Picturing Silence Language Emblem Counter Reformation Materiality:

Picturing Silence Karen Pinkus, 1996 Karen Pinkus examines the social context for such collections and provides a reading of key examples of the genre illuminating our understanding of gender relations economics homosociality the gaze homicide and blood guilt and the body within humanist ideology **The Unruly Tongue in Early Modern England** Nathalie Vienne-Guerrin, 2012-03 This volume excavates the biblical and classical sources behind three early modern treatises that denounce the numerous sins of the tongue that cause damage in the Elizabethan society *It's Silence, Soundly* John McGreal, 2016-04-21 It's Silence Soundly It's Nothing Seriously and It's Absence Presently continue The It Series published by Matador since The Book of It 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago In their aesthetic form the books are a decentred trilogy united together in a new concept of The Bibliograph All three present this new aesthetic object which transcends the narrow limits of the academic bibliography The alphabetical works also share a tripartite structure and identical length The Bibliograph itself is characterised by its strategic place within each book as a whole as well as by the complex variations in meaning of the dominant motifs nothingness absence and silence which recur throughout the alphabetical entries that constitute the elements of each text It's Nothing Seriously for example addresses the amusing paradox that so much continues to be written today about nothing The aleatory character of the entries in the texts encourage the modern reader to reflect on each theme and to read them in a new way The reader is invited as well to examine their various inter textual relations across given conventional boundaries in the arts and sciences at several levels of physical psychological social reproduction **Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives** Ilaria Rizzato, Valentina Cuccio, Aletta Gesina Dorst, 2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of

science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios **The Tremulous Private Body**

Francis Barker,1995 An ambitious study of literary aesthetic and philosophical authors on the modern subject versus the modern body **The Body and Physical Difference** David T. Mitchell, Sharon L. Snyder,1997 Groundbreaking

perspectives on disability in culture and the arts that shed light on notions of identity and social marginality Bodily Regimes Karen Pinkus,1995 *The Culture of the Body* Dalia Judovitz,2011-05-06 What is the body How was it culturally constructed conceived and cultivated before and after the advent of rationalism and modern science This interdisciplinary study elaborates a cultural genealogy of the body and its legacies to modernity by tracing its crucial redefinition from a live anatomical entity to disembodied mechanical and virtual analogs The study ranges from Baroque pre Cartesian interpretations of body and embodiment to the Cartesian elaboration of ontological difference and mind body dualism and it concludes with the parodic and violent aftermath of this legacy to the French Enlightenment It engages work by philosophical authors such as Montaigne Descartes and La Mettrie as well as literary works by d Urf Corneille and the Marquis de Sade The examination of sexuality and the emergence of sexual difference as a dominant mode of embodiment are central to the book s overall design The work is informed by philosophical accounts of the body Nietzsche Foucault Merleau Ponty by feminist theory Butler Irigaray Bordo as well as by literary and cultural historians Scarry Stewart Bynum etc and historians of science Canguilhem Pagel and Temkin among others It will appeal to scholars of literature philosophy French studies critical theory feminist theory cultural historians and historians of science and technology Dalia Judovitz is Professor of French Emory University She is also author of Unpacking Duchamp Art in Transit and Subjectivity and Representation in Decartes The Origins of Modernity Humanistica Lovaniensia Jozef Ijsewijn,1998-02-15 Volume 47

The Pedagogical Contract Yun Lee Too,2010-05-25 The Pedagogical Contract explores the relationship between teacher and student and argues for ways of reconceiving pedagogy It discloses this relationship as one that since antiquity has been regarded as a scene of give and take where the teacher exchanges knowledge for some sort of payment by the student and where pedagogy always runs the risk of becoming a broken contract The book seeks to liberate teaching and learning from this historical scene and the anxieties that it engenders arguing that there are alternative ways of conceiving the economy underlying pedagogical activities Reading ancient material together with contemporary representations of teaching and learning Yun Lee Too shows that apart from being conceived as a scene of self interest in which a professional teacher or sophist is the charlatan who cheats his pupil pedagogy might also purport to be a disinterested process of socialization or a scene in which lack and neediness are redeemed through the realization that they are required precisely to

stimulate the desire to learn The author also argues that pedagogy ideally ignores the imperative of the conventional marketplace for relevance utility and productivity inasmuch as teaching and learning most enrich a community when they disregard the immediate material concerns of the community The book will appeal to all those who understand scholarship as having an important social and or political role to play it will also be of interest to literary scholars literary and cultural theorists philosophers historians legal theorists feminists scholars of education sociologists and political theorists Yun Lee Too is Assistant Professor of Classics Columbia University She is the author of Rethinking Sexual Harassment The Rhetoric of Identity in Socrates Text Power Pedagogy and The Idea of Ancient Literary Criticism forthcoming and coeditor with Niall Livingstone of Pedagogy and Power Rhetorics of Classical Learning

The Montesi Scandal Karen Pinkus, 2003-05 Early on a windy morning in April 1953 the body of a young woman washed up on a beach outside of Rome Her name was Wilma Montesi and as the papers reported she had left her home in the city center a day earlier alone The police called her death an accidental drowning But the public was not convinced In the caf s around the Via Veneto people began to speak of the son of a powerful politician lavish parties movie stars orgies drugs How this news item of everyday life exploded into one of the greatest scandals of a modern democracy is the story Karen Pinkus tells in The Montesi Scandal Wilma s death brought to the surface every simmering element of Italian culture bitter aspiring actresses corrupt politicians nervous Jesuits in sunglasses jaded princes Italians of all types lined up to testify in court or to journalists of varying legitimacy about the death of the middle class carpenter s daughter in the process creating a media frenzy and the modern culture of celebrity Witnesses sold their stories to the tabloids only to retract them They posed for pictures pretending to shun the spotlight And they in turn became celebrities in their own right Pinkus takes us through the alleys and entryways of Rome in the 1950s linking Wilma s death to the beginnings of the dolce vita now synonymous with modern Roman life Pinkus follows the first paparazzi on their scooters as they shoot the protagonists and gives us an insider s view of the stories and trials that came to surround this lonely figure that washed up on the shores of Ostia Full of the magnificent paparazzi photos of the protagonists in the drama and film stills from the era s landmark movies The Montesi Scandal joins true crime with high culture in an original form one true to both the period and the cinematic conception of life it created More than a meditation of the intricate ties among movies paparazzo photography and Italian culture The Montesi Scandal narrates Wilma s story and its characters as the notes for an unrealized film but one that as the reader discovers seems impossible to produce

