Paperbound Books in Print ,1992 **Beyond Black Hawk Down** Jonathan Carroll,2025-06-24 The story of Black Hawk Down is a familiar one On 3 October 1993 two Black Hawk helicopters were shot down and in the ensuing Battle of Mogadishu eighteen Americans and hundreds of Somalis were killed But very few appreciate that this was just one day in a two and a half year operation the most ambitious attempt in history to rebuild a nation The United States sought to show the world that the UN could rebuild a country but in a dire foreshadowing of the failed efforts in Iraq and Afghanistan a decade later the intervention in Somalia was plagued with political infighting policy mismatch confusion and fatal assumptions In 1992 Somalia saw the largest ever deployment of American troops to the continent of Africa and 1993 brought the first UN led peace enforcement mission and the most ambitious experiment in nation building In *Beyond Black Hawk Down* Jonathan Carroll provides the first scholarly military history of the entire intervention from its early and largely successful humanitarian phase in 1992 to the ultimate withdrawal of UN forces in 1995 Carroll dispels the myths and misunderstandings surrounding one of the most infamous episodes of the 1990s to present a new interpretation of events most notably by including the Somali perspective to argue what went so wrong in Somalia and more importantly why Understanding the intervention in Somalia its successes and the roots of its failures is invaluable to contemporary debates on concepts of nation building and counterinsurgency Moreover the increasing regularity of interstate and intrastate conflicts across the world means the international community will continue to be called upon to intervene in other failed or failing states in the future *Beyond Black Hawk Down* is an important new history that will inform the shape and nature of future military interventions *Forthcoming Books* Rose Arny,2003 **Quartermaster Professional Bulletin** ,1997 *United States Army Aviation Digest* ,1988 **Armor** ,1995 **Congressional Record** United States. Gallagher, 2019-09-15 Since 9 11 why have we won smashing battlefield victories only to botch nearly everything that comes next In the opening phases of war in Afghanistan Iraq and Libya we mopped the floor with our enemies But in short order things went horribly wrong We soon discovered we had no coherent plan to manage the day after The ensuing debacles had truly staggering consequences many thousands of lives lost trillions of dollars squandered and the apparent discrediting of our foreign policy establishment This helped set the stage for an extraordinary historical moment in which America s role in the world along with our commitment to democracy at home and abroad have become subject to growing doubt With the benefit of hindsight can we discern what went wrong Why have we had such great difficulty planning for the aftermath of war In *The Day After* Brendan Gallagher an Army lieutenant colonel with multiple combat tours to Iraq and Afghanistan and a Princeton Ph D seeks to tackle this vital question Gallagher argues there is a tension between our desire to create a new democracy and our competing desire to pull out as soon as possible Our leaders often strive to accomplish both to keep everyone happy But by avoiding the tough underlying decisions it fosters an incoherent strategy This makes chaos more likely *The Day After* draws on new interviews with dozens of civilian and military officials ranging from US cabinet secretaries to four star generals It also sheds light on how in Kosovo we lowered our postwar aims to quietly achieve a surprising partial success Striking at the heart of what went wrong in our recent wars and what we should do about it Gallagher asks whether we will learn from our mistakes or provoke even more disasters Human lives money elections and America s place in the world may hinge on the answer
