Nixon Doctrine:

The Nixon Doctrine Melvin R. Laird, 1972 Large-scale Foreign Policy Change Earl C. Ravenal, 1989 The Doctrines of US Security Policy Heiko Meiertoöns, 2010-06-10 The practise of outlining principles for the conduct of US security policy in so called doctrines is a characteristic feature of US foreign policy From an international lawyer s point of view two aspects of these doctrines are of particular interest First to what degree are the criteria for the use of force as laid down in these doctrines consistent with the limitations for the use of force in international law Second which law creating effects do these doctrines have Furthermore the legal nature of these doctrines remains uncertain These matters are examined beginning with the Monroe Doctrine of 1823 and taking into account the Stimson Doctrine of 1932 the doctrines of the Cold War period and the Bush Doctrine of 2002 The Bush Doctrine in particular has generated controversies concerning its compatibility with Article 51 of the UN Charter due to its principle of preventive self defence *The Nixon Doctrine and Military Strategy* , 1971 The Grand Illusion: The Misinterpretation of the Nixon Doctrine Nathaniel Jung, 2019-09-15 The Grand Illusion The Misinterpretation of the Nixon Doctrine is a thesis describing the missed points within the philosophy of Richard Nixon and Henry Kissinger The author summarizes the foreign policy actions taken during the Nixon presidency as well as the philosophical reasoning behind the decisions Open Secret Virginia Brodine, Mark Selden, 1972 Presidential Doctrines Robert P. Watson, Charles Gleek, Michael Grillo, 2003 The first presidential doctrine was announced by President James Monroe on 2 December 1823 during his seventh annual message to Congress An international version of this phenomenon would be Winston Churchill s Iron Curtain speech Such was also the case when President George W Bush addressed the nation in the immediate aftermath of the 9 11 terrorist attacks This book examines American national security policies in the 20th century the century in which America rose to superpower or hyperpower status The same policies will probably determine how long she holds such a powerful position **The Nixon Doctrine** Marshall Green, 1971 **The National Security Doctrines of the American Presidency** Lamont C. Colucci, 2012-08-08 This two volume set provides a chronological view of the foreign policy national security doctrines of key American presidents from Washington to Obama framed by commentary on the historical context for each discussions of major themes and examinations of the lasting impact of these policies The National Security Doctrines of the American Presidency How They Shape our Present and Future provides a chronological examination of the foreign policy and national security doctrines of key American presidents from Washington to Obama covering everything from our missionary zeal and our pursuit of open navigation of the seas to our involvement in the ongoing political and military conflicts in the Middle East It addresses the multiple sources behind the doctrines real rhetorical and ideological Arranged chronologically each chapter offers commentary on the historical evolution of these doctrines identifies the major themes and highlights unique revelations Ideal for universities colleges libraries academics classroom teachers policy makers and the educated electorate this two volume set represents a compendium of

national security doctrines that explains how these first doctrines have constrained restrained and guided every American president regardless of party providing comprehensive information that cannot be found in any other single source Further the work presents the reader with examples and explanations of precisely how these doctrines from long ago as well as those from recent history directly affect our present and future *Nixon's Nuclear Specter* William Burr,Jeffrey P.

Kimball,2015-06-15 In their initial effort to end the Vietnam War Richard Nixon and Henry Kissinger attempted to lever concessions from Hanoi at the negotiating table with military force and coercive diplomacy They were not seeking military victory which they did not believe was feasible Instead they backed up their diplomacy toward North Vietnam and the Soviet Union with the Madman Theory of threatening excessive force which included the specter of nuclear force They began with verbal threats then bombed North Vietnamese and Viet Cong base areas in Cambodia signaling that there was more to come As the bombing expanded they launched a previously unknown mining ruse against Haiphong stepped up their warnings to Hanoi and Moscow and initiated planning for a massive shock and awe military operation referred to within the White House inner circle as DUCK HOOK Beyond the mining of North Vietnamese ports and selective bombing in and around Hanoi the initial DUCK HOOK concept included proposals for tactical nuclear strikes against logistics targets and U S and South Vietnamese ground incursions into the North In early October 1969 however Nixon aborted planning for the long contemplated operation He had been influenced by Hanoi s defiance in the face of his dire threats and concerned about U S public reaction antiwar protests and internal administration dissent In place of DUCK HOOK Nixon and Kissinger launched a secret global nuclear alert in hopes that it would lend credibility to their prior warnings and perhaps even persuade Moscow to put pressure on Hanoi It was to be a special reminder of how far President Nixon might go The risky gambit failed to move the Soviets but it marked a turning point in the administration s strategy for exiting Vietnam Nixon and Kissinger became increasingly resigned to a long route policy of providing Saigon with a decent chance of survival for a decent interval after a negotiated settlement and U S forces left Indochina Burr and Kimball draw upon extensive research in participant interviews and declassified documents to unravel this intricate story of the October 1969 nuclear alert They place it in the context of nuclear threat making and coercive diplomacy since 1945 the culture of the Bomb intra governmental dissent domestic political pressures the international nuclear taboo and Vietnamese and Soviet actions and policies It is a history that holds important lessons for the present and future about the risks and uncertainties of nuclear threat making *Foreign*
