Policies For Common Security:

Policies for Common Security Stockholm International Peace Research Institute (SIPRI), 2019-07-08 The basic idea of common security is not complex It is that no country can obtain security in the long run simply by taking unilateral decisions about its own military forces This is because security depends also on the actions and reactions of potential adversaries Security has to be found in common with those adversaries These ideas were considered in a SIPRI conference held in 1983 The conference had two main objectives The first was to undertake a critical examination of the concept The second was to consider the implications of the idea for policy in general and for disarmament and arms control policy in particular Originally published in 1985 this book contains revised versions of some of the papers presented at the conference

Europe's Common Security and Defence Policy Michael E. Smith, 2017-06-07 The EU's emergence as an international security provider under the first Common Security and Defence Policy CSDP operations in the Balkans in 2003 is a critical development in European integration In this book which relies on extensive interviews with CSDP officials Michael E Smith investigates how the challenge of launching new CSDP operations causes the EU to adapt itself in order to improve its performance in this realm through the mechanism of experiential institutional learning However although this learning has helped to expand the overall range and complexity of the CSDP the effectiveness of this policy tool still varies widely depending on the nature of individual operations The analysis also calls in to question whether the CSDP and the EU's broader structures under the 2009 Treaty of Lisbon are fit for purpose in light of the EU's growing strategic ambitions and the various security challenges facing Europe in recent years

The EU's Common Security and Defence Policy Giovanni Faleg, 2016-11-01 This book accounts for transformations in the EU's Common Security and Defence Policy CSDP during fifteen years of operations 2001-2016 and argues that the EU evolved into a softer and more civilian security provider rather than a military one This learning process was driven by transnational communities of experts and practitioners which acted as engines of change Giovanni Faleg analyses two innovative concepts introduced in the EU security discourse since the late 1990s security sector reform SSR and civilian crisis management CCM Both stem from a new understanding of security involving the development of non military approaches and a comprehensive approach to crisis management However the implementation of the two policy frameworks by the EU led to very different outcomes The book explains this variation by exploring the pathways by which ideas turn into policies and by comparing the transformational power of epistemic communities and communities of practice