Leonardo's Fables Giuditta Cirnigliaro, 2022-12-28 *Leonardo's Fables* explores the compositional methods and sources of Leonardo's fables and their relationship to illustrations and scientific studies By concentrating on the chaotic character of Leonardo's textual and visual annotations the author gradually discloses the artist's creative thinking that uses the page as a space for experimentation Fables allow Leonardo to tie together his technical and artistic skills empirical observation and experience to reveal the interactive forces at the basis of physical phenomena and the tensions between painting and humanistic culture This study reevaluates Leonardo's fables as part of a literary aesthetic and scientific project aimed at the investigation of Nature

Shakespeare, Caravaggio, and the Indistinct Regard Rocco Coronato, 2017-10-31 This volume presents a contrastive study of the overlapping careers of Shakespeare and Caravaggio through the comparison of their strikingly similar conventional belief in symbol and the centrality of the subject only to gradually open it up in an exaltation of multiplicity and the indistinct regard Othello Utilizing a methodological premise on the notions of early modern indistinction and multiplicity Shakespeare Caravaggio and the Indistinct Regard analyses the survival of English art after iconoclasm and the circulation of Italian art and motifs methodologically reassessing the conventional comparison between painting and literature The book examines Caravaggio's and Shakespeare's works in the perspective of the gradual waning of symbolism the emergence of chiaroscuro and mirror imagery underneath their radically new concepts of representation and the triumph of multiplicity and indistinction Furthermore this work assesses the validity of the twin concepts of multiplicity and indistinction as an interpretive tool in a dialectical interplay with much recent work on indeterminacy in literary criticism and the sciences

Criticism, Crisis, and Contemporary Narrative Paul Crosthwaite, 2011-01-05 The etymological affinity between criticism and crisis has never been more resonant than it is today when social life is increasingly understood as defined by a succession of overlapping global crises financial and economic crises environmental crises geopolitical crises terrorist crises public health crises But what is the role of literary and cultural criticism in conceptualizing this atmosphere of perpetual crisis If as Paul de Man maintained criticism necessarily exists in a state of crisis in what ways is this condition intensified at a time when the social formations within which criticism operates and the cultural artefacts that it takes as its objects are themselves pervaded by actual and imagined states of emergency This book the first sustained response to these questions demonstrates the capacity of critical thought working in dialogue with key narrative texts to provide penetrating insights into a contemporary landscape of global manufactured risk Written by an international team of specialist scholars the essays in the collection draw on a wide variety of contemporary theoretical fictional and cinematic sources ranging from Giorgio Agamben Jacques Derrida and Fredric Jameson to Cormac McCarthy Ian McEwan and Lauren Beukes to Ghost and the James Bond and National Treasure series Appearing in the midst of a phase of extraordinary turbulence in the fabric of our interconnected and interdependent world the book makes a landmark intervention in debates concerning the cultural ramifications of globalization

The Spanish Baroque and Latin American Literary Modernity Crystal Anne Chemris, 2021 This book aims to develop a broader view of the trajectory of Hispanic modernity tracing a motif of recurring impasse first seen in peninsular Baroque texts and continuing into Latin American colonial and modern literature Inspired by Walter Benjamin's notion of constellation this book draws on theories of Latin American modernity to investigate the Spanish literary Baroque and its repetitions as a historical cultural predicament in Latin American colonial and modern texts Inca Garcilaso Borges Carpentier Rulfo Darío and a range of Latin American

Post Symbolist poets Agustini Pizarnik Sosa Lienlaf and Huinao are juxtaposed with the Lazarillo the Quijote Fuenteovejuna and Góngora's Soledades to produce original readings on topics of violence rape frustrated pilgrimage and the truncated ambitions of colonized peoples and confessional minorities In turn Benjamin is juxtaposed with Mallarmé to recast the aesthetic dynamics of modernity in political terms in order to understand the Baroque within a more broadly historicized concept of the avant garde Generous in scope this book addresses the community of Spanish and Latin American criticism as well as emerging and pressing theoretical concerns within the field of comparative literature

The Eye and the Beholder

Hannelore Hägele, 2014-06-02 In *The Eye and the Beholder* the author singles out a topic already touched upon in her previous book *Colour in Sculpture* By raising the question of how significant the colouring of the eye is to figurative representations of the late medieval and early modern period Hannelore Hägele examines the different solutions open to the sculptor which vary depending on historical and cultural parameters The created eye must suit purpose and style She discusses a number of unusual aspects of this sculpted eyes in antiquity the art and craft of polychromy partial polychromy emotions and expressions the gaze and the glance from the sculpted eye to colour and the glass eye and what the eye cannot see Dr Hägele asks whether advances in optics and other sciences or theological concepts such as the eye of God and the inner eye determined the way in which eyes were perceived and represented It is the beholder whether as maker or viewer who engages with and judges the worth of any creative effort and what it contributes to an understanding of the seen and the unseen The illustrations and the many coloured plates accompanying the text offer an overview of the subject
