity

Antiheroines of Contemporary Media Melanie Haas, N. A. Pierce, Gretchen Busl, 2020-12-02 This volume of essays provides a critical foray into the methods used to construct narratives which foreground antiheroines a trope which has become increasingly popular within literary media film and television Antiheroine characters engage constructions of motherhood womanhood femininity and selfhood as mediated by the structures that socially prescribe boundaries of gender sex and sexuality Within this collection scholars of literary cultural media and gender studies address the complications of representing agency autonomy and self determination within narrative texts complicated by age class race sexuality and a spectrum of privilege that reflects the complexities of scripting women on and off screen within and beyond the page This collection offers perspectives on the alternate narratives engendered through the motivations actions and agendas of the antiheroine while engaging with the discourses of how such narratives are employed both as potentially feminist interventions and critiques of access hierarchy and power

Conflicting ideas about and expectations of mothers are untangled in the context of the working world of radio, film, television, and creative media industries. The book teases out commonalities between experiences that are evident across a number of countries from Hollywood to Bollywood as well as examining the differences between class, religion, maternal status, and cultural frameworks that surround working mothers in various nation states. It also offers some possibilities for ways forward that can improve the lives of women workers who are also mothers. A timely and valuable contribution to international debates on equality, mothers and motherhood in audiovisual industries, this book will be of interest to scholars and students of media communication, cultural studies, and gender programmes engaged with work inequalities and motherhood studies, and activists, funders, policymakers, and practitioners.

Motherhood and Feminism Amber E Kinser, 2010-05-04. How does feminism relate to motherhood? How has it changed over time and what does the future of motherhood and feminism look like? These are just some of the questions Amber E Kinser PhD tackles in this latest addition to the Seal Studies Series. *Motherhood and Feminism* examines the role of feminism within motherhood, a topic that has garnered a lot of attention lately as society shifts to adapt to new definitions of these roles and offers insight into the core questions of motherhood: what it means to be a good mother, what role mothers play in the family and in society, and how motherhood has been redefined throughout time. Kinser also speculates on the future directions of feminism, focusing on the expansion of contemporary mother activism that has occurred in the last 15 years and emphasizing the need for that expansion to continue, and examines how the changing world of motherhood fits into feminist activism.

Wife, Inc. Suzanne Leonard, 2020-05-01. A fascinating look at the changing role of wives in modern America. After a half century of battling for gender equality, women have been freed from the necessity of securing a husband for economic stability, sexual fulfillment, or procreation. Marriage is a choice, and increasingly, women and men are opting out. Yet despite these changes, the cultural power of marriage has burgeoned. What was once an obligation has become an exclusive club into which heterosexual women with the right amount of self-discipline may win entry. The newly exalted professionalized wife is no longer reliant on her husband's status or money; instead, she can wield her own power provided she can successfully manage the business of being a wife. *Wife Inc.* tells a fiercely contemporary story revealing that today's wives do not labor in kitchens or even homes. Instead, the work of wifedom occurs in online dating sites, on reality television, in social media, and on the campaign trail. Dating, marital commitment, and married life have been reconfigured. No longer the stuff of marriage vows, these realms are now controlled by brand management and marketability. To prosper, women must appear confident, empowered, and sexually savvy. Guiding readers through the stages of the wife cycle, Suzanne Leonard
