- enlarged the various sections on the interpretation of results
- retained the format of the Second Edition, by keeping the alphabetical list for those occasions when specific analyses are required

Chapters include:

- Toxicology: General Considerations
- The Analysis
- Emergency Hospital Toxicology
- Drug Abuse Screening
- Investigations in the Dead

modifications developed to eliminate some of the inaccuracies resulting from incomplete destruction of hydrogen peroxide and instability of the developed chromophore The final chapter deals with the enzymatic methods for the determination of lactic and pyruvic acids in body fluids and tissues This book is a valuable resource for clinical chemists Information Resources in Toxicology P.J.
