that resolving the situation can be brought about through a peace strategy rather than a war strategy Through an analysis of the conflicts in Northern Ireland Sri Lanka and Palestine the author draws parallels between the India Pakistan conflict He also presents reasons why a durable peace based on the Line of Control becoming the settled border and the two parts of Jammu and Kashmir being given parallel and substantial autonomy can be achieved in today s conditions The book concludes that peace between India and Pakistan is possible based on political realism and that strategic solutions that safeguard the interests of both countries are available *Redefining security in the Middle East* Tami Jacoby, Brent Sasley, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license For over five decades the Cold War security agenda was distinguished by the principal strategic balance that of a structure of bipolarity between the United States US and the Soviet Union USSR This book seeks to draw from current developments in critical security studies in order to establish a new framework of inquiry for security in the Middle East It addresses the need to redefine security in the Middle East The focus is squarely on the Arab Israeli context in general and the Palestinian Israeli context in particular The character of Arab Israeli relations are measured by the Israeli foreign policy debate from the 1950s to the 1990s A dialogue between Islam and Islamism as a means to broaden the terrain on which conflict resolution and post bipolar security in the Middle East is to be understood is presented The Middle East peace process MEPP was an additional factor in problematizing the military strategic concept of security in the Middle East The shift in analysis from national security to human security reflects the transformations of the post Cold War era by combining military with non military concerns such as environmental damage social unrest economic mismanagement cultural conflict gender inequity and radical fundamentalism By way of contrast to realist international relations IR theory developing world theorists have proposed a different set of variables to explain the unique challenges facing developing states Finally the book examines the significance of ecopolitics in security agendas in the Middle East
