The Technology of Policing Peter K. Manning, 2011 With the rise of surveillance technology in the last decade police departments now have an array of sophisticated tools for tracking monitoring even predicting crime patterns In particular crime mapping a technique used by the police to monitor crime by the neighborhoods in their geographic regions has become a regular and relied upon feature of policing Many claim that these technological developments played a role in the crime drop of the 1990s and yet no study of these techniques and their relationship to everyday police work has been made available Noted scholar Peter K Manning spent six years observing three American police departments and two British constabularies in order to determine what effects these kinds of analytic tools have had on modern police management and practices While modern technology allows the police to combat crime in sophisticated detail oriented ways Manning discovers that police strategies and tactics have not been altogether transformed as perhaps would be expected In The Technology of Policing Manning untangles the varying kinds of complex crime control rhetoric that underlie much of today's police department discussion and management and provides valuable insight into which are the most effective and which may be harmful in successfully tracking criminal behavior The Technology of Policing offers a new understanding of the changing world of police departments and information technology's significant and undeniable influence on crime management

Democratic Policing in a Changing World Peter K. Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies
