Arthur Conan Doyle, Sir

Poison Belt The:

The Poison Belt Arthur Conan Doyle, 2021-01-01 The Poison Belt was the second novel that Sir Arthur Conan Doyle wrote about Professor Challenger. It was first published in the year 1913. The Poison Belt Arthur Conan Doyle, 1913 The Poison Belt is a science fiction novel by British writer Arthur Conan Doyle, the second book about Professor Challenger. Much of it takes place in a single room in Challenger's house in Sussex. Challenger sends telegrams asking his three companions from The Lost World: Edward Malone, Lord John Roxton, and Professor Summerlee to join him at his home outside London and instructs each of them to bring oxygen. During their journey there, they see people's behaviour become excitable and erratic. On arrival, they are ushered into a sealed room along with Challenger and his wife. In the course of his researches into various phenomena, Challenger has predicted that the Earth is moving into a belt of poisonous ether, which, based on its effect on the people of Sumatra earlier in the day, he expects to stifle humanity. Challenger seals them in the room with cylinders of oxygen, which he correctly believes will counter the effect of the ether. The five wait out the Earth's passage through the poison belt as they watch the world outside: human and animal die, and machines run amok. According to Victorian values or to Doyle's understanding of them, Challenger's servants are left outside the sealed room and they continue to perform their duties until the ether overtakes them. Finally, the last of the oxygen cylinders is emptied, and they open a window, ready to face death. To their surprise, they do not die and conclude the Earth has now passed through the poison belt. They journey through the dead countryside in Challenger's car, finally arriving in London. They encounter only one survivor: an elderly bed-ridden woman prescribed oxygen for her health. After returning to Challenger's house, they discover that the effect of the ether is temporary and the world reawakens with no knowledge that they have lost any time at all. Eventually, Challenger and his companions manage to convince the world what happened, a task made easier by the tremendous amount of death and destruction caused by runaway machines and fires that took place while the world was asleep, and humanity is shocked into placing a higher value on life.
